Organizational Chart

October 29, 2015

To the Board of Commissioners of the Memphis-Shelby County Airport Authority

The Comprehensive Annual Financial Report ("CAFR") of the Memphis-Shelby County Airport Authority (the "Authority") for the fiscal year ended June 30, 2015, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Finance Division of the Authority. To the best of our knowledge and belief, and as indicated by the opinion of our independent auditors, the enclosed data of the Authority is accurate in all material respects and reported in a manner designed to present fairly the financial position, results of operations, and cash flows in accordance with accounting principles generally accepted in the United States of America ("GAAP"). All disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities have been included.

In developing and evaluating the Authority's accounting system, consideration is given to the adequacy of internal control. The objectives of internal control are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the evaluation of costs and benefits requires estimates and judgments by management. We believe that the Authority's internal control processes adequately safeguard assets and provide reasonable assurance that financial transactions are authorized and recorded properly.

The CAFR is presented in four sections: Introductory, Financial, Statistical and Compliance. Just prior to the Introductory Section is a list of principal officials and the table of contents. The Introductory Section includes this transmittal letter, the Authority's organizational chart and a copy of the Certificate of Achievement for Excellence in Financial Reporting awarded to the Authority by the Government Finance Officers Association of the United States and Canada for the fiscal year ended June 30, 2014. The Financial Section includes the independent auditors' report, Management's Discussion and Analysis ("MD&A") of the financial condition of the Authority, the Authority's financial statements, and supplemental schedules. The Statistical Section includes select financial and demographic information, generally presented on a multi-year basis. The Compliance Section includes Schedule of Expenditures of Federal and State Awards, the related independent auditors' reports and the Schedule of Findings and Questioned Costs.

Management is required by GAAP to provide a narrative introductory overview and analysis as an accompaniment to the financial statements in the form of MD&A. This letter of transmittal should be read in conjunction with MD&A, which is discussed in the preceding paragraph and can be found in the Financial Section of this report.

Pursuant to Article VII E. of the Agreement between the City of Memphis ("City") and the Authority dated May 26, 1970, an audit of the financial statements has been completed by the Authority's independent certified public accountants, Dixon Hughes Goodman LLP. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Authority for the fiscal year ended June 30, 2015, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Authority's financial statements for the fiscal year ended June 30, 2015, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the Financial Section of this report.

The Single Audit Act of 1984 and U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, require the Authority to arrange for an annual audit in conformity with their provisions. Information related to a single audit, including the Schedule of Expenditures of Federal and State Awards, findings and recommendations, is reported in the Compliance Section of this report. The independent auditors' reports on the internal control structure and compliance with applicable laws and regulations are also included in the Compliance Section of this report.

PROFILE OF THE MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY

The Authority is established pursuant to the Metropolitan Airport Authority Act of Tennessee and all amendments thereto. The major purposes of the Authority are to plan, establish, acquire, construct, improve and operate one or more airports within the City and Shelby County (the "County"). The Authority has the power to issue bonds to accomplish any of the purposes authorized by the Metropolitan Airport Authority Act of Tennessee. All bonds shall be payable solely from the revenues, income, and charges of the Authority and such bonds shall not constitute an obligation of the City or County.

The Mayor of the City, with the Mayor of Shelby County nominating two, appoints all members of the seven-member Board of Commissioners (the "Board") to govern the Authority. The Memphis City Council confirms these appointments for a seven-year term. A member of the Board may be removed from office by a two-thirds vote of the Memphis City Council, but only after notice of cause for the removal has been served and the member has been granted an opportunity for a public hearing on the matter.

The Board appoints the President, who is the chief executive officer of the Authority. The President appoints, and the Board confirms, the remaining officers. These officers manage and operate the Authority's airports with a staff of approximately 300 employees, both permanent and temporary.

The Authority prepares an annual budget on the basis established by the 1973 General Revenue Bond Resolution dated June 15, 1973 for all accounts and funds established by those agreements and resolutions, except construction and debt service funds. The annual budget serves as the foundation for the Authority's financial planning and control. All appropriations, except open project account appropriations, lapse at the end of each fiscal year and must be reappropriated. Since there is no legal requirement to report on the budgetary basis, no budget information is presented in the accompanying financial statements.

The Authority owns Memphis International (the "Airport"), Charles W. Baker, and General DeWitt Spain Airports. Charles W. Baker Airport ("Baker") is located south of Millington, Tennessee and General DeWitt Spain Airport ("Spain") is located just north of downtown Memphis. Both Baker and Spain Airports serve general aviation and are considered reliever airports for the Airport.

The Airport occupies about 4,600 acres of land in Shelby County and is 13 miles by road southeast of downtown Memphis. The Airport is 99.9% unaffected by impassable weather and handles all types of aircraft. The Airport has four runways equipped with precision instrument landing systems suitable for use by large aircraft and a surface movement guidance system allowing the Airport to operate down to a 300 foot runway visual range. The terminal building has 60 gates to accommodate passenger aircraft and includes a Federal Inspection Station ("FIS") for clearing international flights and associated passengers.

FACTORS AFFECTING FINANCIAL CONDITION

Economic Conditions and Outlook

The Memphis area continues to show the effects of the slow recovering economy. The Memphis Metropolitan Statistical Area ("MMSA") unemployment rate for August 2015 was 6.4%, which was above the State of Tennessee and the national rates of 5.4% and 5.1%, respectively.

During Fiscal Year 2015 over 98 percent of the enplanement activity was origination and destination (O&D) activity. Of the total FY 2015 enplanement activity at the Airport, Delta Air Lines comprised 39 percent, American Airlines approximately 29%, Southwest about 16 percent, United Airlines about 12 percent and the other airlines making up the balance. The outlook for FY 2016 is for American Airlines, Southwest, United Airlines, Allegiant and Frontier to comprise larger percentages of the total enplanement activity and spread the concentration of enplanement activity across all carriers. As a result, the Airport is experiencing enhanced air service competition, additional non-stop destinations which is leading to a reduction in average air fares for the Memphis passenger market. The Airport's FY 2016 first quarter O&D traffic grew more than 12% over the prior year's first quarter activity level.

The Authority has developed multi-year financial projections, taking into account estimated impacts on the Airport's landed weight, non-airline revenues, amount of leased space in the terminal complex and operating expenses and projects a cost per enplaned passenger ("CPE") to be reasonable when compared to airports of similar size and activity levels.

Cargo air carriers, primarily FedEx Express, continue to have a significant impact at the Airport; accordingly, the Airport handled a total of 4.7 million U.S. tons of cargo in fiscal year 2015. The Airport is ranked #1 in the United States for total air cargo handled, and #2 in the world according to statistics reported by Airports Council International, Geneva, Switzerland. Over 94% of the cargo was reported as domestic. FedEx Corporation ("FedEx"), the world's largest express transportation company, is headquartered in Memphis and operates its primary overnight package sorting facility at the Airport. FedEx continues to dominate the cargo business at the Airport, transporting approximately 99% of all cargo handled at the Airport in fiscal year 2015. This activity keeps the Airport active twenty-four hours a day. Based on information from FedEx, the Authority believes that FedEx has shifted sorting activity from its regional facilities back to the Airport in order to make better use of the SuperHub capacity.

Population and Employment

The MMSA encompasses a 3,000-square-mile area comprised of Shelby, Fayette and Tipton Counties in Tennessee, Desoto County in Mississippi, and Crittenden County in Arkansas. Transportation and distribution services, tourism, technology, healthcare, trade, and construction help make the MMSA a richly diverse economic engine.

The MMSA population was 1,239,292 according to the United Stated 2010 Census, which is up 9% from 2000. Additionally, the population for the MMSA is expected to increase to 1,402,486 by 2025. Shelby County's population for 2010 was 927,644, which was 3% higher than the 897,500 for 2000. More population information can be found in the Statistical Section.

The Airport is the principal air carrier airport serving the MMSA with approximately 80% of the passengers originating their air journeys living in the MMSA.

The Airport and the Port of Memphis, as well as the seven federal highways, 15 state highways and two U. S. interstate systems, with a third one under construction, that cross the City, along with its central location in the United States, all contribute to Memphis' position as America's Distribution Center. Accordingly, transportation plays a major role in the economy of the MMSA. More metropolitan markets can be served overnight (within 600 miles) from Memphis than any other city in the central United States. Memphis offers multiple inter-modal transportation options such as air to truck or truck to air, water to truck or rail, or rail to truck. Memphis boasts the fourth busiest inland river port with enhanced inter-modal capabilities.

Visitors are also attracted to Memphis for sporting events such as the Grizzlies, a National Basketball Association team, the Redbirds, a AAA team affiliate with Major League Baseball's 2011 World Champion St. Louis Cardinals, the AutoZone Liberty Bowl Football Classic and the St. Jude Golf Classic, to name a few. Gaming has developed as a major contributor to the economy of the MMSA. Tunica County, Mississippi, just 30 miles from downtown Memphis, is recognized as the tenth largest grossing gaming center in the country. Memphis also attracts worldwide visitors to Graceland, home of Elvis Presley, St. Jude Children's Research Center, Stax Museum of American Soul Music and the National Civil Rights Museum.

LONG TERM FINANCIAL PLANNING

Master Plan/Strategic Plan

One of the tools the Authority uses for long term planning is the Master Plan, which is updated every 7 to 10 years. The Authority has issued a Master Plan update in January 2010. This document is prepared with the input of staff, the signatory airlines, and other key tenants of the Airport. The Master Plan specifies the physical improvements that are needed to meet projections of future demand. It consists of a technical report that specifies the logic and reasoning for proposed capital improvements as well as large scale drawings that illustrate the physical layout of the improvements. The financial implications of a master plan are very important because it serves as the basis for requesting federal funds for the construction of capital improvements proposed in the plan. The Authority's most recent update of the Master Plan provides a flexible and cost-effective guide for the future development of the Airport through the year 2020. Capital improvements recommended by the plan are demand-driven. This means that although there are a large number of projects proposed by the plan, only those that are needed as a result of actual increase in demand will be constructed.

The Authority has also developed a comprehensive Strategic Plan, which will identify and inventory strengths and weaknesses and guide the Authority's operating, capital and financial planning for the next 5-7 years.

Multi-Year Financial Plan

The Authority prepares Multi-Year Financial Plans, which are updated annually. This plan contains the first year of the proposed annual Operating Budget and the remaining two years reflecting fiscal projections developed through a combination of historical trends, contractual and other known commitments, anticipated changes to future revenues and expenditures, and other reasonable assumptions. The five year Capital Improvements Budget is updated annually and contains the current fiscal year and the ensuing four fiscal years.

RELEVANT FINANCIAL POLICIES

Cash and Investment Management

The Authority uses a portfolio manager to help direct the investment of the Authority's funds and to provide comparative investment market information. Allowable investments are limited to those authorized by the 1988 Bond Resolution. All investments were made in compliance with their applicable resolution or bond indenture.

The Authority invests temporarily idle cash in direct obligations of or obligations guaranteed by the United States Government, obligations of specific agencies of the United States Government, New Housing Authority Bonds or Project Notes issued by public agencies or municipalities and guaranteed by the United States Government, secured negotiable certificates of deposit, and secured repurchase agreements. Investments are insured, registered or held by a trustee in the Authority's name.

The Authority's primary objective under this policy is to preserve the principal of those funds within the portfolio.

The portfolio is managed in such a manner that assures that funds are available as needed to meet immediate and/or future operating requirements and that it is managed to maximize the return of investments. At year-end, all Authority investments are presented in the basic financial statements at fair market value.

Risk Management

It is the policy of the Authority to eliminate or transfer risk where possible. The Authority currently maintains approximately \$1.2 billion of total insurance coverage. For claims arising out of bodily injury or property damage at the Airport, the Authority carries approximately \$300 million of liability insurance. The Authority also has approximately \$800 million of property insurance on airport properties, which includes flood and earthquake coverage. The Authority or its tenants, within limits and with deductibles approved by the Authority, maintain fire insurance coverage on all buildings at the airports. Contractors and lessees are required to carry certain amounts of insurance. A schedule of insurance in force at June 30, 2015, can be found in the Statistical Section of this report.

In addition to the coverage discussed above, the Authority maintains an Owner Controlled Insurance Program ("OCIP"). OCIP is a method of assuring that all contractors and subcontractors of any tier performing work at a construction project jobsite are provided insurance for Tennessee Workers' Compensation, Employers Liability, and Commercial General Liability, including Completed Operations and Excess Liability. The Authority pays for the full cost of the OCIP and charges those costs back to the projects covered.

The Authority has also implemented various risk control techniques including employee safety and accident training. The Authority's general counsel reviews all contracts and leases.

Debt Management

As part of its strategic and long-term financial planning, the Authority strives to ensure that financial resources are adequate to meet long-term planning objectives. In managing its debt, the Authority strives to achieve the lowest cost of capital, ensure high credit quality, assure access to the capital credit markets, preserve financial flexibility, and manage interest rate risk exposure. See Note 6 of the notes to the basic financial statements in the Financial Section for Long-Term Debt information.

Pension and other Post-employment Benefits

The Authority participates in the defined benefit pension plans of the City of Memphis Retirement System. A Board of Administration administers the plans under the direction of the City's Mayor. Substantially all full-time salaried employees are required to participate in one of the two plans. The plans provide retirement benefits as well as death and disability benefits. The Authority is required to contribute at a statutorily determined rate. See Note 9 of the notes to the basic financial statements in the Financial Section for more information.

The Authority also provides a supplemental retirement benefit to all Authority participants in the City of Memphis Retirement System. It is a defined contribution plan under which the Authority makes contributions on a discretionary basis. See Note 10 of the notes to the basic financial statements in the Financial Section for more information.

In addition to the pension benefits, the Authority provides 80% of the cost of certain health care and life insurance coverage to active employees and those who retire from the Authority under the provisions of the City's Retirement System. See Note 12 of the notes to the basic financial statements in the Financial Section for more information.

MAJOR INITIATIVES

Terminal Apron Replacement. Starting in March 2012, the apron area around the three passenger terminals is being replaced in three stages, the project will replace the apron concrete and replace the existing fueling piping and control stations with new equipment. This project is expected to take three years to complete at a cost of approximately \$110 million. Phase one and two of the project are complete and Phase three work has begun and should be completed by December 2015.

Concourse Modernization Project. The Authority has identified preliminary Concourse B modernization concepts and the related design efforts will begin in December 2015. This project will create higher ceilings and wider corridors filled with natural light throughout concourse, add moving walkways, create special purpose public use areas and enhance concession concept opportunities. The project is expected to take approximately three years to complete at a cost yet to be determined. Construction should begin in fiscal year 2016 with a projected completion by mid-fiscal year 2020.

AWARDS AND ACKNOWLEDGMENTS

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to the Authority for its Comprehensive Annual Financial Report ("CAFR") for the fiscal year ended June 30, 2014. The Authority has received a Certificate of Achievement for twenty-six consecutive fiscal years from 1989-2014. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparations of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, the contents of which conform to program standards. The CAFR must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program's requirements, and we are submitting it to GFOA for consideration.

Acknowledgements

The preparation of the financial statements would not have been possible without the efficient and dedicated services of the entire staff of the Finance Division. We would like to express our appreciation to all members of the Division for their help and contributions to its preparation.

Respectfully submitted,

Scott A. Brockman, A.A.E.

Management's Discussion and Analysis

Financial Statements

Supplemental Schedules

Independent Auditors' Report

The Board of Commissioners and Management Memphis-Shelby County Airport Authority

Report of the Financial Statements

We have audited the accompanying financial statements of the Memphis-Shelby County Airport Authority (the "Authority"), a component unit of the City of Memphis, Tennessee, as of and for the year ended June 30, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net position of the Authority as of June 30, 2015 and 2014, and the respective changes in net position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

New Accounting Pronouncement

As described in Note 1 to the financial statements, the Authority has adopted new accounting guidance, GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No.* 27. The cumulative effect of the adoption of this new guidance resulted in a restatement in net position as of June 30, 2014 of \$15,492,000. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 18 through 36 the schedule of proportionate share of the net pension liability and related ratios and the schedule of contributions on page 67 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The introductory section, supplemental schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The supplemental schedules and the schedule of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules and the schedule of expenditures of federal and state awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 29, 2015, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Dixon Hughes Goodman LLP

Memphis, Tennessee October 29, 2015

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2015

The following discussion and analysis of Memphis-Shelby County Airport Authority's (the "Authority") financial performance provides an introduction and overview of the Authority's financial activities for the fiscal years ended June 30, 2015 and 2014. Please read this discussion in conjunction with the Authority's basic financial statements and the notes to the basic financial statements immediately following this discussion.

All dollar amounts, except per unit data, are expressed in thousands.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Authority owns and operates Memphis International Airport and two general aviation airports, Charles W. Baker and General DeWitt Spain. The Authority is presented as an enterprise fund with separate accounts for each of the three airports. The accounts of the Authority are reported using the flow of economic resources measurement focus. The financial statements are prepared on the accrual basis of accounting, under which revenues are recognized when earned and expenses are recognized when incurred. All capital assets, except land, avigation easements, and construction-in-process are capitalized and depreciated over their useful lives. See Note 1 of the notes to the basic financial statements for a summary of the Authority's significant accounting policies.

The *Statements of Net Position* present all of the Authority's assets, deferred outflows of resources, liabilities and deferred inflows of resources. The difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of the Authority's financial position. However, the consideration of other non-financial factors, such as changes within the airline industry, may be necessary in the assessment of the overall financial position and health of the Authority.

The Statements of Revenues, Expenses and Changes in Net Position present all revenues and expenses of the Authority, regardless of when cash is received or paid, and the ensuing change in net position.

The *Statements of Cash Flows* report how cash was provided and used by the Authority's operating, capital financing, and investing activities. These statements are prepared on a cash basis and present the cash received and disbursed, the net increase or decrease in cash for the year, and the cash and balance at year-end.

In addition to the basic financial statements, this report includes a section for statistical information. This section presents certain unaudited information related to the Authority's historical financial and non-financial operating results, bonded debt activity, capital asset activity, and other demographic information.

MEMPHIS-SHELBY COUNTY AIPORT AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

FINANCIAL HIGHLIGHTS FOR FISCAL YEAR 2015

- Operating revenues of \$100,542 for fiscal year 2015 decreased by \$12,910 (11 percent) compared to fiscal year 2014 revenues of \$113,452.
- Operating expenses, before depreciation and amortization, of \$53,923 for fiscal year 2015 decreased by 3 percent compared to fiscal year 2014 operating expenses of \$55,617.
- The Authority's total net position at June 30, 2015 was \$668,690. This is a decrease of \$17,069 (2 percent) over total net position of \$685,759 at June 30, 2014.
- Capital assets, net of accumulated depreciation decreased by \$20,883 mainly due to fiscal year 2015 net capital additions of approximately \$43,453; offset by the current year change in accumulated depreciation of \$64,336.
- The Authority's total outstanding long-term bonds and notes payable, net at June 30, 2015 decreased by \$15,602 (4.5 percent) compared to June 30, 2014 due primarily to scheduled principal payments made during fiscal year 2015, the reclassification of certain debt between current and long-term liability and the addition of a \$7 note payable.

FINANCIAL HIGHLIGHTS FOR FISCAL YEAR 2014

- Operating revenues of \$113,452 for fiscal year 2014 increased by \$986 (.9 percent) compared to fiscal year 2013 revenues of \$112,466.
- Operating expenses, before depreciation and amortization of \$55,617 for fiscal year 2014 decreased by 4.2 percent compared to fiscal year 2013 operating expenses of \$58,049.
- The Authority's total net position at June 30, 2014 was \$685,759. This is an increase of \$2,807 (.4 percent) over total net position at June 30, 2013.
- Capital assets, net of accumulated depreciation decreased by \$35,217 mainly due to fiscal year 2014 net capital additions of approximately \$30,153; offset by the current year change in accumulated depreciation of \$65,370.
- The Authority's total outstanding long-term bonds and note payable, net at June 30, 2014 decreased by \$88,382 (20.4 percent) compared to June 30, 2013 due primarily to scheduled debt service payments of principal made during fiscal year 2014 and the reclassification of certain debt to a current liability as it is due within one year.

FINANCIAL ANALYSIS

At June 30, 2015, the Authority's net position decreased year over year with total assets and deferred outflows of \$1,137,156, total liabilities and deferred inflows of \$468,466 and total net position of \$668,690. A comparative combined condensed summary of the Authority's net position at June 30, 2015, 2014 and 2013 is as follows:

MEMPHIS-SHELBY COUNTY AIPORT AUTHORITY SUMMARY OF CHANGES IN NET POSITION

	2015	2014	2013
Assets			
Current assets	\$169,037	\$193,481	\$162,531

Total net position	\$668,690	\$685,759	\$682,952

Fiscal Year 2015

Current assets at June 30, 2015 decreased by \$24,444 (12.6 percent) when compared to current assets at June 30, 2014. This decrease was primarily due to a decrease of \$46,012 in Special Facilities rent receivable, offset by an increase of \$13,347 in cash and investments, a \$9,039 increase in capital contributions receivable, and an increase of \$262 in accounts receivable. The decrease in Special Facilities rent receivable was due to the final payment from FedEx on the Special Facilities Revenue Bonds, Refunding Series 2003. The increase in cash and investments was mainly due to the reclassification of certain non-current investments to current investments, offset by ongoing construction costs for the Terminal Apron Project and various other ongoing construction projects. The increase in capital contributions receivable results from the timing of when capital expenditures were incurred (revenue recognized) and thus became eligible for the related reimbursement from the grantor agency. The increase in accounts receivable was mainly due to the final agreed upon completion of our Ground Transportation Center capital project.

Capital assets, net of depreciation decreased by \$20,883 in fiscal year 2015 compared to fiscal year 2014 primarily due to the Authority's ongoing capital improvement program. Fiscal year 2015 net capital additions were \$43,453, offset by the current year change in accumulated depreciation of \$64,336.

MEMPHIS-SHELBY COUNTY AIPORT AUTHORITY SUMMARY OF CHANGES IN NET POSITION (CONTINUED)

Non-current assets, other than capital assets, decreased by \$27,368 due to a decrease of \$20,691 in investments occurring from the reclassification of certain non-current investments to current investments and a decrease in notes receivable related to the fuel farm improvements of \$6,677.

The deferred outflows of resources relates to the loss on bond refundings (the difference between the reacquisition price and the net carrying amount of the old debt) and deferred actuarial loss under GASB 68. The decrease of \$1,007 in deferred losses on bond refundings is the systematic recognition of interest expense over the remaining life of the old debt or of the new debt, whichever is shorter.

Current liabilities decreased from \$107,207 in 2014 to \$52,081 in 2015. This decrease of \$55,126 (51 percent) is primarily due to decreases in current maturities of long-term debt (\$54,414) and accrued interest payable (\$1,632), offset partially by increases in accounts payable (\$1,100) and construction contracts payable (\$358). The decrease in current maturities of long-term debt is mainly due to the final balloon payment from FedEx of \$45,000 on the Special Facilities Revenue Bonds, Refunding Series 2003. The decrease in accrued interest payable is due to the reduced principal balance of outstanding bonds as a result of the payment of principal, based on amortization schedules, during the fiscal year. The increase in accounts payable is due to the timing of the receipt of normal operating invoices subsequent to the fiscal year end. The increase in construction contracts payable is due to the increased activity on the Terminal Apron Project.

Long-term liabilities at June 30, 2015 were \$411,796, a decrease of \$2,312 compared to June 30, 2014 (\$414,108). The decrease in long-term liabilities was due to the net decrease of \$20,916 for certain debt reclassified from long-term debt to a current liability; as it is due within one year, the amortization of \$1,469 for bond premium costs, the amortization of \$1,540 to recognize rental revenue from FedEx Corporation related to the prior TnANG facility, offset by the GASB 68 required recording of the cumulative net pension liability (\$14,719), the new MEMFuel note payable (\$6,783) and increased compensated absences (\$111), due to certain amounts reclassified to a current liability from a long-term liability.

The deferred inflows of resources relates to the deferred actuarial gains as a result of implementing GASB 68.

The largest portion of the Authority's net position is the net investment in capital assets of \$587,325 (e.g. land, buildings, machinery and equipment). The Authority uses these assets to provide services to passengers, visitors and tenants of the airport; accordingly, these assets are not available for future spending or to service the related debt. Therefore, the resources needed to repay this debt must be provided from operations, since the capital assets themselves are not used to liquidate these liabilities.

MEMPHIS-SHELBY COUNTY AIPORT AUTHORITY SUMMARY OF CHANGES IN NET POSITION (CONTINUED)

Fiscal Year 2014

Current assets at June 30, 2014 increased by \$30,950 (19.0 percent) when compared to current assets at June 30, 2013. This increase was primarily due to an increase of \$46,012 in Special Facilities rent receivable, offset by a decrease of \$12,243 in cash and investments, a \$2,637 decrease in capital contributions receivable, and a decrease of \$163 in accrued interest receivable. The increase in Special Facilities rent receivable was due to a reclassification to current assets for the receivable from FedEx on the payment of the Special Facilities Revenue Bonds, Refunding Series 2003. The decrease in cash and investments was mainly due to ongoing construction costs for the Terminal Apron Project and various other ongoing construction projects, the reclassification of certain current cash and investments to non-current investments offset by revenues collected in excess of actual expenses. As a result, accrued interest receivable was lower due to smaller cash balances available to invest. The decrease in capital contributions receivable results from the timing of when capital expenditures were incurred (revenue recognized) and thus became eligible for the related reimbursement from the grantor agency.

Capital assets, net of depreciation decreased by \$35,217 in fiscal year 2014 compared to fiscal year 2013 primarily due to the Authority's ongoing capital improvement program. Fiscal year 2014 net capital additions were \$30,153, offset by the current year change in accumulated depreciation of \$65,370.

Non-current assets, other than capital assets, decreased by \$26,496 due to a decrease of \$43,762 in Special Facilities rent receivable, offset by increased unrestricted and restricted investments of \$10,589 and an increase in new notes receivable related to the fuel farm improvements of \$6,677. The decrease in Special Facilities rent receivable was due to a receivable from FedEx on the payment of the Special Facilities Revenue Bonds, Refunding Series 2003 moving to a current asset. The increase in investments was mainly due to the decision to move certain restricted assets from demand deposits to investments; as a result, these funds were reclassified from current assets at June 30, 2013 to other non-current assets at June 30, 2014.

The deferred outflows of resources relates to the loss on bond refundings (the difference between the reacquisition price and the net carrying amount of the old debt). The decrease of \$1,301 is the systematic recognition of interest expense over the remaining life of the old debt or of the new debt, whichever is shorter.

Current liabilities increased from \$52,051 in 2013 to \$107,207 in 2014. This increase of \$55,156 (106 percent) is primarily due to decreases in construction contracts payable (\$1,545), accounts payable (\$906) and accrued interest payable (\$518) offset by increased current maturities of long-term debt of \$57,979. The decrease in construction contracts payable is due to the near completion of the Access Control and CCTV project and other smaller capital projects. The decrease in accounts payable is mainly due to the year over year reduction in operation and maintenance expenses, resulting in a lower trade account payable balance for fiscal year 2014. The decrease in accrued interest payable is due to the reduced principal balance of outstanding bonds as a result of the payment of principal, based on amortization schedules, during the fiscal year.

Long-term liabilities at June 30, 2014 were \$414,108, a decrease of \$90,027 compared to June 30, 2013 (\$504,135). The decrease in long-term liabilities was mainly due to the reduction in bonds and notes payable by

MEMPHIS-SHELBY COUNTY AIPORT AUTHORITY SUMMARY OF CHANGES IN NET POSITION (CONTINUED)

the payment of approximately \$28,700 on outstanding Airport Revenue Bonds, the decrease of \$57,979 for certain debt reclassified from long-term debt to a current liability; as it is due within one year, the amortization of \$1,617 for bond premium costs, the amortization of \$1,540 to recognize rental revenue from FedEx Corporation related to the prior TnANG facility, and decreased compensated absences of \$105, due to certain amounts reclassified to a current liability from a long-term liability.

The largest portion of the Authority's net position is the net investment in capital assets of \$593,252 (e.g. land, buildings, machinery and equipment). The Authority uses these assets to provide services to passengers, visitors and tenants of the airport; accordingly, these assets are not available for future spending or to service the related debt. Therefore, the resources needed to repay this debt must be provided from operations, since the capital assets themselves are not used to liquidate these liabilities.

The Authority's restricted net position of \$61,599 represents resources that are subject to restrictions from contributors, bond resolutions and State and Federal regulations on how they may be used. The remaining balance, unrestricted net position of \$30,908 in fiscal year 2014 compared to \$25,684 for fiscal year 2013, may be used for any lawful purpose of the Authority.

SUMMARY OF CHANGES IN NET POSITION

	2015	2014	2013

Non-operating income	7,974	7,873	7,469
Non-operating expense	(17,972)	(22,450)	(22,705)
Loss before capital contributions	(28,966)	(22,112)	(20,419)
Capital contributions	27,389	24,919	37,979
Increase (decrease) in net position	(\$1,577)	\$2,807	\$17,560

The following table presents revenue by major source for the years ended June 30, 2015, 2014 and 2013 and the pie charts show the percentage of revenues by source for the years ended June 30, 2015 and 2014. Due to the strong presence of cargo operations at Memphis International Airport (FedEx super-hub and the world's second largest in total tonnage), airline revenues have been separated to reflect separate passenger and cargo categories.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY REVENUES

Fiscal Year 2015

Operating revenues of \$100,542 for fiscal year 2015 decreased by \$12,910 (11.4 percent) compared to fiscal year 2014 revenues of \$113,452. This decrease in operating revenues is primarily due to decreased passenger landing fees (\$842), airline terminal rentals (\$4,256), cargo landing fees (\$4,365), terminal concessions (\$567), other non-airline rentals (\$1,842) and Special Facilities lease income (\$4,275), offset by increases in cargo ground rents (\$2,045), parking revenues (\$975), GTC rentals (\$309) and rental car concessions (\$262). Such activity was due to the residual Airport Use Agreement that requires airline revenues to be recognized to the extent necessary to pay the Authority's operating and maintenance expenses and net debt service requirements, reduced by non-airline revenues.

Non-operating revenues for fiscal year 2015 are comprised of interest income (\$2,115), customer facility charges (CFC) (\$5,703), operating grants (\$19) and gain on disposal of fixed assets (\$137). Total non-operating revenues increased by \$101 in fiscal year 2015 compared to fiscal year 2014 non-operating revenues. This increase was mainly due to additional CFC revenues (\$373) due to increased rental car activity, gain on the disposal of assets (\$137) offset by reduced investment earnings of \$380 as a result of slightly lower yields.

Capital contributions, comprised primarily of Federal capital grants, increased from \$24,919 in fiscal year 2014 to \$27,389 in fiscal year 2015, as a result of when capital expenditures were incurred (revenue recognized) and thus became eligible for the related reimbursement from the Federal government.

Fiscal Year 2014

Operating revenues of \$113,452 for fiscal year 2014 increased by \$986 (.9 percent) compared to fiscal year 2013 revenues of \$112,466. This increase in operating revenues is primarily due to increased cargo landing fees (\$1,639), cargo ground rents (\$1,540), airline terminal rentals (\$508), parking revenues (\$1,945) and GTC rentals (\$549) offset by decreases in passenger landing fees (\$1,471), terminal concession fees (\$1,368) and other rentals and restricted rental income (\$2,091). Such activity was due to the residual Airport Use Agreement that requires airline revenues to be recognized to the extent necessary to pay the Authority's operating and maintenance expenses and net debt service requirements, reduced by non-airline revenues.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY REVENUES (CONTINUED)

Non-operating revenues for fiscal year 2014 are comprised of interest income (\$2,495), customer facility charges (CFC) (\$5,330), and operating grants (\$48). Total non-operating revenues increased by \$404 in fiscal year 2014 compared to fiscal year 2013 non-operating revenues. This increase was mainly due to greater investment earnings of \$483 as a result of slightly higher yields, additional CFC revenues of \$211 due to increased rental car activity offset by gains on sale of assets recognized in the prior year that were not in the current year.

Capital contributions, comprised primarily of Federal capital grants, decreased from \$37,979 in fiscal year 2013 to \$24,919 in fiscal year 2014, as a result of when capital expenditures were incurred (revenue recognized) and thus became eligible for the related reimbursement from the Federal government.

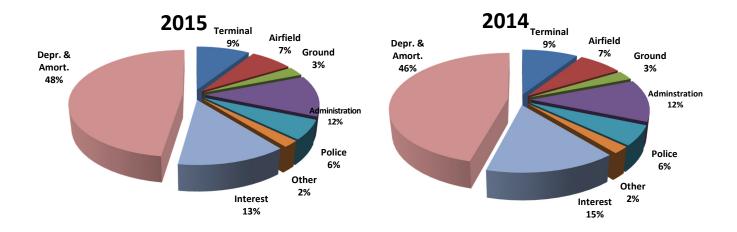

MEMPHIS-SHELBY COUNTY AIRPORTY AUTHORITY EXPENSES

The following table presents expenses by cost center for the years ended June 30, 2015, 2014 and 2013 and the pie charts show the percentage of expenses by cost center for the years ended June 30, 2015 and 2014.

EXPENSES BY COST CENTER

	2015	2014	2013
Operating Expenses			
Airfield area	\$9,945	\$10,278	\$10,338

Total Expense	\$137,482	\$143,437	\$140,354

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY EXPENSES (CONTINUED)

Fiscal Year 2015

In fiscal year 2015, the Authority's operating expenses of \$53,923 decreased compared to fiscal year 2014 operating expenses of \$55,617 by \$1,694 (3 percent). The net decrease was mainly due to decreased airfield, terminal, administration, police and operations and other expenses of \$334, \$556, \$474, \$142 and \$135, respectively. The decrease in airfield costs was mainly due to the decrease in costs related to a fire protection and ambulance services contract, the cost of fuel related to sales at the reliever airports and a reduction in overall expenses; offset partially by higher deicing chemicals costs due to an increased number of snow events. The decrease in terminal costs was mainly due to decreased utility costs and salaries and benefits costs. The decrease in administration costs was primarily due to decreased salaries and wages and related benefits and costs related to the airline incentive program offset by increased legal fees. The decrease in the police and operations expenses was mainly due to lower salaries and wages and related benefit costs. The decrease in other costs was mainly due to fewer field shop equipment parts for ongoing maintenance and lower fuel costs.

Depreciation expense increased from \$65,370 in fiscal year 2014 to \$65,587 for fiscal year 2015. This increase of \$217 is mainly due to greater depreciation expense related to the increase of depreciable Authority assets year over year.

Non-operating expenses are comprised of interest expenses on outstanding debt and loss on disposal of fixed assets. Fiscal year 2015 interest expense of \$17,972 decreased \$3,453 compared to fiscal year 2014 interest expense of \$21,425. This decrease in interest expense was due to the scheduled payments of principal on outstanding bonds and notes; as a result, interest expense was reduced year over year. The loss on disposal of fixed assets decreased in fiscal year 2015. The loss on disposal of fixed assets (\$1,025) in fiscal year 2014 related to facilities and runway infrastructure that was replaced before the end of their useful lives.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY EXPENSES (CONTINUED)

Fiscal Year 2014

In fiscal year 2014, the Authority's operating expenses of \$55,617 decreased compared to fiscal year 2013 operating expenses of \$58,049 by \$2,432 (4.2 percent). The net decrease was mainly due to decreased terminal, administration and ground transportation expenses of \$1,631, \$1,173 and \$507, respectively, offset by increased police and operations costs and other costs of \$809 and \$130, respectively. The decrease in terminal costs was mainly due to decreased janitorial costs, utility costs, and repair and maintenance costs. The decrease in administration costs was primarily due to decreased salaries and wages and related benefits as a result of a reclassification of these costs for certain positions to police and operations and across the board savings due to cost control measures offset by increased costs related to the airline incentive program. The decrease in ground transportation expenses was mainly due to the elimination of passenger and employee shuttle bus costs as off-site parking was replaced by terminal area surface lots; thus, eliminating the need for the shuttle buses offset by increased utility fees based on an updated cost allocation methodology. The increase in the police and operations expenses was mainly due to higher salaries and wages and related benefit costs related to the reclassification of these costs from administration to police and operations and airport security guard services related primarily to airfield construction projects. The increase in other costs was mainly due to additional field shop equipment parts for ongoing maintenance and higher environmental costs due to additional environmental monitoring requirements.

Depreciation expense increased from \$59,600 in fiscal year 2013 to \$65,370 for fiscal year 2014. This increase of \$5,770 is mainly due to greater depreciation expense related to the increase of depreciable Authority assets year over year.

Non-operating expenses are comprised of interest expenses on outstanding debt and loss on disposal of fixed assets. Fiscal year 2014 interest expense of \$21,425 decreased \$1,280 compared to fiscal year 2013 interest expense of \$22,705. This decrease in interest expense was due to the scheduled payments of principal on outstanding bonds and notes; as a result, interest expense was reduced year over year. The loss on disposal of fixed assets increased in fiscal year 2014 as there was no such activity in fiscal year 2013. The loss on disposal of fixed assets (\$1,025) relates to facilities and runway infrastructure that was replaced before the end of their useful lives.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY CAPITAL ASSETS

The Authority's capital assets at June 30, 2015, 2014 and 2013 are summarized as follows:

NET CAPITAL ASSETS

	2015	2014	2013
Avigation easements	\$46,679	\$43,703	\$43,703
Land and improvements	159,476	162,494	160,780
Buildings	552,072	542,652	521,857
Runways, taxiways, and airfield lighting	719,646	715,340	720,518
Facilities constructed for tenants	104,077	104,077	104,077
Roads, bridges, and fences	67,253	67,109	65,071
Equipment and utility systems	109,454	105,741	107,754
Construction in process	54,773	28,861	33,343
Total capital assets	1,813,430	1,769,977	1,757,103
Less accumulated depreciation	877,761	813,425	765,334
Net capital assets	\$935,669	\$956,552	\$991,769
			

Fiscal Year 2015

At the end of fiscal years 2015 and 2014, the Authority had \$935,669 and \$956,552, respectively, invested in net capital assets. During fiscal year 2015 the Authority had net additions of \$43,453 related to capital activities for runway and taxiway projects, building improvements, equipment and roads, bridges and fencing projects, offset by current year depreciation of \$65,587, less deletions of \$1,251.

During fiscal year 2015, completed projects totaling \$18,834 were transferred from construction in progress to applicable buildings and other facilities capital asset accounts. These major completed projects were related to runways, taxiways, aprons and airfield lighting (\$4,349), buildings (\$9,420), roads, bridges and fences (\$144) and equipment and utility systems (\$4,921).

The Authority's capital activities are funded through revenue bonds, Federal and State grants and airport revenues. Additional information on the Authority's capital assets is presented in Note 4 of the notes to the basic financial statements.

Fiscal Year 2014

At the end of fiscal years 2014 and 2013, the Authority had \$956,552 and \$991,769, respectively, invested in net capital assets. During fiscal year 2014 the Authority had net additions of \$30,153 related to capital activities for runway and taxiway projects, building improvements, equipment and roads, bridges and fencing projects, offset by current year depreciation of \$65,370.

During fiscal year 2014, completed projects totaling \$33,957 were transferred from construction in progress to applicable buildings and other facilities capital asset accounts. These major completed projects were related to runways, taxiways, aprons and airfield lighting (\$3,321), buildings (\$22,021), roads, bridges and fences (\$2,240) and equipment and utility systems (\$6,375).

The Authority's capital activities are funded through revenue bonds, Federal and State grants and airport revenues. Additional information on the Authority's capital assets is presented in Note 4 of the notes to the basic financial statements.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY <u>DEBT ACTIVITY</u>

The Authority's outstanding bonds and notes payable, net of any premiums or discounts, at June 30, 2015, 2014 and 2013 are summarized as follows:

BONDS AND NOTES PAYABLE

	2015	2014	2013
Bonds:			
Airport Revenue	\$335,710	\$366,040	\$394,825
Special Facilities Revenue		45,000	45,000
Unamortized bond premiums	7,191	8,660	10,278
Note payable	18,217	11,434	11,434
Current portion of bonds and notes payable	(32,350)	(86,764)	(28,785)
Total long-term bonds and notes payable	\$328,768	\$344,370	\$432,752

Fiscal Year 2015

The Authority's June 30, 2015 total long-term bonds and note payable, net, of \$328,768 decreased \$15,602 (4.5 percent) compared to the June 30, 2014 total of \$344,370. The decrease in the total long-term bonds and note payable, net outstanding was mainly due to certain debt reclassified as a current liability as it is due within one year of \$32,350 and the amortization of \$1,469 for bond premium costs offset partially by the reclassification of a note payable of \$11,434 from current to non-current, as well as, the addition of a note payable of \$6,783.

In April 2013, the Authority consolidated all lines of credit and obtained a \$45,000 revolving line of credit with a bank. The purpose for this line of credit is to provide temporary funding for the purchase of leaseholds and property for airfield expansion and capital cash flow requirements. The amount available on this line of credit is reduced by the \$11,434 outstanding notes payable leaving \$33,566 available for draw down at June 30, 2015.

More detailed information related to long-term debt can be found in Note 6 of the notes to the basic financial statements.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY DEBT ACTIVITY (CONTINUED)

Fiscal Year 2014

The Authority's June 30, 2014 total long-term bonds and note payable, net, of \$344,370 decreased \$88,382 (20.4 percent) compared to the June 30, 2013 total of \$432,752. The decrease in the total long-term bonds and note payable, net outstanding was mainly due to scheduled debt service principal payments made during fiscal year 2014 of approximately \$28,800, the increase of approximately \$58,100 for certain debt reclassified as a current liability as it is due within one year and the amortization of \$1,618 for bond premium costs.

In April 2013, the Authority consolidated all lines of credit and obtained a \$45,000 revolving line of credit with a bank. The purpose for this line of credit is to provide temporary funding for the purchase of leaseholds and property for airfield expansion and capital cash flow requirements. The amount available on this line of credit is reduced by the \$11,434 outstanding notes payable leaving \$33,566 available for draw down at June 30, 2014.

DEBT SERVICE COVERAGE

Airport revenue bond resolution covenants require that revenues available to pay debt service, as defined in the bond resolution, are equal to a minimum of 125 percent of the debt service on airport revenue bonds. Coverage ratios for fiscal years 2015, 2014 and 2013 are as follows:

COVERAGE RATIO

	2015	2014	2013
Airport Revenue Bonds	147%	152%	132%

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY AIRPORT ACTIVITIES AND HIGHLIGHTS

AIRLINE ACTIVITY

During fiscal year 2015, 3,584,163 passengers traveled through the Airport, a decrease of 8.5 percent under the 3,915,174 passengers in fiscal year 2014. Additionally, aircraft landed weight decreased from 24,854,200 per thousand pound units in fiscal year 2014 to 24,780,791 per thousand pound units in fiscal year 2015. These changes in activity were realized with the decrease in fiscal year 2015 carrier aircraft operations of 185,874 compared to fiscal year 2014 carrier aircraft operations of 192,374.

Air Cargo activity grew in fiscal year 2015 in spite of significant challenges within the national and world economies. Memphis remained the United States' largest cargo airport, and the world's second largest cargo airport with approximately 4.7 million and 4.6 million U.S. tons of total cargo in fiscal years 2015 and 2014, respectively. Cargo activity at the Airport is dominated by FedEx Express, which has its corporate headquarters and operates its worldwide super-hub from Memphis.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY AIRPORT ACTIVITIES AND HIGHLIGHTS (CONTINUED)

The Authority's Airport Use and Lease Agreement, in effect with six airlines known collectively as the signatory airlines, establishes the rates and charges methodology for the signatory airlines and their affiliates each year. A new 5 year agreement became effective July 1, 2012. Landing fees and rates for non-signatory and non-scheduled airlines are assessed at 115 percent and 125 percent, respectively, of the signatory rates.

RATES AND CHARGES

	2015	2014	2013	2012
Terminal Average Square Foot Rate	\$135.26	\$86.71	\$73.58	\$51.00
Cargo Building Square Foot Rate	\$12.00	\$12.00	\$12.00	\$12.00
Aircraft Loading Position				
Rate per Linear Foot	\$252.96	\$91.62	\$76.77	\$46.47
Signatory Landing Fee-per 1,000 lbs. unit	\$1.25	\$1.45	\$1.45	\$1.41

Cost per enplaned passenger ("CPE") is a measure used by the airline industry to reflect the relative costs a passenger airline pays to operate at an airport based upon the number of enplaned passengers for that airport. That measure, however, is not exact for comparison, as not all airports calculate the number in the same way and cautions should be taken when comparing individual or groups of airports.

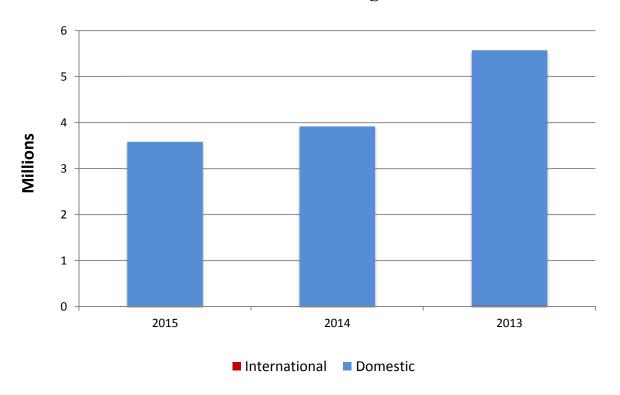

COST PER ENPLANED PASSENGER

	2015	2014	2013
Average Cost Per Enplaned Passenger	\$13.34	\$11.76	\$10.48

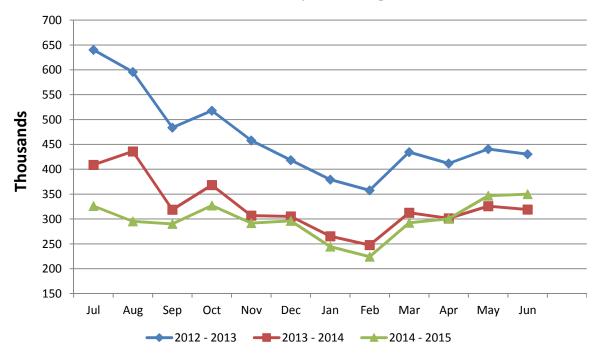

Selected statistical information about total passengers, total cargo, aircraft landed weight, and air carrier movements for the past three years is presented in the table and graphs below.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY FUTURE OUTLOOK

The Airport continues to work with its existing passenger airline partners and other carriers not currently serving Memphis to identify new markets and air service enhancements. In fiscal year 2015, Southwest Airlines added new daily service to Dallas Love Field and Allegiant added service to 3 new destinations - Las Vegas, Samford (Orlando) and Tampa. The Airport also added seasonal flights operated by Vacation Express. The outlook for FY 2016 is for American Airlines, Southwest, United Airlines, Allegiant and Frontier to comprise larger percentages of the total enplanement activity and spread the concentration of enplanement activity across all carriers. As a result, the Airport is experiencing enhanced air service competition, additional non-stop destinations which is leading to a reduction in average air fares for the Memphis passenger market. The Airport's FY 2016 first quarter O&D traffic has grown more than 12% over the prior year's first quarter O&D activity level.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest in its finances. Questions concerning any of the information should be addressed to the Chief Financial Officer, Memphis-Shelby County Airport Authority, 2491 Winchester Road, Suite 113, Memphis, Tennessee 38116-3856.

Investments decreased by \$5 and \$27 in fiscal year 2015 and 2014, respectively, due to the change in fair value.

A note receivable in the amount of \$6,677 was exchanged for capital improvements in fiscal year 2015.

Special Facility Bonds of \$45,000 were paid directly by the tenant in fiscal year 2015.

YEARS ENDED JUNE 30, 2015 AND 2014 (\$ IN THOUSANDS)

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. **Organization** The Memphis-Shelby County Airport Authority (the "Authority") is a body politic and corporate of the State of Tennessee, created in 1969 pursuant to the Metropolitan Airport Authority Act. The Authority is governed by a seven-member Board of Commissioners (the "Board"), who is appointed by the Mayor of the City of Memphis (the "City"), with two members nominated by the Mayor of Shelby County (the "County"). The Memphis City Council confirms all members. The Authority owns and operates the Memphis International Airport (the "Airport") and two general aviation reliever airports Charles W. Baker Airport and General DeWitt Spain Airport. The Authority is reported as a component unit of the City.
- B. Basis of Accounting The Authority is presented as an enterprise fund with separate accounts for each of the three airports. The accounts of the Authority are reported using the flow of economic resources measurement focus. The financial statements are prepared on the accrual basis of accounting, under which revenues are recognized when earned and expenses are recognized when incurred. An enterprise fund is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the Board is that the costs of providing services on a continuing basis be recovered through user charges.

Operating revenues and expenses – Revenues from landing fees, terminal area use charges, cargo building space rentals, parking revenues and concession revenues are reported as operating revenues. Transactions related to financing and investing activities are reported as non-operating revenues. Salaries and wages, repair and maintenance, professional and engineering services, and other expenses that relate to airport operations are reported as operating expenses. Interest expense and financing costs are reported as non-operating expenses.

Pursuant to GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, the Authority applies all applicable GASB pronouncements as well as Financial Accounting Standards Board ("FASB") Statements and Interpretations, Accounting Principles Board ("APB") Opinions, and Accounting Research Bulletins ("ARBs") issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, which were codified into a single source for governmental standards.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. **Budgets** – In accordance with the Metropolitan Airport Authority Act, the City entered into an agreement dated May 26, 1970 with the Authority, which transferred all airport properties, functions, and outstanding obligations to the Authority. Provisions of the agreement require the Authority to prepare an annual operating budget, which must be filed with the City. A five-year capital improvement program, including modifications and reasons for such modifications, is also required to be submitted each year. Even though the budgets are required to be filed with the City, the Board is responsible for approving the budget and any subsequent revisions.

The Airline Airport Affairs Committee, composed of signatory airlines, reviews the proposed annual budget, which is the basis for rates and charges under basic airport leases. This committee and other users may present objections and, if not adequately addressed, force a public hearing. Once adopted and issued, users have sixty days to respond after which time the budget becomes effective.

The Authority is not required to demonstrate statutory compliance with its annual operating budget. Accordingly, budgetary data is not included in the basic financial statements. All budgets are prepared in accordance with the Airport Use and Lease Agreement and in conformance with requirements contained in bond resolutions. Unexpended appropriations lapse at year-end.

D. Investments – Investments are reported at fair value with the exception of nonnegotiable investment contracts, which are reported at cost. The investment portfolio is managed to maintain the preservation of the principal of those funds within the portfolio, while maintaining enough liquidity to meet immediate and/or future operating requirements, and to maximize the return on investments while remaining within the context of these parameters.

Investments with a maturity date within three months of the date acquired, if any, are considered to be cash equivalents.

- E. **Materials and Supplies Inventory** Inventory is valued at the lower of cost, determined on an average cost method, or market.
- F. **Restricted Assets** The bond indentures and bond resolutions authorizing the issuance of bonds require segregation of cash and investments into restricted accounts. Additionally, certain assets are restricted by the Board or by regulatory agencies (Note 3).
- G. **Leases** The Authority is lessor under numerous lease agreements. The leases are classified as operating leases, except for certain special facility leases, which are accounted for as direct financing leases.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Capital Assets – Assets with a cost of five thousand dollars or more are capitalized. Capital assets are stated at cost when purchased or fair value when donated, less accumulated depreciation. During construction of assets, interest incurred on related construction debt, less interest earned from investments whose use is restricted to related capital improvements, is capitalized from the time of borrowing until completion of the project. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. The estimated lives by general classification are as follows:

Asset Classification	Years
Runways, taxiways, aprons, and airfield lighting	15-30
Buildings	10-40
Facilities constructed for tenants	18
Roads, bridges, and fences	20
Equipment and utility systems	3-40

Avigation easements have an indefinite life and are not subject to amortization.

- I. **Original Issue Discount/Premium** Original issue discounts and premiums are netted against the bond payable account and amortized over the lives of their respective bond issues using the interest method.
- J. Capital Contributions Grants from Federal, State and local governments and private enterprises are received for payment of costs related to various property acquisitions and construction projects and for debt retirement. Grants are recorded when all applicable eligibility requirements are met.
- K. Compensated Absences Substantially all employees receive compensation for vacations, holidays, illness, and certain other qualifying absences. Liabilities relating to these absences are recognized as incurred.
- L. **Retirement Systems –** The Authority currently funds pension costs, which are composed of normal cost and amortization of unfunded prior service costs (Note 9).
- M. **Taxes** The Authority is exempt from payment of federal and state income, property, and certain other taxes.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- N. Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and deferred outflows of resources and liabilities and deferred inflows of liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- O. **Risk Management –** The Authority purchases commercial insurance coverage for claims arising out of bodily injury or property damage as well as property insurance on airport properties, which includes earthquake and flood coverage. There were no significant reductions in insurance coverage in the current year. Additionally, there were no significant settlements, which exceeded insurance coverage for each of the past three years. The Authority is a member of both the City health insurance program and the self-insured fund for health and medical benefits. The City's Health Insurance-Internal Service Fund charges premiums which are used to pay claims and fund the accrual for "incurred but not reported" claims and administrative costs of its health and medical benefits program.
- P. **Deferred Outflows/Inflows of Resources** In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as outflow of resources (expense) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.
- Q. **Net Position** The Authority recognizes the difference between its assets plus deferred outflows of resources less liabilities and deferred inflows of resources as net position. Net position categories include:
 - i. Net investment in capital assets comprised of the Authority's capital assets, net of depreciation, reduced by the outstanding balances of bonds and notes that are attributable to the acquisition, construction or improvement of those assets. Applicable deferred outflows of resources and deferred inflows of resources are also included in this component of net position, if any.
 - ii. Restricted for debt service comprised of the Authority's assets, mainly cash and investments, restricted by bond resolution to be used in paying debt service obligations.
 - iii. Restricted for capital acquisition comprised of the Authority's assets restricted by contributors, bond resolutions, and state and federal regulations to be used in purchasing or construction of capital items or improvements reduced by liabilities and deferred inflows of resources, if any, related to these assets.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- iv. Unrestricted the remaining balance of the net amount of assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital or the restricted components of net position.
- R. **Net Position Flow Assumption** Sometimes the Authority will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Authority's policy to consider restricted net position to have been depleted before unrestricted net position is applied.
- S. Conduit Debt The conduit debt obligations are special limited obligations of the Authority, payable solely from and secured by pledges of rentals to be received from lease agreements the Authority has secured with Pinnacle Airlines. The bonds do not constitute a debt or pledge of the faith and credit or net revenues of the Authority, the City, the County, or the State. As such, the debt is considered "conduit debt" to the Authority, and the related assets and liabilities are not included in the accompanying statements of net position. Conduit debt transactions are more fully described in Note 7 of the notes to the basic financial statements.
- T. GASB Accounting Pronouncements The Authority implemented GASB Statement No. 68, Accounting and Financial Reporting for Pensions (GASB 68) for fiscal year 2015. The objective of GASB 68 is to improve accounting and financial reporting by state and local governments for pensions by establishing standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources and expenditures. GASB 68 requires that prior periods be restated to the extent practical. The City of Memphis informed the Authority that it was not practical to obtain the actuarial data necessary to present the pension liability, deferred inflows, deferred outflows and pension expense as of June 30, 2014; therefore, prior periods were not restated. The cumulative effect of this change in accounting principle was \$15,492, which is included in the Statement of Revenues, Expenses and Changes in Net Position.
- U. **Pensions** For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Memphis Retirement System (the "City Plan") and the additions to/deductions from the City Plan's fiduciary net position have been determined on the same basis as they are reported by the City Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

2. DEPOSITS AND INVESTMENTS

A. **Deposits** – Cash deposits as of June 30, 2015 and 2014, had a carrying value of \$119,140 and \$125,552, respectively. These deposits consisted of interest bearing and non-interest bearing demand accounts. Petty cash as of June 30, 2015 and 2014 was \$3. The Authority had no cash equivalents at June 30, 2015 or 2014.

Custodial credit risk – In the case of deposits, this is the risk that in the event of bank failure, the Authority's deposits may not be returned. The Authority's policy is for the deposits to be collateralized through the State of Tennessee collateral pool or for collateral to be pledged on such deposits held by the custodian. State statute requires cash deposits in excess of Federal Deposit Insurance Corporation insurance to be collateralized at 105 percent. At June 30, 2015, all amounts were properly collateralized.

B. **Investments –** Investments consist of the following at June 30, 2015 and 2014:

			WEIGHTED
			AVERAGE
			MATURITY
			(YEARS) AT
	2015	2014	June 30, 2015
At fair value:			
U. S. Government agencies	\$23,316	\$24,178	0.62
Deferred compensation- mutual funds	1,393	1,463	
At cost:			
Forward purchase agreement	23,840	23,840	9.68
Total Investments	\$48,549	\$49,481	

The investments made during fiscal years 2015 and 2014 were limited to the classifications above. Investments in U.S. Government agencies included the U.S Treasury, Federal National Mortgage Association, Federal Home Loan Mortgage Company and Federal Home Loan Bank. With the exception of the discount note investments, which were rated P-1, all investments in U.S. Government agencies had a credit rating of Aaa by Moody's at June 30, 2015.

In 2000, the Authority entered into a forward purchase agreement to invest \$24,513 of bond reserve funds. Per the agreement, this amount was reduced to \$23,840 on March 1, 2012. Under the agreement, the trustee holds the investments until they are required for bond maturities or until the agreement is terminated. The Authority is paid a fixed return of 6.558 percent. If the agreement is terminated prior to the bond's maturity, the Authority or the Trustee may be required to pay a termination amount. This termination amount would be determined by prevailing interest rates at the time of termination. The Authority records this nonnegotiable investment contract at cost. This investment represents 49 percent of the Authority's portfolio at June 30, 2015. The issuer of this investment contract had a credit rating of Aa2 by Moody's at June 30, 2015.

WEIGHTED

2. DEPOSITS AND INVESTMENTS (CONTINUED)

Interest rate risk – In accordance with its investment policy, the Authority manages its exposure to declines in fair values by limiting the maturity of individual investments to no more than 5 years from the date of purchase unless the security is matched to a specific obligation or debt of the Authority.

Credit risk - Bond resolutions generally authorize the Authority to invest in direct obligations of or obligations guaranteed by the U.S. Government, obligations issued or guaranteed by specific agencies of the U.S. Government, secured certificates of deposit, secured repurchase agreements, and money market funds. The Authority may also invest in municipal bonds and investment agreements as long as the issuer is rated in one of the two highest rating categories by at least two nationally recognized rating agencies.

Concentration of credit risk – The Authority's investment policy provides for certain maximum limits in each eligible security type to reduce the risk of loss from an over concentration in a specific class of security. The policy also does not allow for an investment in any one issuer that is in excess of 5 percent of the Authority's total investments with the following exceptions:

INVESTMENT TYPE	MAXIMUM
U.S. Treasury Obligations	100%
Each Federal Agency	50%
Each Repurchase Agreement Counterparty	25%
Bank Deposits or Savings Accounts	80%
Investment Agreements	50%

Custodial Credit Risk – The Authority's investment policy provides that all securities purchased by the Authority or held as collateral on either deposits or investments shall be held in third-party safekeeping at a qualified financial institution.

2. DEPOSITS AND INVESTMENTS (CONTINUED)

C. **Reconciliation of Deposits and Investments to the Statements of Net Position –** A reconciliation of cash and investments as shown in the accompanying statements of net position is as follows:

	2015	2014
Unrestricted current assets:		
Cash	\$41,291	\$43,460
Restricted current assets:		
Cash	77,852	82,095
Short-term investments	23,367	3,608
Restricted non-current assets:		
Investments	25,182	45,873
Total	\$167,692	\$175,036
Total deposits and petty cash	\$119,143	\$125,555
Total investments	48,549	49,481
Total	\$167,692	\$175,036

3. RESTRICTED ASSETS

Restricted assets consist of the following at June 30, 2015 and 2014:

			Accrued

Total Restricted Assets	\$77,852	\$48,549	\$572	\$16,664	\$143,637	\$185,212

3. RESTRICTED ASSETS (CONTINUED)

Revenues of the Authority are deposited to the Revenue Fund, which was created by the airport revenue bond resolution. Monies in the revenue fund are to be used and applied in the following order of priority:

First, there shall be applied each month the amount that the Authority determines to be required to pay costs of operation and maintenance;

Second, there shall be deposited each month into the Airport Improvement Bond Fund and the accounts therein the amounts by the resolution to be used for the purposes specified therein;

Third, so long as the Authority shall be required to make payments to the City or the County or other municipality for the payment by such city, county or other municipality of principal, interest and premiums on bonds, notes or other evidences of indebtedness issued by it for the Airport, there shall be set aside in the separate account of the Authority continued under the Basic Resolution that amount which, together with other monies credited to such account, if the same amount were set aside in such account in each month thereafter prior to the next date on which the Authority is required to make payments to the City or the County or other municipality, as the case may be, for the payment by the City, County or other municipality of principal and interest and premium on the bonds, notes or other evidences of indebtedness issued by it for the Airport, the aggregate of the amounts so set aside in such separate account will on such next date be equal to the payment required to be made on such date by the Authority to the City or the County or such other municipality, as the case may be; and

Fourth, the Authority may use any monies remaining for any lawful purpose of the Authority.

The Authority covenants in bond resolutions that it will impose, prescribe, and collect rates, rentals, fees, and charges for the use of the airports, and revise the same when necessary, to assure that the Authority will be financially self-sufficient and that revenues so produced shall be sufficient to pay debt service when due; to pay all costs of operations and maintenance; and to pay any other claims payable when due. The Authority was in compliance with its debt covenant requirements at June 30, 2015.

The construction and land acquisition accounts are to be used for construction projects and acquisition of land in connection with the Authority's noise compatibility and airport expansion programs. Withdrawals of money on credit in these accounts are made upon written requisition.

4. CAPITAL ASSETS

4. CAPITAL ASSETS (CONTINUED)

The Authority capitalized \$106 of interest expense for fiscal years 2015 and 2014.

Substantially all capital assets are held by the Authority for the purpose of rental or related use.

5. LEASE AND USE OF AIRPORT FACILITIES

The Authority leases terminal space, buildings, and airfield space on both a fixed-fee and contingent rental (percent of revenue) basis. Contingent rentals generally have fixed specified minimum rent provisions. Contingent rentals were \$40,446 and \$45,884 for fiscal years 2015 and 2014, respectively.

Substantially all of the leases provide for periodic re-computation (based on a defined formula) of the rental amounts. Rates and fees charged by the Authority for the use of its facilities are required by terms of the individual leases to be sufficient to cover operating expenses, debt service and general obligation debt, but not depreciation and amortization.

Other fees are received from public parking and miscellaneous other sources. Non-aviation revenue consists primarily of commercial rentals. Site and building rentals from these tenants are governed by the terms of various leases.

The Authority has acquired equipment or constructed facilities for lease to others under agreements accounted for as operating leases. The cost of these leased properties was financed by the airport revenue bonds issued by the Authority (Note 6). The lease agreements provide for rentals equal to or exceeding principal and interest payments due on the related bonds and, in addition, call for certain ground rentals.

5. LEASE AND USE OF AIRPORT FACILITIES (CONTINUED)

Minimum future rentals for leases are as follows:

YEAR	AMOUNT
2016	\$42,334
2017	41,933
2018	20,021
2019	21,013
2020	18,693
2021-2025	91,769
2026-2030	72,756
2031-2035	76,017
2036-2040	51,017
2041-2045	7,682
2046-2050	7,682
2051-2055	7,682
2056-2059	6,145
Total	\$464,744

6. LONG-TERM DEBT

Long-term debt information and activity for fiscal year 2015 is as follows:

							AMOUNTS
	ORIGINAL		BALANCE			BALANCE	DUE

6. LONG-TERM DEBT (CONTINUED)

Airport Revenue Bonds – These bonds were issued for airfield and terminal building improvements and expansion of Airport parking capacity. The bond resolution contains a rate covenant which requires collection of rentals and charges for the use of the airports so that the Authority will be financially self-sufficient and the revenues produced will be sufficient to pay principal, interest, and premium, if any, when due. The Authority may issue additional airport revenue bonds, subject to historical and future revenue tests.

Special Facilities Revenue Bonds – Special Facilities Revenue Bonds – Series 1993 were issued to fund construction of an aircraft maintenance hangar, corporate hangar, and apron area for FedEx Express.

The Authority issued \$45,000 in Special Facilities Bonds, Refunding Series 2003. These bonds were used to refund the Special Facilities Revenue Bonds, Series 1993. The bonds were due and paid July 1, 2014 and bore an interest at 4.5 percent payable semi-annually. Costs of issuance were paid by the lessee. No gain or loss resulted from this refunding and no effect on the Authority's cash flows resulted from the refunding as rents charged the lessee pay the debt service on the bonds. The bonds were payable solely by rentals from the facilities. Rents collected by the trustee were sufficient to pay debt service and certain administrative and trustee costs. See Note 3 regarding the Special Facilities Bonds receivable which was restricted for repayment of the principal portion of the debt.

Line of Credit – In April 2013, the Authority consolidated all lines of credit and obtained a \$45,000 revolving line of credit with a bank. The purpose for this line of credit is to provide temporary funding for the purchase of leaseholds and property for airfield expansion and cash flow for other certain capital projects. The amount available on this line of credit is reduced by the \$11,434 outstanding note payable, leaving \$33,566 available for draw down at June 30, 2015.

Notes Payable - On July 12, 2011, the Authority drew on the \$45,000 line of credit and entered into a note payable with an original amount of \$11,500 to purchase lease holds on currently owned property for airfield expansion. The note is renewable on December 31, 2016 and bears interest at a rate of 30 day LIBOR plus 1.83 percent. The Authority has paid \$66 towards principal through fiscal year 2014 leaving a balance of \$11,434 at June 30, 2015.

On October 24, 2014, the Authority issued a \$7,000 Memphis-Shelby County Airport Authority Revenue Note, Subordinate Series ("Note"). The Note matures October 27, 2029 and bears interest at 4.48 percent. The Note was issued to reimburse costs related to the improvements to certain existing airport fueling facilities and the proceeds were used to offset the existing note receivable of \$6,677 outstanding at June 30, 2015. The Note is secured by general airport revenues collected from airport operations.

6. LONG-TERM DEBT (CONTINUED)

Maturities of Bond Debt and Interest Payable – Maturities and interest payments of long-term debt are as follows:

	AIRPORT	
	REVENUE	INTEREST
YEAR	BONDS	PAYMENTS
2016	32,350	17,185
2017	21,210	15,523
2018	22,230	14,425
2019	23,740	13,228
2020	24,360	11,944
2021-2025	148,405	36,987
2026-2030	38,515	8,305
2031-2035	10,940	4,911
2036-2040	13,960	1,813
Total	\$335,710	\$124,321

The airport revenue bonds are subject to optional redemption at a premium over no greater than a five-year period prior to maturity. Bond resolutions provide that airport revenues are to be used to satisfy debt service requirements of the airport revenue bonds and general operation and maintenance costs of the airport, respectively. The airport revenue bonds are not an obligation of any other governmental unit.

7. CONDUIT DEBT

The conduit debt obligation is a special limited obligation of the Authority, payable solely from and secured by pledges of rentals to be received from lease agreements the Authority has secured with Pinnacle Airlines. The bonds do not constitute a debt or pledge of the faith and credit or net revenues of the Authority, the City, the County or the State. Accordingly, this debt has not been reported in the accompanying financial statements. The Authority has facilitated the issuance of the following series of conduit debt:

	AMOUNT OUTSTANDING		
	AS OF J	UNE 30,	
DESCRIPTION	2015	2014	
Special Facilities Revenue Bonds - Refunding Series 1997			
Issued in the amount of \$3,160 bearing interest at 6.125 percent, due in full on			
December 1, 2016. Proceeds used to refund bonds previously issued to finance			
the cost of the acquisition and construction of certain aircraft maintenance and			
repair facilities for Pinnacle Airlines and are payable solely from and are secured			
by a pledge of rental payments to be received from lease agreements and an			
Unconditional Guaranty. Pinnacle Airlines defaulted on the December 1, 2012			
principle and interest payment and filed for Chapter 11 backruptcy on April 1,			
2013.	\$1,480	\$1,480	
TOTAL	\$1,480	\$1,480	

8. CAPITAL CONTRIBUTIONS

The Authority has received capital contributions by means of Federal and State grants and other Federal agreements as follows:

	2015	2014
Federal grants	\$20,857	\$20,525
State grants	6,532	4,366
Total Federal and State grants	27,389	24,891
Federal agreements		28
Total Capital Contributions	\$27,389	\$24,919

9. DEFINED BENEFIT RETIREMENT PLANS

General Information about the Pension Plan

Plan Description. The Authority participates in the City of Memphis Retirement System ("City Plan"). The City Plan was established under Chapter 25, Code of Ordinances, City of Memphis, Tennessee and is administered by a Board of Administration under the direction of the Mayor. The City Plan is included in the City of Memphis' basic financial statements as a pension trust fund.

Benefits provided. Eligible employees may elect to retire at any time after age 60 or 65 (or after age 55 for safety and security employees with completion of 10 years of service), for the 1948 and 1978 Plans, respectively.

Employees who retire at or after normal retirement age, as defined, are entitled to a retirement benefit, payable monthly for life, equal to one-twelfth of the product of 2.25%-2.50% of average earnings multiplied by years of credited service up to a maximum benefit of 72.50%. Average earnings are the average of annual earnings for the five full consecutive calendar years in which earnings were the highest or for such lesser number of full calendar years of service as have been actually completed. Credited service is the total number of years and completed one-half months of service from the date of hire to date of termination, adjusted for some certain periods of unpaid absence.

Disability retirement under the Plan is retirement from service prior to the participant's normal retirement date for medical reasons. Participants taking disability retirement receive reduced benefits. There are also certain benefit provisions upon death.

Changes to the Plan, including benefits provided thereunder can be made only by formal resolutions of the City of Memphis' City Council (the "City Council") based on recommendations from the Board of Administration. Benefit provisions are established and may be amended by the City Council.

Contributions. Authority employees are required to contribute a percentage of their Compensation, as defined, in accordance with the plan they belong to. Under the 1948 Plan, employees must contribute 5.00%. Under the 1978 Plan, employees are required to contribute 8.00%. The Authority's is required to contribute a statutorily determined rate of employee Compensation, current set at 6.00% by the City Council. Contributions to the Plan from the Authority were \$996 and \$1,001 for the years ended June 30, 2015 and 2014, respectively.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the Authority reported a liability of \$14,719 for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2015, and the total pension liability used to calculate the pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on a proportion of Authority's average contributions to the pension plan over the previous 5 years relative to the average of the total contributions of all participants in the City Plan over the same period. At July 1, 2015, the Authority's proportion was 3.85 percent, which was a decrease of 0.97 from its proportion measured as of July 1, 2014 for purposes of implementing GASB No. 68 in 2015.

For the year ending June 30, 2015, the Authority recognized pension expense of \$1,028 and reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Experience gains or losses Net difference between projected and		\$1,847
actual earnings on investments	\$3,159	
Changes in proportion		2,742
Changes in contributions	625	
Total	\$3,784	\$4,589

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions as of June 30, 2015 will be recognized in pension expense as follows:

Year ended June 30:

2016	(\$208)
2017	(\$208)
2018	(\$208)
2019	(\$181)

Actuarial Assumptions. The total pension liability in the July 1, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3%
Salary increases	Scale that varies by age and service with a
	weighted average of 4.25% per year
Investment rate of return	7.5%

Mortality rates were based on the Fully Generational RP-2014 Mortality Table for males and females with MP-2014 projection scale and adjusted by a 1 year set forward for general employees. For Fire and Police, mortality rates were based on the Fully Generational RP-2014 Mortality Table with Blue Collar adjustment for males and females with MP-2014 projection scale and adjusted by a 1 year set forward. For disabled participants, mortality rates were based on the Fully Generational RP-2014 Disability Mortality MP-2014 projection scale and adjusted by a 3 year set back.

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of an actuarial experience study conducted in May 2014 using 10 years of census data (2003 - 2012).

The long term expected rate of return on pension plan investments was determined based on the Tennessee Consolidated Retirement System's ("TCRS") long-term rate of return, which is used to set the statutorily allowed range of available discount rates. TCRS uses a blended capital market method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
U.S. Equity	33%	6.46%
Developed market international equity	17%	6.26%
Emerging market international equity	5%	6.40%
Private equity and strategic lending	8%	4.61%
U.S. fixed Income	29%	0.98%
Real estate	7%	4.73%
Short-term securities	1%	0.00%

Discount rate. The discount rate used to measure total pension liability as 7.5%. The projection of cash flows used to determine the discount rate assumed that Authority contributions will be made at rates at least equal to the actuarially calculated amount computed in accordance with the current funding policy adopted by the City of Memphis, and is applicable to the Authority, which requires payment of normal cost and amortization of the unfunded actuarially accrued liability in level dollar installments over 30 years utilizing a closed period approach. Pursuant to The Public Employee Defined Benefit Security Act of 2014, the City, and Authority, will phase into funding 100% of the actuarially calculated amount over a 5 year period beginning with the fiscal year beginning July 1, 2015. Based on this assumption, the City Plan's fiduciary net position was projected to be available to make all projected future benefit payments. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following represents the net pension liability calculated using the stated discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Current Rate	1% Increase	
	6.50%	7.50%	8.50%	
	•		_	
Net Pension Liability	\$25,879	\$14,719	\$5,360	

Pension plan fiduciary net position. The City Plan issues a publicly available financial report that includes financial statements and required supplementary information. Detailed information on the pension plan's fiduciary net position is available in this separately issued financial report. That report may be obtained by writing to City of Memphis, 125 North Main Street, Memphis, Tennessee 38013.

10. DEFINED CONTRIBUTION PLAN

On July 1, 1999, the Authority established and is administrator of the Memphis-Shelby County Airport Authority Supplemental Defined Contribution Plan that was designed to meet the requirements of Code Section 401(a). The Metropolitan Airport Authority Act assigns the ability to establish and amend the provisions of the Supplemental Defined Contribution Plan. All participants in the Supplemental Defined Contribution Plan are also participants in the City Plan. The purpose of the supplemental plan is to provide supplemental retirement benefits to participants in addition to the benefits provided by the City Plan. The Authority makes contributions on a discretionary basis. The amount of contributions expensed for fiscal years 2015 and 2014 was \$701 and \$720, respectively. Since the plan assets are held in trust for the benefit of the plan members, the related assets of the plan are not included in the accompanying statements of net position. At June 30, 2015 and 2014, the fair value of the plan assets was \$15,728 and \$15,220, respectively. There is no separate, audited postemployment benefit plan report available for the defined contribution postemployment plan.

11. DEFERRED COMPENSATION PLAN

The Authority offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, administered by the Authority and available to all Authority employees, permits the deferral of a portion of salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

The plan has been amended to meet the enacted requirements of Internal Revenue Code Section 457. The amended plan provides that assets or income of the plan shall be used for the exclusive purpose of providing benefits for participants and their beneficiaries or defraying reasonable expenses of administration of the plan. Since the assets of the amended plan are held in custodial and annuity accounts for the exclusive benefit of plan participants, the related assets of the plan are not included in the accompanying statements of net position. At June 30, 2015 and 2014, the fair value of the plan assets was \$7,480 and \$7,230, respectively.

12. POST-EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS

In addition to the pension benefits described in Notes 9 and 10, the Authority provides post-retirement health care benefits to all employees who retire from the Authority under the provisions of the City Plan. The Board, in conjunction with the City, has established benefit provisions and contribution obligations. Currently, 155 employees are eligible for post-employment benefits, of which 89 of these are currently enrolled in the various medical plans. The plan provides 80% of the cost of certain health care and life insurance coverage to retirees. The Authority accounts for the cost of these benefits as a cost-sharing employer under GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions* ("GASB No 45"). Expenses for post-employment health care benefits are recognized when premiums are incurred. Premiums are determined on a contract basis with the City. Expenses for fiscal years 2015, 2014, and 2013 were \$1,002, \$1,153 and \$995, respectively which were equal to the required contributions. The Authority has no liability for premiums due at June 30, 2015 and 2014.

The other post-employment benefits plan is included in the City's basic financial statements as a pension trust fund. That report may be obtained by writing to the City of Memphis, Comptroller's Office, 125 N. Main Street, Memphis, TN 38103.

13. RELATED PARTIES AND MAJOR CUSTOMERS

The City provided fire protection and other services to the Authority at a cost of \$3,407 and \$3,630 for fiscal years 2015 and 2014, respectively.

The Authority receives a large portion of its operating revenues from two airlines, FedEx Express and Delta Air Lines. Rentals, landing fees, and other revenues from these two airlines were approximately 53 percent and 59 percent of operating revenues for fiscal years 2015 and 2014, respectively.

14. COMMITMENTS AND CONTINGENCIES

The Authority's construction projects are estimated at \$173,104, of which \$121,377 has been expended through June 30, 2015. Of the remaining \$51,727 expected to be spent, the outstanding commitments were \$45,677 at June 30, 2015, related primarily to terminal apron reconstruction, design of concourse modernization, CCTV and access control system and airfield improvements. The remaining commitments relate to projects to be funded from Airport Expansion funds included in restricted assets (Note 3) and Federal grants.

Amounts received or receivable from grantor agencies are subject to audit by the grantor agencies, principally the Federal government. Disallowed expenditures, if any, may constitute a liability of the applicable funds. The Authority is not aware of any disallowed expenditures at this time.

It is the opinion of management that, based on the information presently available, no matters will have a material adverse effect upon the financial position or results of operations of the Authority.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY REQUIRED SUPPLEMENTARY INFORMATION (\$ IN THOUSANDS)

Schedule of Proportionate Share of the Net Pension Liability and Related Ratios under GASB 67 and 68 $^{(1)}$

Net Pension Liability

(1)	(2)	(3)	(4)	(5)	(6)
				Net Pension	Fiduciary Net
	Proportion of	Proportionate		Liability as a	Position as

STATISTICAL SECTION

This part of the Authority's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the government's overall financial health.

CONTENTS	PAGE
Financial Trends	
These schedules contain trend information to help the reader	
understand how the Authority's financial performance and	
well-being have changed over time	80
Revenue Capacity	
These schedules contain information to help the reader	
assess the Authority's most significant revenue sources	84
Debt Capacity	
These schedules present information to help the reader assess	
the affordability of the Authority's current levels of outstanding	
debt and its ability to issue additional debt in the future	93
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help	
the reader understand the environment within which the Authority's	
financial activities take place	98
Operating Information	
These schedules contain service data to help the reader understand	
how the information in the Authority's financial report relates to	
the services it provides and the activities it performs	101

Source: Memphis-Shelby County Airport Authority, Activity Reports and U.S. Bureau of Transportation

- (3) For FY 2015 Chautauqua, Endeavor Air, ExpressJet, Shuttle America and Skywest Airlines operated for Delta Connection.
- (4) For FY 2015 ExpressJet, GoJet, Mesa Airlines, Skywest Airlines and Trans States Airlines operated for United Express.
- (5) For FY 2015 Mesa and Republic Airlines operated for Envoy Air.
- (6) May include activity by airlines no longer serving Memphis.
- (7) Source: FAA, based upon calendar year.
- (8) Enplanements for FY 2006 2009 were restated to correct a reporting error that excluded certain Northwest Airlines' enplaned passengers from the total enplaned passenger count. The restatements for the period FY 2006 2009 resulted in annual enplanement increases that ranged from 154,406 to 190,819 enplanements or 2.8% percent to 3.6% percent of total annual enplanements.

⁽¹⁾ In FY 2009 Delta Air Lines and Northwest Airlines merged effective October 29, 2008. The FAA issued a joint operating certificate on January 1, 2010. Beginning FY 2010 and going forward, information is combined.

⁽²⁾ For FY 2015 Air Wisconsin, Mesa Airlines, PSA Airlines, and Republic Airlines operated for US Airways Express. Previous years totals Include America West and Virgin Atlantic.

- (a) Restricted interest earnings represents earnings on current debt service fund and operating funds. Other includes operating grant income.
- (b) Net revenues have been calculated in accordance with definitions in the basic revenue bond resolutions.
- (c) Debt service portion payable from net revenues.
- (d) Excludes amounts paid with capitalized interest.
- (e) Special Facilities Revenue bonds are secured and payable from rentals equal to the debt service on the bonds. Debt service on these bonds is not payable from general revenues and, accordingly, does not enter into these coverage ratio calculations.

⁽¹⁾ Debt reported for FY 2006 - FY 2013 was restated to include all debt net of related premiums, excluding Special Facilities Bonds.

⁽²⁾ Enplanements for FY 2006 - FY 2009 were restated to correct a reporting error that excluded certain Northwest Airlines' enplaned passengers from the total enplaned passenger count. The restatements for the period FY 2005 - 2009 resulted in annual enplanement increases that ranged from 154,406 to 190,819 enplanements or 2.8% percent to 3.6% percent of total annual enplanements.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY USE OF BOND PROCEEDS

Descriptions of the uses of proceeds from the Authority's outstanding bond issues are summarized below.

AIRPORT REVENUE BONDS

Series 2011A-1 and A-2 - The bonds were issued to provide funds for the purpose of refunding portions of the 1999E and 2001A (\$60,085 and \$38,700 respectively). See Series 1999E and 2001A below.

Series 2011A, B, and C – The bonds were issued to provide funds for the purpose of refunding portions of the 1999D, 2001A and 2001B (\$17,080, \$21,490 and \$42,380 respectively). See Series 1999D, 2001A and 2001B below.

Series 2010A – The bonds were issued to fund a portion of the costs of construction, acquisition and equipping of Checkpoint B Renovations and the GTC.

Series 2010B – The bonds were issued to provide funds for the purpose of refunding portions of the 1999D and 1999E bonds outstanding (\$160,525 and \$1,455 respectively). See Series 1999D and 1999E below.

Series 2008A – The bonds were issued to provide funds for the purpose of refunding all Series 1999A and 1999B bonds outstanding (\$87,751) at date of refunding (March 2008). See Series 1999A and B below.

Series 2003A – The bonds were issued to provide funds for the purpose of refunding a portion of the Series 1993 Bonds. The Series 1993 bonds were issued to provide funds for the purpose of refunding the outstanding principal balance of the Series 1985 Bonds; which were issued to fund airfield improvements including runway paving and lighting, airfield drainage improvements, airfield maintenance facility and fencing; terminal improvements including passenger hold rooms and baggage claim improvements for both the Authority and tenants and a hydrant fueling system; and ground transportation site preparations.

Series 2001A and B – The proceeds of this bond issue were used to finance the construction, reconstruction and extension of runways and taxiways, acquisition of property for noise mitigation, replacement of airport signage, property acquisition and clearing, expansion of the parking garage and employee parking lot, the acquisition and implementation of an automated vehicle identification system, roadway improvements, construction of terminal improvements, a walkway connector, baggage system improvements and other airline tenant finishes at the Airport, construction of facilities for air cargo and airline ground service equipment and other associated projects at the Airport including the replacement and upgrade of two cooling plants and the relocation of an airport maintenance shop.

Series 1999E - The bonds were issued to provide funds for the purpose of refunding the Series 1991 Bonds. The proceeds of the Series 1991 Bonds were used to finance the completion of certain taxiway construction projects and the installation of an improved access control system to enhance Airport security.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY USE OF BOND PROCEEDS (CONTINUED)

Series 1999D - The proceeds of this bond issue were used to finance the extension of Taxiway N to the south end of Runway 18R-36L, construction of an aircraft apron at the south end of Taxiway N, reconstruction of Taxiway M as a temporary runway and connecting taxiways, reconstruction of Taxiway Z and T, construction of high-speed exits from Runway 9-27, enlarge the airfield maintenance facility and to acquire property for airport development in the airfield area. Repairs in the parking garage and upper level terminal drive were projects for the ground transportation area. Terminal projects include constructing a walkway connecting Concourses B and C, constructing additional gates to accommodate regional jets, construct space for airline clubs and concessions and other tenant improvements.

Funds were also used for the following airline-related improvements: finish and equip 23 regional jet gates on Concourses A and C, upgrade the flight information display system and gate check-in facilities on Concourse B, finish and equip the new Northwest World Club, renovate and expand the apron control, upgrade passenger check-in computers, expand baggage sort system and install and equip additional ticket counters for Northwest Airlines. For other airline tenants, renovate existing ticket and baggage claim facilities in Terminal C for joint use, expand hold room space and install some jet bridges in Concourse C.

Series 1997A - The bonds were issued to provide funds for the purpose of refunding a portion of the Series 1988 Bonds, which were used for ongoing expansion and modification of the airports as outlined in a master plan adopted by the Authority in 1986. This bond issue funded airfield, terminal building, and airline projects.

Airfield projects involve the following taxiway construction and improvements: acquisition of 37 acres of land for future development, including planned third parallel north-south runway; construction of a second east-west taxiway south of the passenger terminal; reconstruction of taxiways along the east and south edges of the terminal aircraft parking apron; reconstruction of the taxiway paralleling runway 9-27; construction of holding aprons and bypass taxiways for runway 18R-36L; and a taxiway extension to ease traffic to and from the FedEx apron.

In the terminal area, the following improvements have been made: installation of additional electrical supply and chiller equipment; removal and treatment of asbestos; repair of the existing two levels of the garage; and design of additional curbside roadways.

Funds were also used for the following airline-related improvements: enlargement of certain passenger hold rooms; general improvements to passenger hold rooms; an airline club room; restrooms at the east and west concourses; construction of bridge connectors between the concourses; enlargement and remodeling of airlines operations offices and ticketing and baggage service counters; installation of various airlines equipment and fixtures and aircraft loading bridges; installation of electrical equipment and a hydrant fuel supply facility; construction of a maintenance and storage facility; and a storage and distribution warehouse for then Northwest Airlines.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY USE OF BOND PROCEEDS (CONTINUED)

SPECIAL FACILITIES REVENUE BONDS

Series 2003 - The bonds were issued to provide funds for the purpose of refunding the outstanding principal balance of the Series 1993B Bonds, which were issued to construct an aircraft maintenance facilities, a corporate aviation hanger, and a ramp extension at the Airport.

Series 1997, dated November 1 - The bonds were issued to provide funds for the purpose of refunding the outstanding principal balance of the Series 1986 Bonds, which were issued to construct a maintenance facility for Pinnacle Airlines.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AND STATE AWARDS

YEAR ENDED JUNE 30, 2015

1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal and state awards includes the federal and state grant activity of the Memphis-Shelby County Airport Authority (the "Authority") and is presented on the accrual basis of accounting. The information in the schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the presentation of, the financial statements.

2. CONTINGENCY

The grant revenue amounts received and expensed are subject to audit and adjustment. If any expenditures are disallowed by the grantor as a result of such an audit, any claim for reimbursement to the grantor would become a liability of the Authority. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Board of Commissioners and Management Memphis-Shelby County Airport Authority

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Memphis-Shelby County Airport Authority (the "Authority") as of and for the years ended June 30, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated October 29, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Dixon Hughes Goodman LLP

Memphis, Tennessee October 29, 2015

Independent Auditors' Report on Compliance for the Major Program and on Internal Control Over Compliance Required by OMB Circular A-133

The Board of Commissioners and Management Memphis-Shelby County Airport Authority

Report on Compliance for the Major Federal Program

We have audited Memphis-Shelby County Airport Authority's (the "Authority") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on the Authority's major federal program for the year ended June 30, 2015. The Authority's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the Authority's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the Authority's compliance.

Opinion on the Major Federal Program

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Authority's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY SCHEDULE OF FINDINGS AND QUESTIONED COSTS

FOR THE YEAR ENDED JUNE 30, 2015

Part I - Summary of Audit Results

- 1. The Independent Auditors' Report on the financial statements of Memphis-Shelby County Airport Authority (the "Authority"), dated October 29, 2015, expressed an unmodified opinion.
- 2. No significant deficiencies or material weaknesses relating to the audit of the financial statements are reported in the Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* (report dated October 29, 2015).
- 3. No instances of noncompliance considered material to the financial statements were disclosed by the audit.
- 4. No significant deficiencies of material weaknesses relating to the audit of the major federal award program are reported in the Independent Auditors' Report on Compliance for the Major Program and on Internal Control Over Compliance Required by OMB Circular A-133 (report dated October 29, 2015).
- 5. The Independent Auditors' Report on Compliance for the Major Program and on Internal Control Over Compliance Required by OMB Circular A-133, dated October 29, 2015, expressed an unmodified opinion.
- 6. There were no audit findings relative to the major federal awards program that are required to be reported under Section 510(a) of OMB Circular A-133.
- 7. The Authority's major program was the Airport Improvement Program (CFDA 20.106).
- 8. A threshold of \$633,208 was used to distinguish between Type A and Type B Programs as those terms are defined in OMB Circular A-133.
- 9. The Authority qualified as a low-risk auditee as that term is defined in OMB Circular A-133.

Part II - Findings - Financial Statements Audit

None

Part III - Findings and Questioned Costs - Major Federal Awards

None
