

**QUESTIONS AND ANSWERS REGARDING
REQUEST FOR BIDS (RFB) NO. 22-0007
REPLACEMENT S&C SWITCHGEAR FOR AIRWAYS VISTA GEAR**

1.	Paragraph 7 states the successful respondent will be responsible for offloading of the equipment. If this is to be enforced, can we utilize our own equipment to offload? It's not typical for us to offload from an LTL at a customer site. Depending on the location of delivery, it may be necessary to have a third party unload the equipment. Will this be acceptable? If so, would there be any additional insurance requirements the third party may need to meet?
