Letter of Transmittal and Exhibits

Organizational Chart

October 26, 2018

To the Board of Commissioners of the
Memphis-Shelby County Airport Authority

The Comprehensive Annual Financial Report (“CAFR”) of the Memphis-Shelby County Airport Authority (the “Authority”) for the fiscal year ended June 30, 2018, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Finance Division of the Authority. To the best of our knowledge and belief, and as indicated by the opinion of our independent auditors, the enclosed data of the Authority is accurate in all material respects and reported in a manner designed to present fairly the financial position, results of operations, and cash flows in accordance with accounting principles generally accepted in the United States of America (“GAAP”). All disclosures necessary to enable the reader to gain an understanding of the Authority’s financial activities have been included.

In developing and evaluating the Authority’s accounting system, consideration is given to the adequacy of internal control. The objectives of internal control are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management’s authorization and recorded properly to permit the preparation of financial statements in accordance with GAAP. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the evaluation of costs and benefits requires estimates and judgments by management. We believe that the Authority’s internal control processes adequately safeguard assets and provide reasonable assurance that financial transactions are authorized and recorded properly.

The CAFR is presented in four sections: Introductory, Financial, Statistical and Compliance. Just prior to the Introductory Section is a list of principal officials and the table of contents. The Introductory Section includes this transmittal letter, the Authority’s organizational chart and a copy of the Certificate of Achievement for Excellence in Financial Reporting awarded to the Authority by the Government Finance Officers Association of the United States and Canada for the fiscal year ended June 30, 2017. The Financial Section includes the independent auditors’ report, Management’s Discussion and Analysis (“MD&A”) of the financial condition of the Authority, the Authority’s financial statements, and supplemental schedules. The Statistical Section includes select financial and demographic information, generally presented on a multi-year basis. The Compliance Section includes Schedule of Expenditures of Federal and State Awards, the related independent auditors’ reports and the Schedule of Findings and Questioned Costs.

Management is required by GAAP to provide a narrative introductory overview and analysis as an accompaniment to the financial statements in the form of MD&A. This letter of transmittal should be read in conjunction with MD&A, which is discussed in the preceding paragraph and can be found in the Financial Section of this report.

Pursuant to Article VII E. of the Agreement between the City of Memphis (“City”) and the Authority dated May 26, 1970, an audit of the financial statements has been completed by the Authority’s independent certified public accountants, Dixon Hughes Goodman LLP. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Authority for the fiscal year ended June 30, 2018, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Authority’s financial statements for the fiscal year ended June 30, 2018, are fairly presented in conformity with GAAP. The independent auditors’ report is presented as the first component of the Financial Section of this report.

Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards requires the Authority to arrange for an annual audit in conformity with their provisions. Information related to a single audit, including the Schedule of Expenditures of Federal and State Awards, findings and recommendations, is reported in the Compliance Section of this report. The independent auditors’ reports on the internal control structure and compliance with applicable laws and regulations are also included in the Compliance Section of this report.

PROFILE OF THE MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY

The Authority is established pursuant to the Metropolitan Airport Authority Act of Tennessee and all amendments thereto. The major purposes of the Authority are to plan, establish, acquire, construct, improve and operate one or more airports within the City and Shelby County (the “County”). The Authority has the power to issue bonds to accomplish any of the purposes authorized by the Metropolitan Airport Authority Act of Tennessee. All bonds shall be payable solely from the revenues, income, and charges of the Authority and such bonds shall not constitute an obligation of the City or County.

The Mayor of the City, with the Mayor of Shelby County nominating two, appoints all members of the seven-member Board of Commissioners (the “Board”) to govern the Authority. The Memphis City Council confirms these appointments for a seven-year term. A member of the Board may be removed from office by a two-thirds vote of the Memphis City Council, but only after notice of cause for the removal has been served and the member has been granted an opportunity for a public hearing on the matter.

The Board appoints the President, who is the chief executive officer of the Authority. The President appoints, and the Board confirms, the remaining officers. These officers manage and operate the Authority’s airports with a staff of approximately 300 employees, both permanent and temporary.

The Authority prepares an annual budget on the basis established by the 1973 General Revenue Bond Resolution dated June 15, 1973 for all accounts and funds established by those agreements and resolutions, except construction and debt service funds. The annual budget serves as the foundation for the Authority's financial planning and control. All appropriations, except open project account appropriations, lapse at the end of each fiscal year and must be reappropriated. Since there is no legal requirement to report on the budgetary basis, no budget information is presented in the accompanying financial statements.

The Authority owns Memphis International (the "Airport"), Charles W. Baker ("Baker"), and General DeWitt Spain ("Spain") Airports. Baker Airport is located south of Millington, Tennessee and Spain Airport is located just north of downtown Memphis. Both Baker and Spain Airports serve general aviation and are considered reliever airports for the Airport.

The Airport occupies about 4,600 acres of land in Shelby County and is 13 miles by road southeast of downtown Memphis. The Airport is 99.9% unaffected by impassable weather and handles all types of aircraft. The Airport has four runways equipped with precision instrument landing systems suitable for use by large aircraft and a surface movement guidance system allowing the Airport to operate down to a 300 foot runway visual range. The terminal building has 68 gates to accommodate passenger aircraft and includes a Federal Inspection Station ("FIS") for clearing international flights and associated passengers.

FACTORS AFFECTING FINANCIAL CONDITION

Economic Conditions and Outlook

The Memphis area continues to recover from the late 2000's United States recession and the ensuing global recession. The Memphis Metropolitan Statistical Area ("MMSA") unemployment rate for August 2018 was 4.4%, which was above the State of Tennessee rate of 3.6% and above the national rate of 3.9%.

During FY 2018, over 99 percent of enplanement activity was origination and destination (O&D) activity. Of the total FY 2018 enplanement activity at the Airport, Delta Air Lines comprised 31 percent, American Airlines approximately 30 percent, Southwest Airlines about 16 percent, United Airlines about 13 percent with all other airlines (Allegiant, Frontier and Air Canada) making up the balance. The outlook for FY 2019 is for existing airline partner enplanement shares to be similar to the prior FY 2018 with slight enplanement and capacity growth across all airlines. The Airport continues to seek additional routes for non-served and under-served markets at the Airport.

The Authority has developed multi-year financial projections, taking into account estimated impacts on the Airport's landed weight, non-airline revenues, amount of leased space in the terminal complex and operating expenses and projects a cost per enplaned passenger ("CPE") to be reasonable when compared to airports of similar size and activity levels.

Cargo air carriers, primarily FedEx Express, continue to have a significant positive impact at the Airport; accordingly, the Airport handled a total of 4.9 million U.S. tons of cargo in fiscal year 2018. The Airport is ranked #1 in the United States for total air cargo handled, and #2 in the world for total air cargo handled according to statistics reported by Airports Council International, Geneva, Switzerland. Over 84% of the cargo handled at Memphis International Airport was reported as domestic. FedEx Corporation (“FedEx”), the world’s largest express transportation company, is headquartered in Memphis and operates its primary overnight package sorting facility at the Airport. FedEx continues to dominate the cargo business at the Airport, transporting 99% of all cargo handled at the Airport in fiscal year 2018. FY 2019 cargo activity levels are expected to grow slightly over FY 2018 activity levels keeping the Airport active twenty-four hours a day.

Population and Employment

The MMSA encompasses a 3,000-square-mile area comprised of Shelby, Fayette and Tipton Counties in Tennessee, Benton, Desoto, Marshall, Tate and Tunica Counties in Mississippi, and Crittenden County in Arkansas. Transportation and distribution services, tourism, technology, healthcare, trade, and construction help make the MMSA a richly diverse economic engine.

The MMSA population was 1,239,292 according to the United States 2010 Census, which is up 9% from 2000. Additionally, the population for the MMSA is expected to increase to 1,402,486 by 2025. Shelby County’s population for 2010 was 927,644, which was 3% higher than the 897,500 for 2000. More population information can be found in the Statistical Section.

The Airport and the Port of Memphis, as well as the seven federal highways, 15 state highways and two U. S. interstate systems, with a third one under construction, that cross the City, along with its central location in the United States, all contribute to Memphis’ position as America’s Distribution Center. Accordingly, transportation plays a major role in the economy of the MMSA. More metropolitan markets can be served overnight (within 600 miles) from Memphis than any other city in the central United States. Memphis offers multiple inter-modal transportation options such as air to truck or truck to air, water to truck or rail, or rail to truck. Memphis boasts the fourth busiest inland river port with enhanced inter-modal capabilities.

Visitors are also attracted to Memphis for sporting events such as the Grizzlies, a National Basketball Association team, the Redbirds, a AAA team affiliate with Major League Baseball’s St. Louis Cardinals, the AutoZone Liberty Bowl Football Classic and the FedEx St. Jude Golf Classic, to name a few. Gaming has developed as a major contributor to the economy of the MMSA. Tunica County, Mississippi, just 30 miles from downtown Memphis, is recognized as one of the top 20 largest grossing gaming centers in the country. Memphis also attracts worldwide visitors to Graceland, home of Elvis Presley, St. Jude Children’s Research Center, Stax Museum of American Soul Music and the National Civil Rights Museum.

LONG TERM FINANCIAL PLANNING

Master Plan/Strategic Plan

One of the tools the Authority uses for long term planning is the Airport Master Plan, which is updated every 7 to 10 years. The Authority issued a Master Plan update in January 2010. This document is prepared with the input of staff, the community, the signatory airlines, and other key tenants of the Airport. The Master Plan specifies the physical improvements that are needed to meet projections of future demand. It consists of a technical report that specifies the logic and reasoning for proposed capital improvements as well as large scale drawings that illustrate the physical layout of the improvements. The financial implications of a master plan are very important because it serves as the basis for requesting federal funds for the construction of capital improvements proposed in the plan. The Authority began the process in FY 2018 to issue an updated Master Plan that will serve as a flexible and cost-effective guide for the future development of the Airport for the next decade. Capital improvements recommended by the plan are demand-driven, only those that are needed as a result of actual increase in demand will be constructed.

The Authority has also developed a comprehensive Strategic Plan that is updated annually, which identifies and inventories strengths and weaknesses and guides the Authority's operating, capital and financial planning for the next 5-7 years. This Strategic Plan allows the Authority to set goals and to measure the progress in meeting these goals.

Multi-Year Financial Plan

The Authority prepare a Multi-Year Financial Plan, which are updated annually. This plan contains the first year of the proposed annual Operating Budget and the remaining two years reflecting fiscal projections developed through a combination of historical trends, contractual and other known commitments, anticipated changes to future revenues and expenditures, and other reasonable assumptions. The five year Capital Improvements Budget is updated annually and contains the current fiscal year and the ensuing four fiscal years.

RELEVANT FINANCIAL POLICIES

Cash and Investment Management

The Authority uses a portfolio manager to help direct the investment of the Authority's funds and to provide comparative investment market information. Allowable investments are limited to those authorized by the 1988 Bond Resolution. All investments were made in compliance with their applicable resolution or bond indenture.

The Authority invests temporarily idle cash in direct obligations of or obligations guaranteed by the United States Government, obligations of specific agencies of the United States Government, New Housing Authority Bonds or Project Notes issued by public agencies or municipalities and guaranteed by the United States Government, secured negotiable certificates of deposit, and secured repurchase agreements. Investments are insured, registered or held by a trustee in the Authority's name.

The Authority's primary objective under this policy is to preserve the principal of those funds within the portfolio. The portfolio is managed in such a manner that assures that funds are available as needed to meet immediate and/or future operating requirements and that it is managed to maximize the return of investments. At year-end, all Authority investments are presented in the basic financial statements at fair market value.

Risk Management

It is the policy of the Authority to eliminate or transfer risk where possible. The Authority currently maintains approximately \$1.3 billion of total insurance coverage. For claims arising out of bodily injury or property damage at the Airport, the Authority carries approximately \$500 million of liability insurance. The Authority also has approximately \$800 million of property insurance on airport properties, which includes flood and earthquake coverage. The Authority or its tenants, within limits and with deductibles approved by the Authority, maintain fire insurance coverage on all buildings at the airports. Contractors and lessees are required to carry certain amounts of insurance. A schedule of insurance in force at June 30, 2018, can be found in the Statistical Section of this report.

In addition to the coverage discussed above, the Authority maintains an Owner Controlled Insurance Program ("OCIP"). OCIP is a method of assuring that all contractors and subcontractors of any tier performing work at a construction project jobsite are provided insurance for Tennessee Workers' Compensation, Employers Liability, and Commercial General Liability, including Completed Operations and Excess Liability. The Authority pays for the full cost of the OCIP and charges those costs back to the projects covered.

The Authority has also implemented various risk control techniques including employee safety and accident training. The Authority's general counsel reviews all contracts and leases.

Debt Management

As part of its strategic and long-term financial planning, the Authority strives to ensure that financial resources are adequate to meet long-term planning objectives. In managing its debt, the Authority strives to achieve the lowest cost of capital, ensure high credit quality, assure access to the capital credit markets, preserve financial flexibility, and manage interest rate risk exposure. See Note 7 of the notes to the basic financial statements in the Financial Section for Long-Term Debt information.

Pension and other Post-employment Benefits

The Authority participates in the City of Memphis Retirement System. A Board of Administration administers the plans under the direction of the City's Mayor. Substantially all full-time salaried employees are required to participate in one of the two plans. The plans provide retirement benefits as well as death and disability benefits. The Authority is required to contribute at a statutorily determined rate set by the City of Memphis Retirement System funding policy. This policy states "that beginning in the plan year commencing on July 1, 2015, the City will fund the actuarially determined contribution ("ADC") each year over a graduated progress percentage so that in a maximum of five (5) years the City will be funding 100% of the ADC each year. The ADC shall be recalculated each year and the percentage of funding shall be based on the most recent recalculation of the ADC".

See Note 9 of the notes to the basic financial statements and the required supplementary information in the Financial Section for more information.

The Authority also provides a supplemental retirement benefit to eligible Authority participants in the City of Memphis Retirement System. It is a defined contribution plan under which the Authority makes contributions on a discretionary basis. See Note 10 of the notes to the basic financial statements in the Financial Section for more information.

In addition to the pension benefits, the Authority provides 80% of the cost of certain health care and life insurance coverage to active employees and provides post-retirement healthcare benefits to eligible employees who retire from the Authority under the provisions of the City's retirement plan. See Note 12 of the notes to the basic financial statements in the Financial Section for more information.

MAJOR INITIATIVES

Concourse B Modernization Project. The Authority's Concourse B Modernization Project concepts and related design efforts began in December 2015. Design is now complete - the project will create higher ceilings and wider corridors filled with natural light throughout the concourse, add moving walkways, create special purpose public use areas and enhance concession concept opportunities. The Concourse B Modernization Project and related enabling projects are expected to be finished in early to mid-year 2021 at a total cost of approximately \$220 million.

Airfield Maintenance Facility. The Authority began construction of the new facility in the spring of 2018 with an anticipated completion in the fall of 2019 with a total anticipated cost of \$55 million. The new facility is anticipated to include both secure and non-secure operations. The airfield maintenance portion of the facility will include approximately ten mechanics bays, some sized for large snow removal equipment, an airfield electrical shop, a paint shop, a sign shop, supervision offices, equipment storage and covered parking for rolling stock, including snow removal equipment and ground maintenance and support equipment. As well, the airport police department, communications center, emergency operations center, operations duty department and snow command center will relocate from terminal facilities to the new airfield maintenance facility.

Glycol De-Ice Pads. The Authority's current National Pollutant Discharge Elimination System (NPDES) storm water permit expires December 2018; as a result, the Airport is in the design phase of 12 de-ice pads which will be designed to separate the deicer and anti-icer impacted water from the storm drainage system. This project includes asphalt in-field areas for vehicle and equipment staging, lighting system, glycol impacted collections system, non-glycol impacted collections system, relocation of an existing public street, vehicle service road bridge, as well as the construction of two crossfield taxiways. Construction began in the fall of 2017 and is estimated to be completed in the spring of 2021.

Consolidated Rental Car Maintenance Facility. The Authority began construction of a new Consolidated Rental Car Maintenance Facility in October of 2017. This maintenance facility will be used by the rental car companies for vehicle fueling, maintenance and storage. The project is funded with Customer Facility Charge (CFC) revenue collected by the rental car companies for the Authority. The project is scheduled to be complete in the spring of 2019.

AWARDS AND ACKNOWLEDGMENTS

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (“GFOA”) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Authority for its Comprehensive Annual Financial Report (“CAFR”) for the fiscal year ended June 30, 2017. The Authority has received a Certificate of Achievement for twenty-nine consecutive fiscal years from 1989-2017. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparations of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, the contents of which conform to program standards. The CAFR must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program’s requirements, and we are submitting it to GFOA for consideration.

Acknowledgements

The preparation of the financial statements would not have been possible without the efficient and dedicated services of the entire staff of the Finance Division. We would like to express our appreciation to all members of the Division for their help and contributions to its preparation.

Respectfully submitted,

Scott A. Brockman, A.A.E.
President and Chief Executive Officer

Independent Auditors' Report

The Board of Commissioners and Management
Memphis-Shelby County Airport Authority
Memphis, Tennessee

Report of the Financial Statements

We have audited the accompanying financial statements of the Memphis-Shelby County Airport Authority (the "Authority"), a component unit of the City of Memphis, Tennessee, as of and for the years ended June 30, 2018 and 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of June 30, 2018 and 2017, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Changes in Accounting Principle

As discussed in Note 1. D to the financial statements, the financial statements as of and for the year ended June 30, 2017 were restated due to the implementation of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, in 2018. Our opinion is not modified with respect to these changes.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of proportionate share of the net pension and OPEB liabilities and related ratios and the schedule of contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplemental and Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The introductory section, supplemental schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The supplemental schedules and the schedule of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules and the schedule of expenditures of federal and state awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 26, 2018, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2018

The following discussion and analysis of Memphis-Shelby County Airport Authority's (the "Authority") financial performance provides an introduction and overview of the Authority's financial activities for the fiscal years ended June 30, 2018 and 2017. Please read this discussion in conjunction with the Authority's basic financial statements and the notes to the basic financial statements immediately following this discussion.

All dollar amounts, except per unit data, are expressed in thousands.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Authority owns and operates Memphis International Airport and two general aviation airports, Charles W. Baker and General DeWitt Spain. The Authority is presented as an enterprise fund with separate accounts for each of the three airports. The accounts of the Authority are reported using the flow of economic resources measurement focus. The financial statements are prepared on the accrual basis of accounting, under which revenues are recognized when earned and expenses are recognized when incurred. All capital assets, except land, aviation easements, and construction-in-process are capitalized and depreciated over their useful lives. See Note 1 of the notes to the basic financial statements for a summary of the Authority's significant accounting policies.

The *Statements of Net Position* present all of the Authority's assets, deferred outflows of resources, liabilities and deferred inflows of resources. The difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of the Authority's financial position. However, the consideration of other non-financial factors, such as changes within the airline industry, may be necessary in the assessment of the overall financial position and health of the Authority.

The *Statements of Revenues, Expenses and Changes in Net Position* present all revenues and expenses of the Authority, regardless of when cash is received or paid, and the ensuing change in net position.

The *Statements of Cash Flows* report how cash was provided and used by the Authority's operating, capital financing, and investing activities. These statements are prepared on a cash basis and present the cash received and disbursed, the net increase or decrease in cash for the year, and the cash and balance at year-end.

In addition to the basic financial statements, this report includes a section for statistical information. This section presents certain unaudited information related to the Authority's historical financial and non-financial operating results, bonded debt activity, capital asset activity, and other demographic information.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

FINANCIAL HIGHLIGHTS FOR FISCAL YEAR 2018

- Operating revenues of \$107,166 for fiscal year 2018 increased by \$2,990 (2.9 percent) compared to fiscal year 2017 revenues of \$104,176.
- Operating expenses, before depreciation and amortization, of \$57,257 for fiscal year 2018 increased by 8,073 (16.4 percent) compared to restated fiscal year 2017 operating expenses of \$49,184.
- The Authority's total net position at June 30, 2018 was \$652,043. This is an increase of \$10,368 (1.6 percent) over total net position of \$641,675 restated at June 30, 2017.
- Capital assets, net of accumulated depreciation decreased by \$17,955 mainly due to fiscal year 2018 net capital additions of approximately \$44,503; offset by the current year change in accumulated depreciation of \$62,458.
- The Authority's total outstanding long-term bonds and notes payable, net at June 30, 2018 increased by \$28,703 (9.6 percent) compared to June 30, 2017 due to the issuance of the 2016A Revenue Bonds of \$37,000 offset primarily by the scheduled principal payments made during fiscal year 2018 and the additional amounts paid towards notes payable.

FINANCIAL HIGHLIGHTS FOR RESTATED FISCAL YEAR 2017

- Operating revenues of \$104,176 for fiscal year 2017 decreased by \$644 (0.6 percent) compared to fiscal year 2016 revenues of \$104,820.
- Operating expenses, before depreciation and amortization, of \$49,184 for restated fiscal year 2017 decreased by 12.7 percent compared to fiscal year 2016 operating expenses of \$56,310.
- The Authority's total net position at restated June 30, 2017 was \$641,675. This is an increase of \$7,786 (1.2 percent) under total net position of \$633,889 at restated June 30, 2016.
- Capital assets, net of accumulated depreciation decreased by \$36,246 mainly due to fiscal year 2017 net capital additions of approximately \$27,789; offset by the current year change in accumulated depreciation of \$64,035.
- The Authority's total outstanding long-term bonds and notes payable, net at June 30, 2017 increased by \$3,714 (1.3 percent) compared to June 30, 2016 due to the issuance of the 2016A Revenue Bonds of \$27,500, offset primarily by the scheduled principal payments made during fiscal year 2017 and the additional amounts paid towards notes payable.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY

SUMMARY OF CHANGES IN NET POSITION

FINANCIAL ANALYSIS

At June 30, 2018, the Authority's net position increased year over year with total assets and deferred outflows of \$1,120,513 total liabilities and deferred inflows of \$468,470 and total net position of \$652,043. A comparative combined condensed summary of the Authority's net position at June 30, 2018, restated 2017 and 2016 is as follows:

	<u>2018</u>	<u>Restated 2017</u>	<u>2016</u>
Assets			
Current assets	\$241,804	\$184,197	\$151,882
Net capital assets	846,581	864,536	900,782
Other non-current assets	26,918	31,852	28,210
Total assets	<u>1,115,303</u>	<u>1,080,585</u>	<u>1,080,874</u>
Deferred outflows of resources	<u>5,210</u>	<u>6,356</u>	<u>10,400</u>
Liabilities			
Current liabilities	51,100	51,976	55,761
Long-term liabilities	407,965	386,812	377,988
Total liabilities	<u>459,065</u>	<u>438,788</u>	<u>433,749</u>
Deferred inflows of resources	<u>9,405</u>	<u>6,478</u>	<u>6,642</u>
Net position			
Net investment in capital assets	496,445	541,400	579,291
Restricted	132,220	83,524	56,960
Unrestricted	23,378	16,751	14,632
Total net position	<u>\$652,043</u>	<u>\$641,675</u>	<u>\$650,883</u>

Fiscal Year 2018

Current assets at June 30, 2018 increased by \$57,607 (31.3 percent) when compared to current assets at June 30, 2017. This increase was primarily due to an increase of \$56,019 in cash and investments, \$2,401 in capital contributions receivable, \$349 materials and supplies inventory, \$208 prepaid expenses and \$106 in accrued interest receivable, partially offset by a decrease of \$1,437 in accounts receivable and a decrease \$39 in grants receivable. The increase in cash and investments was mainly due to the additional issuance of the 2016A Revenue Bonds, the issuance of a Customer Facilities Charge Revenue Note ("CFC note") and an increase in capital contribution receivable resulting from the timing of when capital expenditures were incurred (revenue recognized) and thus became eligible for the related reimbursement from the grantor agency. The increase in prepaid expenses was due to certain prepaid insurance coverages and permit renewals. The decrease in accounts receivable was due to the collection of outstanding invoices from terminal tenants.

Capital assets, net of depreciation decreased by \$17,955 in fiscal year 2018 compared to fiscal year 2017 primarily due to the annual asset depreciation, offset partially by the Authority's ongoing capital improvement program. Fiscal year 2018 net capital additions were \$44,503, offset by the current year change in accumulated depreciation of \$62,458.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY

SUMMARY OF CHANGES IN NET POSITION (CONTINUED)

Non-current assets, other than capital assets, decreased by \$4,934 due to a decrease in investments occurring from the reclassification of certain non-current investments to current investments.

The deferred outflows of resources at June 30, 2018 were \$5,210, a decrease of \$1,146 compared to June 30, 2017 of \$6,356. The deferred outflows of resources relates to the loss on bond refundings (the difference between the reacquisition price and the net carrying amount of the old debt) and deferred actuarial loss under GASB 68 and 75. The total decrease in deferred outflows is due to a decrease of \$468 in deferred losses on bond refundings which is the systematic recognition of interest expense over the remaining life of the old debt or of the new debt, whichever is shorter, a decrease in deferred losses under GASB 68 of \$601 due mainly to an increase in investment gains as compared to the expected return on assets and a decrease in deferred losses under GASB 75 of (\$77) due mainly to an experience gain and a change in assumptions.

Current liabilities decreased from \$51,976 in 2017 to \$51,100 in 2018. This decrease of \$876 (1.7 percent) is primarily due to the reduction of unearned revenue (\$3,633), decreases in accounts payable (\$2,648), accrued expenses (\$574), interest payable (\$112) and current portion-compensated absences (\$63), offset partially by increase in current maturities of long-term debt (\$3,305) and construction contracts payable (\$2,849). The reduction of unearned revenue is mainly due to an increase in expenses compared to revenues in 2018. The decrease in accounts payable is mainly due to the timing of the receipt of normal operating invoices subsequent to the fiscal year end. The decrease in accrued expenses is mainly due to the removal of certain expenses due to an equal and offsetting asset removal. The decrease in accrued interest payable is due to the reduced principal balance of outstanding bonds as a result of the payment of principal, based on amortization schedules, during the fiscal year. The increase in current maturities of long-term debt is due to the reclassification of long-term debt to current based on debt amortization. The increase in construction contracts payable is due to the increased construction related activity at the airport.

Long-term liabilities at June 30, 2018 were \$407,965 an increase of \$21,153 compared to June 30, 2017 (\$386,812 restated). The increase in long-term liabilities was primarily due to the net increase in bonds and notes payable of (\$28,703) for the additional issuance of the 2016A revenue bonds, the issuance of the CFC note and for certain debt reclassified from long-term debt to a current liability; as it is due within one year, offset partially by the reduction in the GASB 68 net pension liability (\$4,126), net GASB 75 OPEB liability of (\$1,774), the amortization to recognize rental revenue from FedEx Corporation related to the prior TnANG facility (\$1,540) and compensated absences of (\$110).

The deferred inflows of resources at June 30, 2018 were \$9,405, an increase of \$2,927 compared to June 30, 2017 of \$6,478 restated. The deferred inflows of resources relate to the deferred actuarial gains in pension and OPEB, which are reported in accordance with GASB 68 and 75, respectively. This increase was due to the change in the Authority's share of the overall pension liability and OPEB liability.

The largest portion of the Authority's net position is the net investment in capital assets of \$496,445 (e.g. land,

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY

SUMMARY OF CHANGES IN NET POSITION (CONTINUED)

buildings, machinery and equipment). The Authority uses these assets to provide services to passengers, visitors and tenants of the airport; accordingly, these assets are not available for future spending or to service the related debt. Therefore, the resources needed to repay this debt must be provided from operations, since the capital assets themselves are not used to liquidate these liabilities.

Fiscal Year 2017

Current assets at June 30, 2017 increased by \$32,315 (21.3 percent) when compared to current assets at June 30, 2016. This increase was primarily due to an increase of \$39,310 in cash and investments and \$729 in prepaid expenses, partially offset by a decrease of \$6,815 in capital contributions receivable, a decrease of \$747 in accounts receivable and a decrease of \$146 in materials and supplies inventory. The increase in cash and investments was mainly due to the issuance of the 2016A Revenue Bonds and the reduction of capital contributions receivable. The decrease in capital contributions receivable results from the timing of when capital expenditures were incurred (revenue recognized) and when the related reimbursements were received from the grantor agency.

Capital assets, net of depreciation decreased by \$36,246 in fiscal year 2017 compared to fiscal year 2016 primarily due to the annual asset depreciation, offset partially by the Authority's ongoing capital improvement program. Fiscal year 2017 net capital additions were \$27,789, offset by the current year change in accumulated depreciation of \$64,035.

Non-current assets, other than capital assets, increased by \$3,642 due to an increase in investments occurring from the purchase of additional non-current investments.

The deferred outflows of resources at restated June 30, 2017 were \$6,356, a decrease of \$4,044 compared to June 30, 2016 of \$10,400. The deferred outflows of resources relates to the loss on bond refundings (the difference between the reacquisition price and the net carrying amount of the old debt) and deferred actuarial loss under GASB 68, offset partially by an increase due to GASB 75. The total decrease in deferred outflows is due to a decrease of \$495 in deferred losses on bond refundings which is the systematic recognition of interest expense over the remaining life of the old debt or of the new debt, whichever is shorter and a decrease in deferred losses under GASB 68 of \$4,386 due mainly to an increase in investment gains as compared to the expected return on assets, offset partially by an increase of \$837 in deferred losses under GASB 75.

Current liabilities decreased from \$55,761 in 2016 to \$51,976 in 2017. This decrease of \$3,785 (7 percent) is primarily due to the reduction of unearned revenue (\$4,138), decrease in current maturities of long-term debt (\$1,911), accrued interest payable (\$291) and accrued expenses (\$212), offset partially by increase in construction contracts payable (\$2,148), accounts payable (\$557) and current portion-compensated absences (\$62). The reduction of unearned revenue is mainly due to reimbursements made to air carriers for the surplus earned in previous years. The decrease in current maturities of long-term debt is mainly due to the reduction of notes payable. The decrease in accrued interest payable is due to the reduced principal balance of outstanding bonds as a result of the payment of principal, based on amortization schedules, during the fiscal year. The increase in

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
SUMMARY OF CHANGES IN NET POSITION (CONTINUED)

construction contracts payable is due to the increased construction related activity at the airport. The increase in accounts payable is due to the timing of the receipt of normal operating invoices subsequent to the fiscal year end.

Long-term liabilities at restated June 30, 2017 were \$386,812, an increase of \$8,824 compared to June 30, 2016 (\$377,988). The increase in long-term liabilities was primarily due to the issuance of the 2016A Airport Revenue Bonds (\$27,500), increased compensated absences (\$4), due to certain amounts reclassified to a current liability from a long-term liability and the inclusion of net OPEB liability (\$9,745) from the implementation of GASB 75, offset partially by the net decrease (\$22,607) for certain debt reclassified from long-term debt to a current liability; as it is due within one year, the amortization for bond premium costs (\$1,183), the amortization to recognize rental revenue from FedEx Corporation related to the prior TnANG facility (\$1,540) and a decrease in the GASB 68 net pension liability (\$3,099).

The deferred inflows of resources at restated June 30, 2017 were \$6,478, a decrease of \$164 compared to June 30, 2016 of \$6,642. The deferred inflows of resources relates to the deferred actuarial gains as a result of implementing GASB 68 and GASB 75. This decrease was due to the reduction in the Authority's share of the overall pension liability, offset partially by the inclusion of the Authority's share of OPEB liability.

The largest portion of the Authority's net position is the net investment in capital assets of \$541,400 (e.g. land, buildings, machinery and equipment). The Authority uses these assets to provide services to passengers, visitors and tenants of the airport; accordingly, these assets are not available for future spending or to service the related debt. Therefore, the resources needed to repay this debt must be provided from operations, since the capital assets themselves are not used to liquidate these liabilities.

REVENUES BY MAJOR SOURCE

The following table presents revenue by major source for the years ended June 30, 2018, 2017 and 2016 and the pie charts show the percentage of revenues by source for the years ended June 30, 2018 and 2017. Due to the strong presence of cargo operations at Memphis International Airport (FedEx super-hub and the world's second largest in total tonnage), airline revenues have been separated to reflect separate passenger and cargo categories.

	<u>2018</u>	<u>2017</u>	<u>2016</u>

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY

REVENUES

Fiscal Year 2018

Operating revenues of \$107,166 for fiscal year 2018 increased by \$2,990 (2.9 percent) compared to fiscal year 2017 revenues of \$104,176. This increase in operating revenues is primarily due to an increase in cargo landing fees (\$1,773), public parking revenues (\$474), ground rents (\$304), other rentals (\$244), airline terminal rentals (\$160), rental car concessions (\$75), terminal concessions (\$61) and other non-airline rentals (\$61), offset by a decrease in other rental income (\$80), employee parking (\$50), other passenger rentals (\$25), and ground transportation rentals (\$7). Such activity was due to the residual Airport Use Agreement that requires airline revenues to be recognized to the extent necessary to pay the Authority's operating and maintenance expenses and net debt service requirements, reduced by non-airline revenues.

Non-operating revenues for fiscal year 2018 are comprised of interest income (\$3,221), customer facility charges (CFC) (\$6,400), gain on disposal of fixed assets (\$48) and operating grants (\$28). Total non-operating revenues increased by \$1,123 in fiscal year 2018 compared to fiscal year 2017 non-operating revenues. This increase was due to increased investment earnings (\$1,157), and increase in CFC revenues (\$29), offset by a reduction in operating grants (\$39) and a reduction of gain on the disposal of assets (\$24).

Capital contributions, comprised primarily of Federal capital grants, increased from \$23,491 in fiscal year 2017 to \$28,228 in fiscal year 2018, as a result of when capital expenditures were incurred (revenue recognized) and thus became eligible for the related reimbursement from the Federal government.

Fiscal Year 2017

Operating revenues of \$104,176 for fiscal year 2017 decreased by \$644 (0.6 percent) compared to fiscal year 2016 revenues of \$104,820. This decrease in operating revenues is primarily due to decrease airline terminal rentals (\$3,953), other non-airline rentals (\$183), concessions rental car (\$37) and FIS fees (\$6), offset by an increase in cargo landing fees (\$1,368), public parking revenues (\$1,440), passenger landing fees (\$199), concessions - terminal (\$144), ground transportation rentals (\$128), ground rents (\$109), employee parking (\$66), other cargo airline rentals (\$59) and other passenger rentals (\$23). Such activity was due to the residual Airport Use Agreement that requires airline revenues to be recognized to the extent necessary to pay the Authority's operating and maintenance expenses and net debt service requirements, reduced by non-airline revenues.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY REVENUES (CONTINUED)

Non-operating revenues for fiscal year 2017 are comprised of interest income (\$2,064), customer facility charges (CFC) (\$6,371), operating grants (\$67) and gain on disposal of fixed assets (\$72). Total non-operating revenues decreased by \$105 in fiscal year 2017 compared to fiscal year 2016 non-operating revenues. This decrease was due to loss on investment earnings (\$94) and reduction in CFC revenues (\$21), offset by a gain on the disposal of assets (\$10).

Capital contributions, comprised primarily of Federal capital grants, increased from \$15,781 in fiscal year 2016 to \$23,491 in fiscal year 2017, as a result of when capital expenditures were incurred (revenue recognized) and thus became eligible for the related reimbursement from the Federal government.

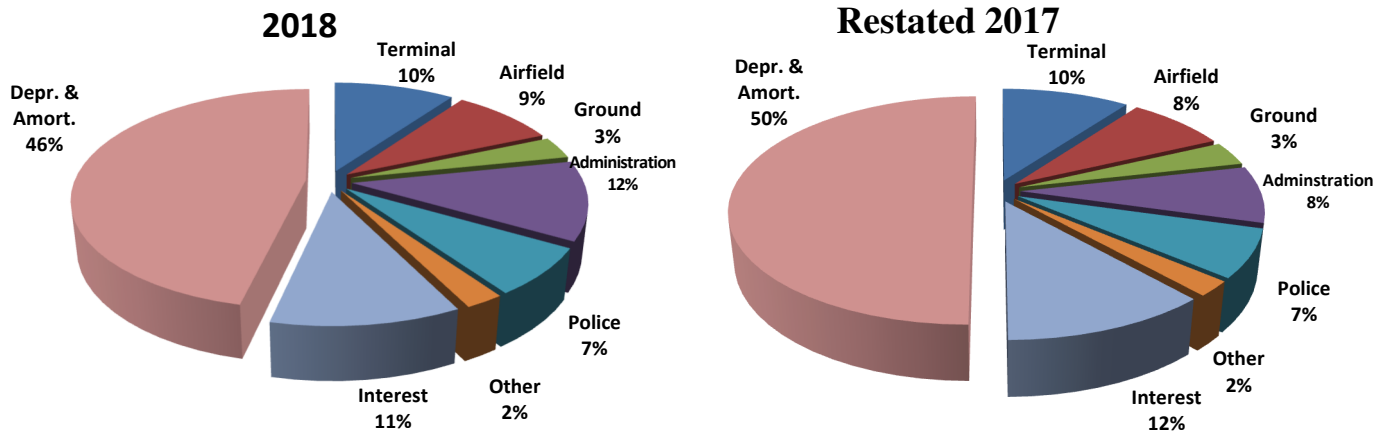

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY EXPENSES

The following table presents expenses by cost center for the years ended June 30, 2018, 2017 and 2016 and the pie charts show the percentage of expenses by cost center for the years ended June 30, 2018 and 2017.

EXPENSES BY COST CENTER

	<u>2018</u>	<u>Restated 2017</u>	<u>2016</u>
Operating Expenses			
Airfield area	\$11,569	\$10,131	\$10,006
Terminal area	13,217	12,895	12,804
Ground transportation area	4,374	4,364	4,167
Administration area	15,638	10,310	17,808
Police and operations area	9,397	8,727	8,770
Other areas	3,062	2,757	2,755
Total operating expenses	<u>57,257</u>	<u>49,184</u>	<u>56,310</u>
Non-operating Expenses			
Interest expense	14,822	14,914	16,386
Total expenses before depreciation and change in accounting principle	72,079	64,098	72,696
Depreciation	62,644	64,357	62,176
Total Expenses	<u>\$134,723</u>	<u>\$128,455</u>	<u>\$134,872</u>

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY EXPENSES (CONTINUED)

Fiscal Year 2018

In fiscal year 2018, the Authority's operating expenses of \$57,257 increased compared to restated fiscal year 2017 operating expenses of \$49,184 by \$8,073 (16.4 percent). The increase was mainly due to increased airfield, terminal, administration and police and operations of \$1,438, \$322, \$5,328 and \$670, respectively. The increase in airfield costs was mainly due to the increase in deicing and snow event costs, salaries and benefits, aircraft rescue and firefighting costs, equipment parts and rental and fuel for resale; offset partially by lower joint sealant maintenance costs. The increase in terminal costs was mainly due to salaries and benefits, repairs and maintenance costs; offset partially by lower janitorial costs, utilities and elevator/escalator maintenance costs. The increase in administration costs was mainly due to the implementation of GASB 75 which increased the salaries and benefits costs, increased insurance fees, marketing and public relations costs, offset by lower legal fees. The increase in police and operations costs was primarily due to increased salaries and wages and related benefits, employee training, security guard services and increased overall expenses.

Depreciation expense decreased from \$64,357 in fiscal year 2017 to \$62,644 for fiscal year 2018. This decrease of \$1,713 is mainly due to a number of depreciable assets reaching the end of their depreciable life in fiscal year 2017 and therefore reducing the amount of depreciation expense in 2018.

Non-operating expenses are comprised of interest expenses on outstanding debt. Fiscal year 2018 interest expense of \$14,822 decreased \$92 compared to fiscal year 2017 interest expense of \$14,914. This decrease in interest expense was due to the scheduled payments of principal on outstanding bonds and notes; as a result, interest expense was reduced year over year.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY EXPENSES (CONTINUED)

Fiscal Year 2017

In restated fiscal year 2017, the Authority's operating expenses of \$49,184 decreased compared to fiscal year 2016 operating expenses of \$56,310 by \$7,126 (12.7 percent). The net decrease was mainly due to decreased general administration and police of (\$7,498) and (\$43) respectively; offset partially by an increase in airfield \$125, terminal \$91 and ground transportation \$197. The decrease in general administration costs was mainly due to decreased salaries and wages and related benefits due to the implementation of GASB 75 and lower overall expenses, offset partially by increased legal fees and information technologies contracts. The decrease in the police and operations expenses was mainly due to lower salaries and wages and related benefit costs; offset partially by additional security guard services. The increase in airfield costs was mainly due to the increase in joint sealant maintenance costs; offset partially by lower salaries and benefits costs. The increase in terminal costs was mainly due to utilities and an increase in repairs and maintenance; offset partially by lower salaries and benefits costs. The increase in ground transportation was mainly due to an increase parking management and bank fees related to increase public parking traffic.

Depreciation expense increased from \$62,176 in fiscal year 2016 to \$64,357 for fiscal year 2017. This increase of \$2,181 is mainly due to greater depreciation expense related to the increase of depreciable Authority assets year over year.

Non-operating expenses are comprised of interest expenses on outstanding debt. Fiscal year 2017 interest expense of \$14,914 decreased \$1,472 compared to fiscal year 2016 interest expense of \$16,386. This decrease in interest expense was due to the scheduled payments of principal on outstanding bonds and notes; as a result, interest expense was reduced year over year.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY

CAPITAL ASSETS

The Authority's capital assets at June 30, 2018, 2017 and 2016 are summarized as follows:

NET CAPITAL ASSETS

	<u>2018</u>	<u>2017</u>	<u>2016</u>
Avigation easements	\$46,679	\$46,679	\$46,679
Land and improvements	159,875	159,875	159,581
Buildings	573,934	563,506	555,359
Runways, taxiways, and airfield lighting	776,077	776,080	776,015
Facilities constructed for tenants	104,078	104,078	104,077
Roads, bridges, and fences	74,379	74,073	68,529
Equipment and utility systems	126,250	118,419	116,406
Construction in process	51,380	25,439	13,714
Total capital assets	<u>1,912,652</u>	<u>1,868,149</u>	<u>1,840,360</u>
Less accumulated depreciation	<u>1,066,071</u>	<u>1,003,613</u>	<u>939,578</u>
Net capital assets	<u>\$846,581</u>	<u>\$864,536</u>	<u>\$900,782</u>

Fiscal Year 2018

At the end of fiscal years 2018 and 2017, the Authority had \$846,581 and \$864,536 respectively, invested in net capital assets. During fiscal year 2018 the Authority had net additions of \$44,503 related to capital activities for runway and taxiway projects, building improvements, equipment and roads, bridges and fencing projects, offset by current year depreciation of \$62,644 less deletions of \$186.

During fiscal year 2018, completed projects totaling \$18,751 were transferred from construction in progress to applicable buildings and other facilities capital asset accounts. These major completed projects were related to buildings (\$10,428), roads, bridges and fences (\$306) and equipment and utility systems (\$8,017).

The Authority's capital activities are funded through revenue bonds, Federal and State grants and airport revenues. Additional information on the Authority's capital assets is presented in Note 5 of the notes to the basic financial statements.

Fiscal Year 2017

At the end of fiscal years 2017 and 2016, the Authority had \$864,536 and \$900,782 respectively, invested in net capital assets. During fiscal year 2017 the Authority had net additions of \$27,789 related to capital activities for runway and taxiway projects, building improvements, equipment and roads, bridges and fencing projects, offset by current year depreciation of \$64,357, less deletions of \$322.

During fiscal year 2017, completed projects totaling \$16,098 were transferred from construction in progress to applicable buildings and other facilities capital asset accounts. These major completed projects were related to runways, taxiways, aprons and airfield lighting (\$65), buildings (\$8,147), facilities constructed for tenants (\$1), roads, bridges and fences (\$5,544) and equipment and utility systems (\$2,341).

The Authority's capital activities are funded through revenue bonds, Federal and State grants and airport revenues. Additional information on the Authority's capital assets is presented in Note 5 of the notes to the basic financial statements.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY

DEBT ACTIVITY

The Authority's outstanding bonds and notes payable, net of any premiums or discounts, at June 30, 2018, 2017 and 2016 are summarized as follows:

BONDS AND NOTES PAYABLE

	<u>2018</u>	<u>2017</u>	<u>2016</u>
Bonds:			
Airport Revenue	\$324,420	\$309,650	\$303,360
Unamortized bond premiums	3,631	4,691	5,874
Note payable	24,377	6,079	9,383
Current portion of bonds and notes payable	<u>(25,912)</u>	<u>(22,607)</u>	<u>(24,518)</u>
Total long-term bonds and notes payable	<u>\$326,516</u>	<u>\$297,813</u>	<u>\$294,099</u>

Fiscal Year 2018

The Authority's June 30, 2018 total long-term bonds and note payable, net, of \$326,515 increased \$28,703 (9.6 percent) compared to the June 30, 2017 total of \$297,813. The increase in the total long-term bonds and note payable, net outstanding was mainly due to the issuance of the Airport Revenue Bonds, Series 2016A with an additional outstanding amount of \$64,500; offset partially by certain debt reclassified as a current liability as it is due within one year of \$25,912 and the amortization of \$1,060 for bond premium costs.

In August 2017, the Authority reduced its revolving line of credit with a bank to \$20,000. The purpose for this line of credit is to provide temporary funding for capital improvements and capital cash flow requirements. At June 30, 2018, the Authority had not drawn on this line of credit.

More detailed information related to long-term debt can be found in Note 7 of the notes to the basic financial statements.

Fiscal Year 2017

The Authority's June 30, 2017 total long-term bonds and note payable, net, of \$297,813 increased \$3,714 (1.3 percent) compared to the June 30, 2016 total of \$294,099. The increase in the total long-term bonds and note payable, net outstanding was mainly due to the issuance of the Airport Revenue Bonds, Series 2016A with the first of four separate outstanding amounts of \$27,500; offset partially by certain debt reclassified as a current liability as it is due within one year of \$22,607 and the amortization of \$1,183 for bond premium costs.

In December 2015, the Authority reduced its revolving line of credit with a bank to \$30,000. The purpose for this line of credit is to provide temporary funding for the purchase of leaseholds and property for airfield expansion and capital cash flow requirements. The remaining balance of \$2,948 as of June 30, 2016 was paid off during fiscal year 2017 leaving \$30,000 available for draw down at June 30, 2017.

More detailed information related to long-term debt can be found in Note 7 of the notes to the basic financial statements.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY DEBT ACTIVITY (CONCLUDED)

DEBT SERVICE COVERAGE

Airport revenue bond resolution covenants require that revenues available to pay debt service, as defined in the bond resolution, are equal to a minimum of 125 percent of the debt service on airport revenue bonds. Coverage ratios for fiscal years 2018, restated 2017 and 2016 are as follows:

COVERAGE RATIO

	2018	Restated 2017	2016
Airport Revenue Bonds	169%	175%	160%

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY AIRPORT ACTIVITIES AND HIGHLIGHTS

AIRLINE ACTIVITY

During fiscal year 2018, 4,302,104 passengers traveled through the Airport, an increase of 5.66 percent over the 4,071,591 passengers in fiscal year 2017. Additionally, aircraft landed weight increased from 26,308,810 per thousand pound units in fiscal year 2017 to 26,712,528 per thousand pound units in fiscal year 2018. These changes in activity were realized due to an increase in the number of routes served by the airlines and an upgauging (increase size and weight) in the type of aircraft servicing the airport.

Air Cargo activity grew in fiscal year 2018 by 2.6% which helped Memphis remain the United States' largest cargo airport, and the world's second largest cargo airport with approximately 4.9 million and 4.7 million U.S. tons of total cargo in fiscal years 2018 and 2017, respectively. Cargo activity at the Airport is dominated by FedEx Express, which has its corporate headquarters and operates its worldwide super-hub from Memphis.

The Authority's Airport Use and Lease Agreement, in effect with six airlines known collectively as the signatory airlines, establishes the rates and charges methodology for the signatory airlines and their affiliates each year. An amended 3 year agreement became effective July 1, 2017. Landing fees and rates for non-signatory and non-scheduled airlines are assessed at 115 percent and 125 percent, respectively, of the signatory rates.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
AIRPORT ACTIVITIES AND HIGHLIGHTS (CONTINUED)

RATES AND CHARGES

	2018	2017	2016	2015
Terminal Average Square Foot Rate	\$80.51	\$92.98	\$116.07	\$135.26
Cargo Building Square Foot Rate	\$12.00	\$12.00	\$12.00	\$12.00
Aircraft Loading Position				
Rate per Linear Foot	\$283.02	\$291.84	\$256.22	\$252.96
Signatory Landing Fee-per 1,000 lbs. unit	\$1.25	\$1.27	\$1.27	\$1.25

Cost per enplaned passenger ("CPE") is a measure used by the airline industry to reflect the relative costs a passenger airline pays to operate at an airport based upon the number of enplaned passengers for that airport. That measure, however, is not exact for comparison, as not all airports calculate the number in the same way and cautions should be taken when comparing individual or groups of airports.

COST PER ENPLANED PASSENGER

	2018	2017⁽¹⁾	2016
Average Cost Per Enplaned Passenger	\$8.68	\$9.18	\$11.37

(1) Fiscal year 2017 has been restated to correct an error in calculation from \$9.27 to \$9.18.

Selected statistical information about total passengers, total cargo, aircraft landed weight, and air carrier movements for the past three years is presented in the table and graphs below.

FISCAL YEAR	TOTAL PASSENGERS	TOTAL CARGO	AIRCRAFT	AIR CARRIER MOVEMENTS
		HANDLED (U.S. TONS)	LANDED WEIGHT (1000 POUND UNITS)	
2018	4,302,104	4,855,966	26,712,528	192,502
2017	4,071,591	4,734,034	26,308,810	189,272
2016	3,949,336	4,779,592	25,777,800	190,392

Movements

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY FUTURE OUTLOOK

The Airport continues to work with its existing passenger airline partners and other carriers not currently serving Memphis to identify new markets and existing air service enhancement opportunities. In fiscal year 2018, Frontier added service to three non-stop destinations, Orlando, Las Vegas and Philadelphia and Allegiant added non-stop service to Oakland, CA. The enplanement outlook for FY 2019 is for the existing air carriers (Delta Air Lines, American Airlines, Southwest Airlines, United Airlines, Allegiant Frontier and Air Canada) to maintain similar concentration levels of airline enplanement activity share as in FY 2018 while expecting a slight increase in total overall airport enplanement growth year over year. Additional competition in the market is generating additional flights, increased non-stop destinations and upgauging of aircraft which leads to lower average airfares for the Memphis market.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest in its finances. Questions concerning any of the information should be addressed to the Chief Financial Officer, Memphis-Shelby County Airport Authority, 2491 Winchester Road, Suite 113, Memphis, Tennessee 38116-3856.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY

NOTES TO BASIC FINANCIAL STATEMENTS

YEARS ENDED JUNE 30, 2018 AND 2017 (\$ IN THOUSANDS)

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. **Organization** – The Memphis-Shelby County Airport Authority (the “Authority”) is a body politic and corporate of the State of Tennessee, created in 1969 pursuant to the Metropolitan Airport Authority Act. The Authority is governed by a seven-member Board of Commissioners (the “Board”), who is appointed by the Mayor of the City of Memphis (the “City”), with two members nominated by the Mayor of Shelby County (the “County”). The Memphis City Council confirms all members. The Authority owns and operates the Memphis International Airport (the “Airport”) and two general aviation reliever airports - Charles W. Baker Airport and General DeWitt Spain Airport. The Authority is reported as a component unit of the City.
- B. **Basis of Accounting** – The Authority is presented as an enterprise fund with separate accounts for each of the three airports. The accounts of the Authority are reported using the flow of economic resources measurement focus. The financial statements are prepared on the accrual basis of accounting, under which revenues are recognized when earned and expenses are recognized when incurred. An enterprise fund is used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of the Board is that the costs of providing services on a continuing basis be recovered through user charges.

Operating revenues and expenses – Revenues from landing fees, terminal area use charges, cargo building space rentals, parking revenues and concession revenues are reported as operating revenues. Transactions related to financing and investing activities are reported as non-operating revenues. Salaries and wages, repair and maintenance, professional and engineering services, and other expenses that relate to airport operations are reported as operating expenses. Interest expense and financing costs are reported as non-operating expenses.

Pursuant to GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, the Authority applies all applicable GASB pronouncements as well as Financial Accounting Standards Board (“FASB”) Statements and Interpretations, Accounting Principles Board (“APB”) Opinions, and Accounting Research Bulletins (“ARBs”) issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, which were codified into a single source for governmental standards.

- C. **Budgets** – In accordance with the Metropolitan Airport Authority Act, the City entered into an agreement dated May 26, 1970 with the Authority, which transferred all airport properties, functions, and outstanding obligations to the Authority. Provisions of the agreement require the Authority to prepare an annual operating budget, which must be filed with the City. A five-year capital improvement program, including modifications and reasons for such modifications, is also required to be submitted each year. Even though the budgets are required to be filed with the City, the Board is responsible for approving the budget and any subsequent revisions.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Airline Airport Affairs Committee, composed of signatory airlines, reviews the proposed annual budget, which is the basis for rates and charges under basic airport leases. This committee and other users may present objections and, if not adequately addressed, force a public hearing. Once adopted and issued, users have sixty days to respond after which time the budget becomes effective.

The Authority is not required to demonstrate statutory compliance with its annual operating budget. Accordingly, budgetary data is not included in the basic financial statements. All budgets are prepared in accordance with the Airport Use and Lease Agreement and in conformance with requirements contained in bond resolutions. Unexpended appropriations lapse at year-end.

D. Change in Accounting Principles –

Other Post-Employment Benefits ("OPEB") accounting: In fiscal year 2018, the Authority implemented GASB 75 and subsequently restated fiscal year 2017 to reflect this adoption for comparative purposes.

The primary objective of GASB Statement No. 75 is to improve accounting and financial reporting by state and local governments for OPEB. This statement replaces the requirements of GASB 45 and 47. This statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources and expense/expenditures. In this statement distinctions are made regarding the particular requirements depending upon whether the OPEB plans through which the benefits are provided are administered through trusts that meet the following criteria:

- Contributions from employers and non-employer contributing entities to the OPEB plan and earnings on those contributions are irrevocable.
- OPEB plan assets are dedicated to providing OPEB to plan members in accordance with the benefit terms.
- OPEB plan assets are legally protected from the creditors of employers, non-employer contributing entities, the OPEB plan administrator and the plan members.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

GASB 75 also requires that all defined benefit OPEB plans present in the required supplementary information (RSI) a schedule covering each of the ten most recent fiscal years that includes the annual money-weighted rate of return on OPEB plan investments for each year. Disclosures required include the following:

- Sources of changes in the net OPEB liability.
- Information about the components of the net OPEB liability and related ratios.
- If an actuarially determined contribution (ADC) is calculated, the OPEB plan is required to present in the RSI a schedule that includes information about the ADC, contributions to the OPEB plan and related ratios.
- Certain factors that significantly affect trends in the amounts reported in the schedules of RSI, such as changes of benefit terms, changes in the size or composition of the population covered by the benefit terms or the use of different assumptions.

The information presented in the Required Supplementary Information (RSI) section of this report have been prepared prospectively from the Plan's fiscal year ending June 30, 2017, for GASB 75 purposes.

RETROSPECTIVE APPLICATION OF A CHANGE IN ACCOUNTING PRINCIPLE

The following table summarizes the effects of the implementation of GASB No. 75 in the statements of net position as of June 30, 2017.

Net position - ending	<u>\$651,446</u>	<u>(\$9,771)</u>	<u>\$641,675</u>

E. **Investments** – Investments are reported at fair value with the exception of nonnegotiable investment contracts, which are reported at cost. The investment portfolio is managed to maintain the preservation of the principal of those funds within the portfolio, while maintaining enough liquidity to meet immediate and/or future operating requirements, and to maximize the return on investments while remaining within the context of these parameters.

Investments with a maturity date within three months of the date acquired, if any, are considered to be cash equivalents.

F. **Materials and Supplies Inventory** – Inventory is valued at the lower of cost, determined on an average cost method, or market.

G. **Restricted Assets** – The bond indentures and bond resolutions authorizing the issuance of bonds require segregation of cash and investments into restricted accounts. Additionally, certain assets are restricted by the Board or by regulatory agencies (Note 4).

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. **Leases** – The Authority is lessor under numerous lease agreements. The leases are classified as operating leases, except for certain special facility leases, which are accounted for as direct financing leases.

I. **Capital Assets** – Assets with a cost of five thousand dollars or more are capitalized. Capital assets are stated at cost when purchased or acquisition value when donated, less accumulated depreciation. During construction of assets, interest incurred on related construction debt, less interest earned from investments whose use is restricted to related capital improvements, is capitalized from the time of borrowing until completion of the project. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. The estimated lives by general classification are as follows:

Asset Classification	Years
Runways, taxiways, aprons, and airfield lighting	15-30
Buildings	10-40
Facilities constructed for tenants	18
Roads, bridges, and fences	20
Equipment and utility systems	3-40

Avigation easements have an indefinite life and are not subject to amortization.

J. **Original Issue Discount/Premium** – Original issue discounts and premiums are netted against the bond payable account and amortized over the lives of their respective bond issues using the interest method.

K. **Capital Contributions** – Grants from Federal, State and local governments and private enterprises are received for payment of costs related to various property acquisitions and construction projects and for debt retirement. Grants are recorded when all applicable eligibility requirements are met.

L. **Compensated Absences** – Substantially all employees receive compensation for vacations, holidays, illness, and certain other qualifying absences. Liabilities relating to these absences are recognized as incurred.

M. **Retirement Systems** – The Authority currently funds pension costs, which are composed of normal cost and amortization of unfunded prior service costs (Note 10).

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- N. **Taxes** – The Authority is exempt from payment of federal and state income, property, and certain other taxes.
- O. **Use of Estimates** – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and deferred outflows of resources and liabilities and deferred inflows of liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- P. **Risk Management** – The Authority purchases commercial insurance coverage for claims arising out of bodily injury or property damage as well as property insurance on airport properties, which includes earthquake and flood coverage. There were no significant reductions in insurance coverage in the current year. Additionally, there were no significant settlements, which exceeded insurance coverage for each of the past three years. The Authority is a member of both the City health insurance program and the self-insured fund for health and medical benefits. The City’s Health Insurance-Internal Service Fund charges premiums which are used to pay claims and fund the accrual for “incurred but not reported” claims and administrative costs of its health and medical benefits program.
- Q. **Deferred Outflows/Inflows of Resources** - In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as outflow of resources (expense) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.
- R. **Net Position** – The Authority recognizes the difference between its assets plus deferred outflows of resources less liabilities and deferred inflows of resources as net position. Net position categories include:
- i. Net investment in capital assets – comprised of the Authority’s capital assets, net of depreciation, reduced by the outstanding balances of bonds and notes that are attributable to the acquisition, construction or improvement of those assets. Applicable deferred outflows of resources and deferred inflows of resources are also included in this component of net position, if any.
 - ii. Restricted for debt service – comprised of the Authority’s assets, mainly cash and investments, restricted by bond resolution to be used in paying debt service obligations.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED)

- iii. Restricted for capital acquisition – comprised of the Authority’s assets restricted by contributors, bond resolutions, and state and federal regulations to be used in purchasing or construction of capital items or improvements reduced by liabilities and deferred inflows of resources, if any, related to these assets.
- iv. Unrestricted – the remaining balance of the net amount of assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital or the restricted components of net position.

S. **Net Position Flow Assumption** - Sometimes the Authority will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Authority's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

T. **Fair Value Measurement** - Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement provides guidance for determining a fair value measurement for financial reporting purposes. Assets and liabilities recorded at fair value in the statement of net position are categorized based on the level of judgement associated with the inputs used to measure their fair value. Level inputs are as follows:

Level 1 – Values are unadjusted quoted prices for identical assets in active markets accessible at the measurement date.

Level 2 – Inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3 – Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Authority’s best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

Fair value disclosures are provided in Note 3 of the notes to the basic financial statements.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

2. DEPOSITS AND INVESTMENTS

A. **Deposits** – Cash deposits as of June 30, 2018 and 2017, had a carrying value of \$129,608 and \$90,263, respectively. These deposits consisted of interest bearing and non-interest bearing demand accounts. Petty cash as of June 30, 2018 and 2017 was \$3. The Authority had no cash equivalents at June 30, 2018 or 2017.

Custodial credit risk – In the case of deposits, this is the risk that in the event of bank failure, the Authority’s deposits may not be returned. The Authority’s policy is for the deposits to be collateralized through the State of Tennessee collateral pool or for collateral to be pledged on such deposits held by the custodian. State statute requires cash deposits in excess of Federal Deposit Insurance Corporation insurance to be collateralized at 105 percent. At June 30, 2018, all amounts were properly collateralized.

B. **Investments** – Investments consist of the following at June 30, 2018 and 2017:

	2018	2017	WEIGHTED AVERAGE MATURITY (YEARS) AT June 30, 2018
At fair value:			
U. S. Government agencies	\$96,522	\$84,118	0.63
Deferred compensation- mutual funds		664	
At cost:			
Forward purchase agreement	23,840	23,840	6.68
Total Investments	\$120,362	\$108,622	

The investments made during fiscal years 2018 and 2017 were limited to the classifications above. Investments in U.S. Government agencies included the U.S Treasury, Federal National Mortgage Association, Federal Home Loan Mortgage Company and Federal Home Loan Bank. With the exception of the discount note investments, which were rated P-1, all investments in U.S. Government agencies had a credit rating of Aaa by Moody’s at June 30, 2018.

In 2000, the Authority entered into a forward purchase agreement to invest \$24,513 of bond reserve funds. Per the agreement, this amount was reduced to \$23,840 on March 1, 2012. Under the agreement, the trustee holds the investments until they are required for bond maturities or until the agreement is terminated. The Authority is paid a fixed return of 6.558 percent. If the agreement is terminated prior to the bond’s maturity, the Authority or the Trustee may be required to pay a termination amount. This termination amount would be determined by prevailing interest rates at the time of termination. The Authority records this nonnegotiable investment contract at cost. This investment represents 20 percent of the Authority’s portfolio at June 30, 2018. The issuer of this investment contract had a credit rating of Aa2 by Moody’s at June 30, 2018.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

2. DEPOSITS AND INVESTMENTS (CONTINUED)

Interest rate risk – In accordance with its investment policy, the Authority manages its exposure to declines in fair values by limiting the maturity of individual investments to no more than 5 years from the date of purchase unless the security is matched to a specific obligation or debt of the Authority.

Credit risk - Bond resolutions generally authorize the Authority to invest in direct obligations of or obligations guaranteed by the U.S. Government, obligations issued or guaranteed by specific agencies of the U.S. Government, secured certificates of deposit, secured repurchase agreements, and money market funds. The Authority may also invest in municipal bonds and investment agreements as long as the issuer is rated in one of the two highest rating categories by at least two nationally recognized rating agencies.

Concentration of credit risk – The Authority’s investment policy provides for certain maximum limits in each eligible security type to reduce the risk of loss from an over concentration in a specific class of security. The policy also does not allow for an investment in any one issuer that is in excess of 5 percent of the Authority’s total investments with the following exceptions:

INVESTMENT TYPE	MAXIMUM
U.S. Treasury Obligations	100%
Each Federal Agency	50%
Each Repurchase Agreement Counterparty	25%
Bank Deposits or Savings Accounts	80%
Investment Agreements	50%

Custodial Credit Risk – The Authority’s investment policy provides that all securities purchased by the Authority or held as collateral on either deposits or investments shall be held in third-party safekeeping at a qualified financial institution.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

2. DEPOSITS AND INVESTMENTS (CONCLUDED)

C. **Reconciliation of Deposits and Investments to the Statements of Net Position** – A reconciliation of cash and investments as shown in the accompanying statements of net position is as follows:

	2018	2017
Unrestricted current assets:		
Cash	\$37,719	\$20,107
Short-term investments	9,860	29,911
Restricted current assets:		
Cash	91,892	70,159
Short-term investments	83,584	46,859
Restricted non-current assets:		
Investments	26,918	31,852
Total	\$249,973	\$198,888
Total deposits and petty cash	\$129,611	\$90,266
Total investments	120,362	108,622
Total	\$249,973	\$198,888

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

3. FINANCIAL INSTRUMENTS REPORTED AT FAIR VALUE

Disclosures concerning financial instruments that are reported at fair value are presented below. Fair value has been determined based on the Authority's assessment of available market information and appropriate valuation methodologies. The following table summarizes fair value disclosures and measurements at June 30, 2018 and 2017:

	Fair Value	Fair Value Measurements at Reporting Date Using		
		Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<u>June 30, 2018</u>				
Investments:				
U.S. Agencies	\$96,522		\$96,522	
<u>June 30, 2017</u>				
Investments:				
U.S. Agencies	\$84,118		\$84,118	
Mutual Funds	\$664	\$664		

The following methods were used to estimate fair value of each class of significant financial instruments measured at fair value on a recurring basis:

Mutual Funds - Prices for investment securities such as mutual funds are readily available in the active markets in which those securities are traded, and the resulting fair values are categorized as Level 1.

U.S. Agencies - Prices for U.S. government and agency fixed income securities, collateralized debt obligations and mortgage-backed securities are determined on a recurring basis based on inputs that are readily available in public markets or can be derived from information available in publicly quoted markets and are categorized as Level 2.

The fair value presented herein is based on pertinent information available to management as of June 30, 2018 and 2017. Although management is not aware of any factors that would significantly affect fair value amounts, future events or other valuation techniques for determining fair value may differ significantly from the amounts presented herein.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

4. RESTRICTED ASSETS (CONCLUDED)

Revenues of the Authority are deposited to the Revenue Fund, which was created by the airport revenue bond resolution. Monies in the revenue fund are to be used and applied in the following order of priority:

First, there shall be applied each month the amount that the Authority determines to be required to pay costs of operation and maintenance;

Second, there shall be deposited each month into the Airport Improvement Bond Fund and the accounts therein the amounts by the resolution to be used for the purposes specified therein;

Third, so long as the Authority shall be required to make payments to the City or the County or other municipality for the payment by such city, county or other municipality of principal, interest and premiums on bonds, notes or other evidences of indebtedness issued by it for the Airport, there shall be set aside in the separate account of the Authority continued under the Basic Resolution that amount which, together with other monies credited to such account, if the same amount were set aside in such account in each month thereafter prior to the next date on which the Authority is required to make payments to the City or the County or other municipality, as the case may be, for the payment by the City, County or other municipality of principal and interest and premium on the bonds, notes or other evidences of indebtedness issued by it for the Airport, the aggregate of the amounts so set aside in such separate account will on such next date be equal to the payment required to be made on such date by the Authority to the City or the County or such other municipality, as the case may be; and

Fourth, the Authority may use any monies remaining for any lawful purpose of the Authority.

The Authority covenants in bond resolutions that it will impose, prescribe, and collect rates, rentals, fees, and charges for the use of the airports, and revise the same when necessary, to assure that the Authority will be financially self-sufficient and that revenues so produced shall be sufficient to pay debt service when due; to pay all costs of operations and maintenance; and to pay any other claims payable when due. The Authority was in compliance with its debt covenant requirements at June 30, 2018.

The construction and land acquisition accounts are to be used for construction projects and acquisition of land in connection with the Authority's noise compatibility and airport expansion programs. Withdrawals of money on credit in these accounts are made upon written requisition.

NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

5. CAPITAL ASSETS (CONCLUDED)

The Authority had capitalized interest of \$264 and \$96 for fiscal years 2018 and 2017, respectively.

Substantially all capital assets are held by the Authority for the purpose of rental or related use.

6. LEASE AND USE OF AIRPORT FACILITIES

The Authority leases terminal space, buildings, and airfield space on both a fixed-fee and contingent rental (percent of revenue) basis. Contingent rentals generally have fixed specified minimum rent provisions. Contingent rentals were \$44,053 and \$43,833 for fiscal years 2018 and 2017, respectively.

Substantially all of the leases provide for periodic re-computation (based on a defined formula) of the rental amounts. Rates and fees charged by the Authority for the use of its facilities are required by terms of the individual leases to be sufficient to cover operating expenses, debt service and general obligation debt, but not depreciation and amortization.

Other fees are received from public parking and miscellaneous other sources. Non-aviation revenue consists primarily of commercial rentals. Site and building rentals from these tenants are governed by the terms of various leases.

The Authority has acquired equipment or constructed facilities for lease to others under agreements accounted for as operating leases. The cost of these leased properties was financed by the airport revenue bonds issued by the Authority (Note 7). The lease agreements provide for rentals equal to or exceeding principal and interest payments due on the related bonds and, in addition, call for certain ground rentals.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

6. LEASE AND USE OF AIRPORT FACILITIES (CONCLUDED)

Minimum future rentals for leases are as follows:

<u>YEAR</u>	<u>AMOUNT</u>
2019	\$37,663

7. LONG-TERM DEBT (CONTINUED)

Airport Revenue Bonds – These bonds were issued for airfield and terminal building improvements and expansion of Airport parking capacity. The bond resolution contains a rate covenant which requires collection of rentals and charges for the use of the airports so that the Authority will be financially self-sufficient and the revenues produced will be sufficient to pay principal, interest, and premium, if any, when due. The Authority may issue additional airport revenue bonds, subject to historical and future revenue tests.

On March 1, 2017, the Authority issued \$110,000 Airport Revenue Bonds, Series 2016A Bonds. The 2016A Bonds matures July 1, 2029 and bears interest at 2.61 percent. The 2016A Bonds are draw down bonds with an initial drawing of \$27,500 on March 1, 2017 with subsequent drawings of \$15,000 on October 6, 2017, \$22,000 on April 2, 2018, and \$45,500 on July 2, 2018. This issue is being used to finance the design and construction of the glycol collection management program and an airfield maintenance and airport operations facility.

Line of Credit – In January 2018, the Authority renewed its revolving line of credit with a bank in the amount of \$20,000. The purpose for this line of credit is to provide temporary funding for the purchase of leaseholds and property for airfield expansion and cash flow for other certain capital projects. There was no outstanding balance on this line of credit at June 30, 2018. The line of credit is renewable on December 31, 2019 and bears interest at a rate of 30 day LIBOR plus 1.83 percent.

Notes Payable - On July 12, 2011, the Authority drew on the revolving line of credit and entered into a note payable with an original amount of \$11,500 to purchase lease holds on currently owned property for airfield expansion. The note was not renewed on December 31, 2017 and the Authority had no outstanding balance at June 30, 2018 or June 30, 2017.

On October 24, 2014, the Authority issued a \$7,000 Memphis-Shelby County Airport Authority Revenue Note, Subordinate Series ("Note"). The Note matures October 27, 2029 and bears interest at 4.48 percent. The Note was issued to reimburse costs related to the improvements to certain existing airport fueling facilities. The Note is secured by general airport revenues collected from airport operations.

On September 13, 2017, the Authority issued a \$20,000 Memphis-Shelby County Airport Authority Customer Facility Charge ("CFC") Revenue Note ("Note"). The Note matures September 1, 2027 and bears interest an annual interest of 3.03 percent. This Note is payable solely from CFC revenues and is secured by a lien and charge on and a pledge and assignment of CFC revenues. The Note was issued to fund the construction of a rental car maintenance facility.

7. LONG-TERM DEBT (CONTINUED)

Maturities of Bond Debt and Interest Payable – Maturities and interest payments of long-term debt are as follows:

YEAR	AIRPORT REVENUE BONDS	INTEREST PAYMENTS
2019	\$23,740	\$14,768
2020	24,360	13,627
2021	25,675	12,262
2022	29,545	10,738
2023	29,445	9,108
2024-2028	131,755	22,977
2029-2033	41,240	6,760
2034-2038	12,670	3,143
2039-2040	5,990	304
Total	\$324,420	\$93,687

The airport revenue bonds are subject to optional redemption at a premium over no greater than a five-year period prior to maturity. Bond resolutions provide that airport revenues are to be used to satisfy debt service requirements of the airport revenue bonds and general operation and maintenance costs of the airport, respectively. The airport revenue bonds are not an obligation of any other governmental unit.

8. CAPITAL CONTRIBUTIONS

The Authority has received capital contributions by means of Federal and State grants and other Federal agreements as follows:

	2018	2017
Federal grants	\$20,326	\$18,333
State grants	7,469	5,158
Other	433	
Total capital contributions	\$28,228	\$23,491

9. DEFINED BENEFIT RETIREMENT PLANS

General Information about the Pension Plan

Plan Description. The Authority participates in the City of Memphis Retirement System (“City Plan”). The City Plan was established under Chapter 25, Code of Ordinances, City of Memphis, Tennessee and is administered by a Board of Administration under the direction of the Mayor. The City Plan is included in the City of Memphis’ basic financial statements as a pension trust fund. Substantially all permanent full-time employees of the Authority are required to participate in one of the following plans:

- 1948 Plan – for salaried employees hired prior to July 1, 1978
- 1978 Plan – for salaried employees hired on or after July 1, 1978, but prior to July 1, 2016
- 2016 Plan – All regular salaried employees on their date of hire and hired on or after July 1, 2016. In addition, any nongrandfathered employee in the 1978 Plan will participate in the 2016 Plan as of July 1, 2016. For this purpose, a nongrandfathered employee is any employee with less than 7½ years of service as of July 1, 2016.

The City Plan was amended effective July 1, 2016, to encompass a new hybrid plan design. Participants with seven and one-half (7½) years of service or more were grandfathered into their current plan, and all other employees participate in the new hybrid plan design. Non-grandfathered participants were moved from a traditional defined benefit formula to a hybrid defined benefit formula that includes both a market based cash balance component and a defined contribution component.

Normal Retirement. Under the 1948 Plan, General Employees may retire after completion of 25 years of service or, if earlier, after age 60 and the completion of 10 years of service. Safety and security employees may retire after completion of 25 years of service, or at age 55 and completion of 10 years of service.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

9. DEFINED BENEFIT RETIREMENT PLANS (CONTINUED)

Under the 1978 Plan, General Employees hired before July 1, 2012, may retire after the completion of 25 years of service, age 60 and the completion of 10 years of service, or age 65 and the completion of 5 years of service. Employees hired on or after June 30, 2012 may retire after the completion of 25 years of service or at age 65 and the completion of 5 years of service. Safety and security employees hired before July 1, 2012, may retire after the completion of 25 years of service, or age 55 and completion of 10 years of service. Fire and Police Employees hired on or after June 30, 2012, may retire after the completion of 25 years of service, or age 55 and completion of 10 years of service.

Under the 2016 Plan, General Employees may retire after the completion of 25 years of service or at age 65 and the completion of 5 years of service. Safety and security employees may retire after the completion of 25 years of service, or age 55 and completion of 10 years of service.

Benefits provided. Under the 1948 and 1978 Plans, employees who retire at or after normal retirement age, as defined, are entitled to a retirement benefit, payable monthly for life determined by a formula using average earnings multiplied by years of credited service up to a maximum benefit of 72.50%. Average monthly compensation is calculated as the highest average monthly compensation received for any five consecutive years of service or the most recent year's earnings, if greater. Credited service is the total number of years and completed one-half months of service from the date of hire to date of termination, adjusted for some certain periods of unpaid absence.

An employee in the 2016 Plan will be required to receive the normal form of annuity derived by both a market-rate cash balance account and a defined contribution account. The normal form of annuity is determined based on actuarial equivalence of 5.0% per annum and the applicable mortality table pursuant to IRC Section 417(e)(3) for the plan year. Annual allocations to the cash balance account are equal to a percentage of compensation that varies by years of service. Annual allocations to the defined contribution account are equal to 7.5% of compensation which consists of a 6.0% of compensation as an employee contribution and 1.5% of compensation as an employer contribution. Assets are participant directed and the investment earnings are included in the defined contribution account balance.

Disability retirement under the City Plan is retirement from service prior to the participant's normal retirement date for medical reasons. Participants taking disability retirement receive reduced benefits. There are also certain benefit provisions upon death.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

9. DEFINED BENEFIT RETIREMENT PLANS (CONTINUED)

Changes to the City Plan, including benefits provided thereunder can be made only by formal resolutions of the City of Memphis' City Council (the "City Council") based on recommendations from the Board of Administration. Benefit provisions are established and may be amended by the City Council.

Contributions. Authority employees are required to contribute a percentage of their Compensation, as defined, in accordance with the plan they belong to. Under the 1948 Plan, employees must contribute 5.00%. Under the 1978 Plan, employees are required to contribute 8.00%. Employees in the 2016 Plan must contribute 2% of compensation to the cash balance account and 6% of compensation to the IRC section 401(a) defined contribution account. The Authority is required to contribute at a statutorily determined rate set by the City of Memphis Retirement System funding policy. This policy states "that beginning in the plan year commencing on July 1, 2015, the City will fund the actuarially determined contribution ("ADC") each year over a graduated progress percentage so that in a maximum of five (5) years the City will be funding 100% of the ADC each year. The graduated progress percentage each year is at a minimum the percentage determined by calculating the difference between the percentage of the ADC paid in the plan year commencing July 1, 2014, subtracted from 100% and dividing by five (5). The ADC shall be recalculated each year and the percentage of funding shall be based on the most recent recalculation of the ADC". Contributions to the City Plan from the Authority were \$2,717 and \$2,271 for the years ended June 30, 2018 and 2017, respectively.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018 and 2017, the Authority reported a liability of \$9,752 and \$13,878, respectively for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2018, and the total pension liability used to calculate the pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on a proportion of the Authority's average contributions to the pension plan over the previous 5 years relative to the average of the total contributions of all participants in the City Plan over the same period. At July 1, 2018 and 2017, the Authority's proportion was 3.53 percent and 3.31 percent, respectively.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

9. DEFINED BENEFIT RETIREMENT PLANS (CONTINUED)

For the year ending June 30, 2018 and 2017, the Authority recognized pension expense of \$657 and \$1,374, respectively and reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2018	2018	2017	2017
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Experience gains or losses	\$880	\$2,380	\$1,144	\$1,029
Change in assumptions		1,332		1,270
Net difference between projected and actual earnings on investments		1,477	1,479	
Changes in proportion	902	1,510	271	2,652
Changes in contributions	852	382	341	664
Total	\$2,634	\$7,081	\$3,235	\$5,615

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions as of June 30, 2018 will be recognized in pension expense as follows:

Year ended June 30:

2019	(\$1,463)
2020	(\$855)
2021	(\$1,477)
2022	(\$652)

Actuarial Assumptions. The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Salary increases	Scale that varies by age and service with a weighted average of 4.25% per year
Investment rate of return	7.5%

Mortality rates were based on the Fully Generational RP-2014 Total Dataset Mortality Table (with MP-2014 improvement removed) with MP-2017 projection scale from 2006 forward and adjusted by a 1 year set forward for general employees. For Fire and Police, mortality rates were based on the Fully Generational RP-2014 Blue Collar Mortality Table (with MP-2014 improvement removed) with MP-2017 projection scale from 2006 forward and adjusted by a 1 year set forward. For disabled participants, mortality rates were based on the Fully Generational RP-2014 Disability Mortality Table (with MP-2014 improvement removed) with MP-2017 projection scale from 2006 forward and adjusted by a 3-year set back.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

9. DEFINED BENEFIT RETIREMENT PLANS (CONCLUDED)

Account balances under the 2016 Plan (effective July 1, 2016) are converted at 5.0% interest and the applicable mortality table under IRC 417(e) in effect on the current valuation date.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study conducted in May 1, 2014 using 10 years of census data (2003 – 2012).

The long term expected rate of return on pension plan investments was determined based on the Tennessee Consolidated Retirement System’s (“TCRS”) long-term rate of return, which is used to set the statutorily allowed range of available discount rates. TCRS uses a blended capital market method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

Discount rate. The discount rate used to measure total pension liability is 7.5%. The projection of cash flows used to determine the discount rate assumed that Authority contributions will be made at rates at least equal to the actuarially calculated amount computed in accordance with the current funding policy adopted by the City of Memphis, and is applicable to the Authority, which requires payment of normal cost and amortization of the unfunded actuarially accrued liability in level dollar installments over 30 years utilizing a closed period approach. Pursuant to The Public Employee Defined Benefit Security Act of 2014, the City, and Authority, will phase into funding 100% of the actuarially calculated amount over a 5 year period beginning with the fiscal year beginning July 1, 2015. Based on this assumption, the City Plan’s fiduciary net position was projected to be available to make all projected future benefit payments. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following represents the net pension liability calculated using the stated discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Current Rate	1% Increase
	6.50%	7.50%	8.50%
Net Pension Liability	\$19,828	\$9,752	\$1,251

Pension plan fiduciary net position. The City Plan issues a publicly available financial report that includes financial statements and required supplementary information. Detailed information on the pension plan’s fiduciary net position is available in this separately issued financial report. That report may be obtained by writing to City of Memphis, 125 North Main Street, Memphis, Tennessee 38013.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

10. DEFINED CONTRIBUTION PLAN

On July 1, 1999, the Authority established and is administrator of the Memphis-Shelby County Airport Authority Supplemental Defined Contribution Plan that was designed to meet the requirements of Code Section 401(a). The Metropolitan Airport Authority Act assigns the ability to establish and amend the provisions of the Supplemental Defined Contribution Plan. All participants in the Supplemental Defined Contribution Plan are also participants in the City Plan. The purpose of the supplemental plan is to provide supplemental retirement benefits to participants in addition to the benefits provided by the City Plan. The Authority makes contributions on a discretionary basis. The participants vest in the Authority's contributions after three years of employment and any forfeitures are added to the Authority's contributions. There were no forfeitures in fiscal year 2018 and \$13 in forfeitures for fiscal year 2017. The amount of contributions expensed for fiscal years 2018 and 2017 was \$776 and \$749, respectively. Since the plan assets are held in trust for the benefit of the plan members, the related assets of the plan are not included in the accompanying statements of net position. At June 30, 2018 and 2017, the fair value of the plan assets was \$19,436 and \$17,901, respectively. There is no separate, audited postemployment benefit plan report available for the defined contribution postemployment plan.

11. DEFERRED COMPENSATION PLAN

The Authority offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, administered by the Authority and available to all Authority employees, permits the deferral of a portion of salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

The plan has been amended to meet the enacted requirements of Internal Revenue Code Section 457. The amended plan provides that assets or income of the plan shall be used for the exclusive purpose of providing benefits for participants and their beneficiaries or defraying reasonable expenses of administration of the plan. Since the assets of the amended plan are held in custodial and annuity accounts for the exclusive benefit of plan participants, the related assets of the plan are not included in the accompanying statements of net position. At June 30, 2018 and 2017, the fair value of the plan assets was \$10,062 and \$8,893, respectively.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

12. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

General Information about the OPEB Plan
Plan Description.

The Authority employees are provided with OPEB through the City of Memphis’ OPEB plan. The City’s OPEB Plan was established as part of the City’s retirement plan under Chapter 25, Code of Ordinances of the City of Memphis, Tennessee. The plan is administered by a Board of Administration under the direction of the Mayor. Per GASB accounting rules, the Authority is a cost-sharing employer that is participating in a defined benefit OPEB plan administered by the City of Memphis. The Authority provides post-retirement health care benefits to eligible employees who retire from the Authority under the provisions of the City’s retirement plan. In fiscal year 2009, the City of Memphis adopted and established an OPEB Trust for the exclusive purpose of pre-funding and providing for payment of OPEB benefits under the plan. The City of Memphis does not issue a separate report for the OPEB trust plan. However, information about the City’s OPEB plan is included in the City of Memphis’ basic financial statements as an OPEB trust fund. The financial report on the OPEB plan can be found in the Comprehensive Annual Financial Report of the City of Memphis at <https://memphistn.gov/government/finance>.

Plan Year All benefits have plan year January 1 – December 31.

Employee Eligibility Provisions Eligibility for OPEB benefits are based on two pension options - normal retirement or disability retirement. The applicable pension plans are:

	Normal	Disability
<i>General Employees</i> 1948 Plan Participants	Age 60 & 10 years of service, or 25 years of service	Non-Line of Duty: 5 years of service
<i>General Employees</i> 1978 Plan Participants	Age 60 & 10 years of service, or Age 65 & 5 years of service, or 25 years of service	
<i>General Employees</i> 2012 and 2016 Plan Participants	Age 65 & 5 years of service, or 25 years of service	
<i>Police & Fire</i> 1948 Plan Participants	Age 55 & 10 years of service, or 25 years of service	Line-of-Duty: No service requirement
<i>Police & Fire</i> 1978, 2012 and 2016 Plan Participants	Age 55 & 10 years of service 25 years of service	

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

Spouse Eligibility for Benefits:

- Spouses of eligible retirees may receive postretirement medical benefits.
- Surviving widowed spouses are eligible if receiving a pension payment from the City of Memphis and coverage was in force prior to the retiree's death.
- Working spouses with available coverage elsewhere do not receive postretirement medical benefits.

Benefits provided (plan provisions).

Medical Plan Benefits Available

Pre-65 Line of Duty Disabled and Grandfathered Post-65 Retirees without Medicare

Postretirement medical and drug coverage through the City's self-insured Select or Choice Plans. The City pays for costs that exceed required retiree premiums.

All other Participants

Pre-65 and Post-65 retirees are provided with a set amount of money each year that goes into a Health Retirement Account (HRA). The amount depends on the type of retiree - Line of Duty (LOD) or other - and age of retirement. according to the table below:

		Annual HRA Amount	
		Retiree	Spouse
LOD	Pre-65	\$10,000	\$10,000
	Post-65	\$2,000	\$1,000
Other	Pre-65	\$5,000	\$5,000
	Post-65	\$1,000	\$500

Life Benefits Available to Retirees

The City provides a life insurance benefit of \$5,000 to all participants.

The payment of the \$5,000 by the City depends on if the participant had supplemental insurance as an active participant prior to retirement. If the participant elected supplemental life insurance as an active employee, the supplemental insurance drops to \$3,000 and is fully insured by the City. In addition, the City pays an additional \$2,000, which is self-insured. If the participant did not elect supplemental life insurance as an active employee, the City pays \$5,000 upon death, which is self-insured.

Contributions.

Funding Policy – Per Chapter 25, Code of Ordinances of the City of Memphis, Tennessee, contribution requirements of the participating component units of the City (of which the Authority is one), are established and may be amended by the City Board of Administration. The City pays for medical costs that exceed required

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

retiree premiums and may elect through adoption of the City’s annual budget ordinance to contribute an amount in excess of the total annual benefit payments to a qualified trust for the purpose of funding future OPEB benefits. Employees are not required to contribute to the OPEB plan.

The Authority’s contractually required contribution rate for the year ended June 30, 2018 and 2017 were 1.7 and 1.1 percent, respectively, of covered payroll actuarially determined as an amount that is expected to finance the cost of benefits earned by employees during the year, with any additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the Authority were \$303 and \$211 for the year ended June 30, 2018 and 2017.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018 and 2017, the Authority reported a liability of \$7,971 and \$9,745 respectively for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of July 1, 2018, and the total OPEB liability used to calculate the OPEB liability was determined by an actuarial valuation as of that date. The Authority’s proportion of the net OPEB liability was based on a proportion of Authority’s average contributions to the OPEB plan over the previous 5 years relative to the average of the total contributions of all participants in the City Plan over the same period. At July 1, 2018 and 2017, the Authority’s proportion was 2.39 percent and 2.35 percent, respectively.

Change in benefit terms (plan provisions).

There has been no change in benefit plan provisions that affected the measurement of the total OPEB liability since the prior measurement date.

For the year ending June 30, 2018 and 2017, the Authority recognized OPEB expense of \$66 and income of \$7,012, respectively and reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	2018 Deferred Inflows of Resources	2018 Deferred Inflows of Resources	2017 Deferred Outflows of Resources	2017 Deferred Inflows of Resources
Difference between expected and actual experience	\$272	\$217	\$355	
Change in assumptions	369	1,420	482	
Net difference between projected and actual earnings on investments		9		\$5
Changes in proportion	119	537		714
Changes in contributions		141		144
Total	\$760	\$2,324	\$837	\$863

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB as of June 30, 2018 will be recognized in OPEB expense as follows:

Year ended June 30:

2019	(\$439)
2020	(\$439)
2021	(\$439)
2022	(\$246)
2023	\$0
Thereafter	\$0

Changes in Accounting Assumptions and Methods from Prior Year.

The last actuarial valuation of the City of Memphis Retiree Health and Life Insurance Benefits was performed as of July 1, 2017. As requested by the City, the following changes were made since the prior valuation:

- The per capita claims costs and premiums for the self-funded preferred and premier plans were updated based on recent claims experience.
- The healthy mortality assumption was changed from the Fully Generational RP-2014 Mortality Table with MP-2016 projection scale adjusted by a 1 year set forward to the Fully Generational RP-2014 Mortality Table adjusted to 2006 with MP-2017 projection scale adjusted by a 1 year set forward.
- The disabled mortality assumption was changed from the Fully Generational RP-2014 Disabled Mortality Table with MP-2016 projection scale by a 3-year set back to the Fully Generational RP-2014 Disabled Mortality Table adjusted to 2006 with MP-2017 projection scale adjusted by a 3-year set back.
- The participation assumptions changed based on recent plan experience under the new plan designs and the City's best estimate of long-term enrollment rates:
 - 30% of future retirees are assumed to elect pre-65 coverage (down from 80%)
 - 20% of current pre-65 retirees and 0% of current post-65 retirees that have opted out of Retiree Exchange coverage as of July 1, 2018 will elect coverage for next year
- The discount rate assumption changed from 3.13% as of June 30, 2017 to 2.98% as of June 30, 2018 based on the change in the S&P Municipal Bond Rate Index at the measurement date.

There were no other changes in assumptions or methods since the prior year.

Actuarial Assumptions.

Significant actuarial assumptions and other inputs used to measure the July 1, 2018 valuation were:

- | | |

- d. Mortality Assumption General: Fully Generational RP-2014 Total Dataset Mortality Table (with MP-2014 improvement removed) with MP-2017 projection scale from 2006 forward and adjusted by a 1 year set forward.
- Police and Fire: Fully Generational RP-2014 Blue Collar Mortality Table (with MP-2014 improvement removed) with MP-2017 projection scale from 2006 forward and adjusted by a 1 year set forward.
- Disabled: Fully Generational RP-2014 Disabled Mortality Table (with MP-2014 improvement removed) with MP-2017 projection scale from 2006 forward and adjusted by a 3-year set back.

e. Future Trend Assumption	Fiscal Year	Trend
	2019	6.28%
	2020	6.06%
	2021	5.83%
	2022	5.61%
	2023	5.39%
	2024	5.17%
	2025	4.94%
	2026	4.72%
	2027+	4.50%

- f. Experience Study May 1, 2014 experience study based on 10 years of census data (between 2003-2012)

- h. Discount Rate The discount rate used to measure the total OPEB liability was 2.98% as of June 30, 2018, which is equal to the single rate of return developed pursuant to GASB 75. GASB 75 requires that projected benefit payments expected to be satisfied by the plan's fiduciary net position (i.e. assets) be discounted using the long-term rate of return on OPEB plan investments and that projected benefit payments not expected to be satisfied by the plan's fiduciary net position be discounted using a yield or index rate of a 20-year tax-exempt general obligation municipal bond rated AA/Aa or higher.

Based on the City's current funding policy effective June 30, 2018, the Plan's fiduciary net position is not projected to be available to make all projected future benefit payments of current plan members. Additionally, paragraph 4.99 of Implementation Guide No. 2017-3, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

(and Certain Issues Related to OPEB Plan Reporting) states that the total of the benefit payments that are projected to occur in a period during which the OPEB plan's Fiduciary net position is projected to not be sufficient to make those benefit payments may be classified as unfunded. As determined by the City, the discount rate assumption for determining the total OPEB liability was based on the S&P Municipal Bond 20-Year High Grade Rate Index as of June 30, 2018.

i. Discount and Healthcare Trend Sensitivity Rates

The following represent the Authority's proportionate share of the net OPEB liability, as well as what the Authority's proportionate share would be if it were calculated using a discount rate that is 1-percentage point lower (1.98%) or 1-percentage point higher (3.98%):

	Discount Rate Sensitivity (000's)		
	<u>1% Decrease (1.98%)</u>	<u>Current Rate (2.98%)</u>	<u>Current Rate (3.98%)</u>
Net OPEB Liability	\$9,168	\$7,971	\$7,019

The following represent the Authority's proportionate share of the net OPEB liability, as well as what the Authority's proportionate share would be if it were calculated using a healthcare cost trend rate that is 1-percentage point lower (or 1-percentage point higher):

	Healthcare Trend Sensitivity (000's)		
	<u>1% Decrease</u>	<u>Current Rate Trend Rates</u>	<u>1% Increase</u>
Net OPEB Liability	\$7,331	\$7,971	\$8,769

13. RELATED PARTIES AND MAJOR CUSTOMERS

The City provided fire protection and other services to the Authority at a cost of \$3,661 and \$3,409 for fiscal years 2018 and 2017, respectively.

The Authority receives a large portion of its operating revenues from two airlines, FedEx Express and Delta Air Lines. Rentals, landing fees, and other revenues from these two airlines were approximately 47 percent and 52 percent of operating revenues for fiscal years 2018 and 2017, respectively.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

14. COMMITMENTS AND CONTINGENCIES

The Authority's construction projects are estimated at \$159,779, of which \$51,712 has been expended through June 30, 2018. Of the remaining \$108,067 expected to be spent, the outstanding commitments were \$83,142 and related primarily to the construction of a glycol management system, airfield maintenance and operations support facility, consolidated rental car maintenance facility and the developments of an airport master plan. The remaining commitments relate to projects to be funded from Airport Expansion funds included in restricted assets (Note 4) and Federal grants.

Amounts received or receivable from grantor agencies are subject to audit by the grantor agencies, principally the Federal government. Disallowed expenditures, if any, may constitute a liability of the applicable funds. The Authority is not aware of any disallowed expenditures at this time.

It is the opinion of management that, based on the information presently available, no matters will have a material adverse effect upon the financial position or results of operations of the Authority.

15. SUBSEQUENT EVENTS

On July 2, 2018, the Authority made the final draw of \$45,500 on the \$110,000 Airport Revenue Bonds, Series 2016A. This issue is being used to finance the design and construction of the glycol collection management program and an airfield maintenance and airport operations facility.

On August 30, 2018, the Authority issued \$119,275 Airport Revenue Bonds, Series 2018 at a \$15,088 premium. The 2018 Bonds mature July 1, 2047 and have a fixed annual interest of 5 percent. Certain net proceeds of \$106,705 will be used to fund a portion of the cost to modernization the existing B concourse; certain net proceeds of \$15,836 were used to fund capitalized interest deposit requirements; certain net proceeds of \$10,678 were used to fund debt service reserve requirements and certain net proceeds of \$1,144 were used to pay the cost of issuance of the bonds.

				Covered Payroll	Pension Liability
				(3) ÷ (4)	
2015	3.85%	\$14,719	\$19,297	76.3%	85.2%
2016	3.22%	\$16,977	\$18,420	92.2%	79.9%
2017	3.31%	\$13,878	\$18,709	74.2%	84.4%
2018	3.53%	\$9,752	\$19,439	50.2%	89.6%

(1) The information presented above is for those years for which it is available. It was prepared prospectively from the Plans's fiscal year ending June 30, 2015 for GASB 67 purposes and prospectively from fiscal year ending June 30, 2016 for GASB 68 purposes.

(2) Based on the cost sharing allocation percentage as of the measurement date.

(3) The actual covered employee payroll is defined under GASB 82 to be the payroll on which contributions to a pension plan are based. As pensionable pay is used for determining contributions under the plan, pensionable pay is shown above starting on June 30, 2016. Prior to June 30, 2016 the gross payroll is shown, consistent with the requirements prior to the release of GASB 82. Note, actual covered employee payroll is for the year immediately preceding the valuation date.

Schedule of Employer Contributions under GASB 67 and 68 ⁽¹⁾

(1)	(2)	(3)	(4)	(5)	(6)
Year Ending	Statutorily	Actual	Contribution	Actual	Contributions as a
June 30	Required	Employer	Excess/(Deficiency)	Covered	Percentage of
	Contribution	Contributions ⁽²⁾	(3) - (2)	Employee	Covered Payroll
				Payroll ⁽³⁾	(3) ÷ (5)
2015	\$996	\$996		\$19,297	5.2%
2016	\$2,848	\$1,067	(\$1,781)	\$18,420	5.8%
2017	\$2,271	\$2,271		\$18,709	12.1%
2018	\$2,717	\$2,717		\$19,439	14.0%

(1) This schedule is prepared to illustrate the requirement to show information regarding the Net Pension Liability and Related Ratios for 10 years. The information presented above is for those years for which it is available. It was prepared prospectively from the fiscal year ending June 30, 2015 for GASB 67 purposes and prospectively from fiscal year ending June 30, 2016 for GASB 68 purposes.

(2) Refer to the City of Memphis funding valuation report for the corresponding fiscal year. The Airport Authority's share is proportionate based on the share of actuarially accrued liability. Note: For fiscal year 2017 the ADC ws updated from the fiscal year 2017 accounting report to be \$2,271. This change is a disclosure item only and does not impact other areas of the financial statements.

(3) The actual covered employee payroll is defined under GASB 82 to be the payroll on which contributions to a pension plan are based. As pensionable pay is used for determining contributions under the plan, pensionable pay is shown above starting on June 30, 2016. Prior to June 30, 2016 the gross payroll is shown, consistent with the requirements prior to the release of GASB 82. Note, actual covered employee payroll is for the year immediately preceding the valuation date.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
REQUIRED SUPPLEMENTARY INFORMATION (\$ IN THOUSANDS) (CONCLUDED)

Schedule of Proportionate Share of the Net OPEB Liability and Related Ratios under GASB 75

Net OPEB Liability

(1) Year Ended June 30	(2) Proportion of the Net Liability (Asset) (2)	(3) Proportionate Share of Net OPEB Liability	(4) Actual Covered Employee Payroll (3)	(5) Net OPEB Liability as a Percentage of Covered Payroll (3) ÷ (4)	(6) Fiduciary Net Position as a % of Total OPEB Liability
2017	2.35%	\$9,745	\$18,709	52.1%	0.8%
2018	2.39%	\$7,971	\$18,111	44.0%	1.2%

- (1) The information presented above is for those years for which it is available. It was prepared prospectively from the Plan's fiscal year ending June 30, 2017 for GASB 75 purposes.
- (2) Based on the cost sharing allocation percentage as of the measurement date.
- (3) The actual covered payroll represents the total covered payroll for the prior calendar year, increased by the salary scale. Where a salary amount was not provided, an average of the other participants for that year was assumed. For the calendar year 2018, the average salary was \$52,760.

Schedule of Employer OPEB Contributions under GASB 75

(1) Year Ended June 30	(2) Statutorily Required Contribution (2)	(3) Actual Employer Contributions	(4) Contribution Excess/(Deficiency) (3) - (2)	(5) Actual Covered Employee Payroll (3)	(6) Fiduciary Net Position as a % of Total OPEB Liability (3) ÷ (5)
2017	\$211	\$211	\$0	\$18,709	1.1%
2018	\$303	\$303	\$0	\$18,111	1.7%

- (1) This schedule is prepared to illustrate the requirement to show information regarding the Net OPEB Liability and Related Ratios for 10 years. The information presented above is for those years for which it is available. It was prepared prospectively from the Plan's fiscal year ending June 30, 2017 for GASB 75 purposes.
- (2) Represents the portion of the Plan's actuarially determined contribution allocated to the Airport Authority. Details may be found in the funding valuation report for the corresponding fiscal year.
- (3) The actual covered payroll represents the total covered payroll for the prior calendar year, increased by the salary scale. Where a salary amount was not provided, an average of the other participants for that year was assumed. For the calendar year 2018, the average salary was \$52,760.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
YEARS ENDED JUNE 30, 2018 AND 2017

Changes of benefit terms. In the July 1, 2018 actuarial valuation there were no changes to benefit terms.

Changes of assumption (accounting and methods).

In the July 1, 2018 actuarial valuation:

- 1) The per capita claims costs and premiums for the self-funded preferred and premier plans were updated based on recent claims experience.
- 2) The healthy mortality assumption was changed from the Fully Generational RP-2014 Mortality Table with MP-2016 projection scale adjusted by a 1 year set forward to the Fully Generational RP-2014 Mortality Table adjusted to 2006 with MP-2017 projection scale adjusted by a 1 year set forward.
- 3) The disabled mortality assumption was changed from the Fully Generational RP-2014 Disabled Mortality Table with MP-2016 projection scale by a 3-year set back to the Fully Generational RP-2014 Disabled Mortality Table adjusted to 2006 with MP-2017 projection scale adjusted by a 3-year set back.
- 4) The participation assumptions changed based on recent plan experience under the new plan designs and the City's best estimate of long-term enrollment rates:
 - 30% of future retirees are assumed to elect pre-65 coverage (down from 80%)
 - 20% of current pre-65 retirees and 0% of current post-65 retirees that have opted out of Retiree Exchange coverage as of July 1, 2018 will elect coverage for next year

In the July 1, 2017 actuarial evaluation:

- 1) The per capita claims costs and premiums for the self-funded preferred and premier plans were updated based on recent claims experience.
- 2) The initial health care trend rate was updated from 6.35% for Pre-65 and 6.33% for Post-65 to 6.50% for all ages based on plan experience and industry trend projections.
- 3) The healthy mortality assumption was changed from the Fully Generational RP-2014 Mortality Table with MP-2014 projection scale adjusted by a 1 year set forward to the Fully Generational RP-2014 Mortality Table adjusted to 2006 with MP-2016 projection scale adjusted by a 1 year set forward.
- 4) The disabled mortality assumption was changed from the Fully Generational RP-2014 Disabled Mortality Table with MP-2014 projection scale by a 3-year set back to the Fully Generational RP-2014 Disabled Mortality Table adjusted to 2006 with MP-2016 projection scale adjusted by a 3-year set back.
- 5) The participation assumptions changed based on recent plan experience under the new plan designs and the City's best estimate of long-term enrollment rates:
 - 80% of future retirees are assumed to elect pre-65 coverage (down from 100%)
 - 55% of future retirees are assumed to elect post-65 coverage (down from 100%)

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
YEARS ENDED JUNE 30, 2018 AND 2017

- 67% of current pre-65 retirees and 10% of current post-65 retirees that have opted out of HRA coverage as of July 1, 2017 will elect coverage for next year.
- 6) The assumption for the percentage of future retirees that will cover a spouse after retirement was updated from 49%/10%/46% to 56%/15%/46% for General Males, General Females, and Police and Fire, respectively, based on recent plan experience.
- 7) The persistency assumption was changed from assuming all inactive participants continue their medical election coverage for their lifetime to assuming that 55% of all pre-65 retirees eligible for HRA coverage will elect coverage upon reaching age 65 based on recent plan experience of participants over age 65 who elected post-65 HRA coverage.
- 8) The percentage of current pre-65 retirees assumed to be Medicare eligible at age 65 changed from 84% to 92% based on recent plan experience.
- 9) The discount rate assumption changed from 2.71% as of June 30, 2016 to 3.13% as of June 30, 2017 based on the change in the S&P Municipal Bond Rate Index at the measurement date.

There were no other changes in assumptions or methods since the prior year. However, the City of Memphis elected to early adopt GASB 75 (adopted in June 2017). Therefore, the accounting and disclosure changed from the requirements of GASB 43/45 to GASB 74/75 in the City's report.

SUPPLEMENTAL SCHEDULES

Supplemental schedules, although not necessary for fair presentation of financial position and results of operation in conformity with generally accepted accounting principles, are often included to provide additional information.

- (1) In FY 2009 Delta Air Lines and Northwest Airlines merged effective October 29, 2008. The FAA issued a joint operating certificate on January 1, 2010. Beginning FY 2010 and going forward, information is combined.
- (2) For FY 2018 Air Wisconsin, Envoy Air, Mesa Airlines, Piedmont Airlines, PSA Airlines, Republic Airlines, SkyWest Airlines and Trans States Airlines operated for American Eagle. Previous years totals include America West and Virgin Atlantic.
- (3) For FY 2018 Endeavor Air, ExpressJet, GoJet, Republic Airlines and Skywest Airlines operated for Delta Connection.
- (4) For FY 2018 CommutAir, ExpressJet, GoJet, Mesa Airlines, Republic Airlines, Skywest Airlines and Trans States Airlines operated for United Express.
- (5) May include activity by airlines no longer serving Memphis.
- (6) Source: FAA, based upon calendar year.
- (7) Enplanements for FY 2009 - 2010 were restated to correct a reporting error that excluded certain Northwest Airlines' enplaned passengers from the total enplaned passenger count. The restatements for the period FY 2009 - 2010 resulted in annual enplanement increases that ranged from 136,030 to 186,393 enplanements or 2.7% percent to 3.6% percent of total annual enplanements.

- (a) FY 2015 originally reported \$27,760 on this schedule, restated to correct amount of \$25,760.
- (b) Restricted interest earnings represents earnings on current debt service fund and operating funds. Other includes operating grant income.
- (c) Net revenues have been calculated in accordance with definitions in the basic revenue bond resolutions.
- (d) Debt service portion payable from net revenues.
- (e) Excludes amounts paid with capitalized interest.
- (f) Special Facilities Revenue bonds are secured and payable from rentals equal to the debt service on the bonds. Debt service on these bonds is not payable from general revenues and, accordingly, does not enter into these coverage ratio calculations.

(1) Debt reported for FY 2009 - FY 2013 was restated to include all debt net of related premiums, excluding Special Facilities Bonds.

(2) Enplanements for FY 2009 - FY 2010 were restated to correct a reporting error that excluded certain Northwest Airlines' enplaned passengers from the total enplaned passenger count. The restatements for the period FY 2009 - 2010 resulted in annual enplanement increases that ranged from 136,030 to 186,393 enplanements or 2.7% percent to 3.6% percent of total annual enplanements.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY

USE OF BOND PROCEEDS

Descriptions of the uses of proceeds from the Authority's outstanding bond issues are summarized below.

AIRPORT REVENUE BONDS

Series 2016A - The bonds were issued to provide funds for the design and construction of the glycol collection management program and an airfield maintenance and airport operations facility.

Series 2011A-1 and A-2 - The bonds were issued to provide funds for the purpose of refunding portions of the 1999E and 2001A (\$60,085 and \$38,700 respectively). See Series 1999E and 2001A below.

Series 2011A, B, and C - The bonds were issued to provide funds for the purpose of refunding portions of the 1999D, 2001A and 2001B (\$17,080, \$21,490 and \$42,380 respectively). See Series 1999D, 2001A and 2001B below.

Series 2010A - The bonds were issued to fund a portion of the costs of construction, acquisition and equipping of Checkpoint B Renovations and the GTC.

Series 2010B - The bonds were issued to provide funds for the purpose of refunding portions of the 1999D and 1999E bonds outstanding (\$160,525 and \$1,455 respectively). See Series 1999D and 1999E below.

Series 2008A - The bonds were issued to provide funds for the purpose of refunding all Series 1999A and 1999B bonds outstanding (\$87,751) at date of refunding (March 2008). See Series 1999A and B below.

Series 2003A - The bonds were issued to provide funds for the purpose of refunding a portion of the Series 1993 Bonds. The Series 1993 bonds were issued to provide funds for the purpose of refunding the outstanding principal balance of the Series 1985 Bonds; which were issued to fund airfield improvements including runway paving and lighting, airfield drainage improvements, airfield maintenance facility and fencing; terminal improvements including passenger hold rooms and baggage claim improvements for both the Authority and tenants and a hydrant fueling system; and ground transportation site preparations.

Series 2001A and B - The proceeds of this bond issue were used to finance the construction, reconstruction and extension of runways and taxiways, acquisition of property for noise mitigation, replacement of airport signage, property acquisition and clearing, expansion of the parking garage and employee parking lot, the acquisition and implementation of an automated vehicle identification system, roadway improvements, construction of terminal improvements, a walkway connector, baggage system improvements and other airline tenant finishes at the Airport, construction of facilities for air cargo and airline ground service equipment and other associated projects at the Airport including the replacement and upgrade of two cooling plants and the relocation of an airport maintenance shop.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY USE OF BOND PROCEEDS (CONTINUED)

Series 1999E - The bonds were issued to provide funds for the purpose of refunding the Series 1991 Bonds. The proceeds of the Series 1991 Bonds were used to finance the completion of certain taxiway construction projects and the installation of an improved access control system to enhance Airport security.

Series 1999D - The proceeds of this bond issue were used to finance the extension of Taxiway N to the south end of Runway 18R-36L, construction of an aircraft apron at the south end of Taxiway N, reconstruction of Taxiway M as a temporary runway and connecting taxiways, reconstruction of Taxiway Z and T, construction of high-speed exits from Runway 9-27, enlarge the airfield maintenance facility and to acquire property for airport development in the airfield area. Repairs in the parking garage and upper level terminal drive were projects for the ground transportation area. Terminal projects include constructing a walkway connecting Concourses B and C, additional gates to accommodate regional jets, space for airline clubs and concessions and other tenant improvements.

Funds were also used for the following airline-related improvements: finish and equip 23 regional jet gates on Concourses A and C, upgrade the flight information display system and gate check-in facilities on Concourse B, finish and equip the new Northwest World Club, renovate and expand the apron control, upgrade passenger check-in computers, expand baggage sort system and install and equip additional ticket counters for Northwest Airlines. For other airline tenants, renovate existing ticket and baggage claim facilities in Terminal C for joint use, expand hold room space and install some jet bridges in Concourse C.

Series 1997A - The bonds were issued to provide funds for the purpose of refunding a portion of the Series 1988 Bonds, which were used for ongoing expansion and modification of the airports as outlined in a master plan adopted by the Authority in 1986. This bond issue funded airfield, terminal building, and airline projects.

Airfield projects involve the following taxiway construction and improvements: acquisition of 37 acres of land for future development, including planned third parallel north-south runway; construction of a second east-west taxiway south of the passenger terminal; reconstruction of taxiways along the east and south edges of the terminal aircraft parking apron; reconstruction of the taxiway paralleling runway 9-27; construction of holding aprons and bypass taxiways for runway 18R-36L; and a taxiway extension to ease traffic to and from the FedEx apron.

In the terminal area, the following improvements have been made: installation of additional electrical supply and chiller equipment; removal and treatment of asbestos; repair of the existing two levels of the garage; and design of additional curbside roadways.

Funds were also used for the following airline-related improvements: enlargement of and general improvements to certain passenger hold rooms; an airline club room; restrooms at the east and west concourses; construction of bridge connectors between the concourses; enlargement and remodeling of airlines operations offices and ticketing and baggage service counters; installation of various airlines equipment and fixtures and aircraft loading bridges; installation of electrical equipment and a hydrant fuel supply facility; construction of a maintenance and storage facility; and a storage and distribution warehouse for then Northwest Airlines.

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL
AND STATE AWARDS
YEAR ENDED JUNE 30, 2018

1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal and state awards includes the federal and state grant activity of the Memphis-Shelby County Airport Authority (the "Authority") and is presented on the accrual basis of accounting. The information in the schedule is presented in accordance with the requirements of 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards ("Uniform Guidance"). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the presentation of, the financial statements. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The Authority has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

2. CONTINGENCY

The grant revenue amounts received and expensed are subject to audit and adjustment. If any expenditures are disallowed by the grantor as a result of such an audit, any claim for reimbursement to the grantor would become a liability of the Authority. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

The Board of Commissioners and Management
Memphis-Shelby County Airport Authority
Memphis, Tennessee

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Memphis-Shelby County Airport Authority (the "Authority") as of and for the years ended June 30, 2018 and 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated October 26, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

There were no prior findings reported.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Dixon Hughes Goodman LLP

Memphis, Tennessee

October 26, 2018

Independent Auditors' Report on Compliance for the Major Program and on Internal Control Over Compliance Required by the Uniform Guidance

The Board of Commissioners and Management
Memphis-Shelby County Airport Authority
Memphis, Tennessee

Report on Compliance for the Major Federal Program

We have audited Memphis-Shelby County Airport Authority's (the "Authority") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the Authority's major federal program for the year ended June 30, 2018. The Authority's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the Authority's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the Authority's compliance.

Opinion on the Major Federal Program

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Authority's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Dixon Hughes Goodman LLP

Memphis, Tennessee

October 26, 2018

MEMPHIS-SHELBY COUNTY AIRPORT AUTHORITY
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2018
