## TRANSMITTAL LETTER

September 25, 2024

Dear Respondent,

The Memphis-Shelby County Airport Authority (MSCAA) is seeking a qualified Respondent to provide a Parking Guidance System (PGS) for the Authority. This Request for Proposals (RFP) is under the direction of the Terminal Operations Department.

The Procurement Department is responsible for coordinating all communications between the Authority and Respondents. The RFP limits the manner, method, and type of communications that the Authority and Respondents may have once an RFP process is initiated to ensure that the process is fair and impartial. Please review the RFP carefully and abide by all required deadlines, dates, and terms.

All Respondents are hereby notified that all updates, addenda and additional information, if any, shall be posted to the Authority website <a href="www.flymemphis.com">www.flymemphis.com</a>, and Respondents are responsible for checking the Authority website up to the time of the RFP submission deadline.

The Authority reserves the right to reject any or all responses to this RFP in whole or in part; to waive any informalities, technicalities, or omissions therein; and/or to cancel this process at any time. The Authority also reserves the right to reject any response when a parent, subsidiary, affiliate, or predecessor in interest of the Respondent has pending litigation or claims with the Authority, or if any response includes a proposed subcontractor or supplier that has pending litigation or claims with the Authority, if the Authority determines, in its sole discretion, such litigation or claims may adversely affect the ability of the parties to work efficiently and effectively under this RFP, or for any other reason as determined by the Authority. Any such responses will be returned to the Respondent. All Respondents must use forms provided by the Authority.

No Respondent may withdraw an opened Response without the Authority's consent.

The Authority shall give a preference to businesses located in or near the County of Shelby, State of Tennessee in awarding contracts and making purchases whenever the application of such a preference is reasonable in light of the valuation points/dollar-value of the proposal/bid received in relation to such valuation points/expenditures and pursuant to the terms and conditions that are outlined in the adopted policy as amended.

Should you have questions regarding this RFP, the RFP sets forth a process by which you may submit your questions and receive answers. Thank you for your participation in this process. We look forward to receiving your response.

Sincerely,

Kenneth Parrish, ACE
Director of Procurement

## 1 BACKGROUND

The Authority owns and operates Memphis International Airport (MEM), Charles Baker Airport and General DeWitt Spain Airport. Memphis International Airport is located in Shelby County about 13 miles southeast of downtown Memphis. Memphis International Airport is the principal air carrier airport serving west Tennessee, north Mississippi, southeast Missouri, and east Arkansas. Memphis International Airport is also the principal hub for FedEx, making MEM the world's second busiest cargo airport and the single largest economic engine in the Mid-South.

The Airport is primarily an origin and destination (O&D) airport. MEM served a record 4.8 million passengers in 2023, an increase of 10% compared to 2022.

The Airport is located on 4,640 acres of land in the County and includes a terminal complex of approximately one million square feet, and four other buildings containing approximately 100,000 square feet, which are used by air carriers and all-cargo carriers as transfer facilities for cargo. These buildings are adjacent to the terminal complex and are separate from FedEx facilities that contain approximately 3.5 million square feet and occupy approximately 518 acres.

These rules define a DBE as a for-profit, small business concern which is at least fifty-one percent (51%) owned and controlled by one or more socially and economically disadvantaged individuals. In the case of any publicly owned business, at least fifty-one percent (51%) of the stock must be owned by one or more socially and economically disadvantaged individuals. In addition, the personal net worth of the socially and economically disadvantaged owners of the small business concern must not exceed two million forty-seven thousand dollars (\$2,047,000).

As defined by 49 CFR, Part 26.5, a socially and economically disadvantaged individual is any individual who is a citizen (or lawfully admitted permanent resident) of the United States and who is:

- (1) Any individual who a recipient finds to be a socially and economically disadvantaged individual on a case-by-case basis.
- (2) Any individual in the following groups, members of which are rebuttably presumed to be socially and economically disadvantaged:
  - a. **Black Americans** which include persons having origins in any of the Black racial groups of Africa;

#### 6.5 DBE Liaison Officer

For questions or information related to the DBE program, contact ReGina Armstrong, the Senior Manager of Business Diversity Development at (901) 922-0255.

### 6.6 DBE Certification

The Authority is a certifying member of the Tennessee Department of Transportation Unified Certification Program (TNUCP). TNUCP is a cooperative of entities that are recipients of federal funds that have developed a "one-stop shop" for certification throughout the State of Tennessee. The Authority compiles a directory of firms who have met the TNUCP's selection criteria for eligibility as a DBE, including 49 CFR Part 26. You can view the directory of certified firms at www.flymemphis.com or at www.tdot.tn.gov. In order to be considered as meeting the DBE goal for this Contract, each business wishing to participate as a DBE or a joint venture DBE, must be certified by a TNUCP certifying member in accordance with 49 CFR Part 26. Out of state firms may be granted reciprocity by a TNUCP certifying member with an existing certification from their home state. Unless a firm is certified by a TNUCP certifying member by the time the responses to this solicitation are due, its participation will not be considered as meeting the DBE goal in the solicitation. Each business wishing to participate as a DBE or a joint venture DBE must be certified by the time the responses are due.

# 6.7 Identification of Contract Goal and Requirements

For this Contract, the DBE goal is established as 6%. In order to be responsive, a Respondent must either meet the goal or make good faith efforts to do so. Good faith efforts are defined in Appendix A to 49 CFR Part 26 and discussed in the following section.

If a Respondent's DBE Assurance Statement proposes a DBE percentage less than the established goal, the Respondent must, at the time of making the response, submit appropriate

documentation showing good faith efforts to meet the established goal. The Authority reserves the right to request additional documentation or information from Respondent regarding its DBE Assurance Statement and; if applicable, any good faith efforts documentation. If the Authority enters into a contract based on the Respondent's DBE Goals Accomplishment Statement and documentation, the DBE percentage accepted by the Authority will become a contractual requirement. If the Respondent's DBE Assurance Statement proposes to attain a DBE percentage higher than the established goal, the established goal will remain the contractual requirement.

Respondents shall not contract with, demand, require or coerce a DBE into any agreement or into the signing of any Assurance Statement or any other document which prohibits the DBE from providing subcontracting quotations or doing business with other Respondents. The DBE shall be free to provide their services to any number of Respondents. To ensure that all obligations under sub-contracts awarded to a DBE are met, the Authority will review the agreement between the Respondent and DBE, and Respondent's DBE involvement efforts during the performance of the Contract. The Respondent shall bring to the attention of the Authority any situation in which regularly scheduled progress payments are not made to a DBE. If, in the opinion of the Authority, the Respondent has made significant deviations from the DBE program commitments, it shall be considered a breach of contract.

# 6.8 Good Faith Efforts Statement and Requirements

Respondents must either meet the DBE goal or make good faith efforts to meet the goal. Respondents who do not meet the goal must establish adequate good faith efforts by submitting documentation along with the Respondent DBE Goals Accomplishment Statement. This statement should show that they took all necessary and reasonable steps to achieve the DBE goal, which could reasonably be expected to obtain sufficient DBE participation, even if they were not fully successful. The Respondent's DBE Goals Accomplishment Statement and supporting documents should conform to the good faith requirements outlined in Appendix A of 49 CFR Part 26.

The following is a list of types of actions that may be part of a Respondent's efforts to obtain DBE participation and may be included in the Respondent DBE Goals Accomplishment Statement and documentation. This list is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases:

- a. Soliciting through all reasonable and available means (e.g. attendance at pre-bid meetings, advertising and/or written notices) the interest of all certified as a DBE who have the capability to perform the work of the Contract. The Respondent must solicit this interest within sufficient time to allow the DBE to respond to the solicitation and take appropriate steps to follow-up on initial solicitations to determine interest.
- b. Selecting portions of the work to be performed by a DBE to increase the likelihood that the goals of the DBE will be achieved.
- c. Providing any interested DBE with adequate information about the plans, specifications, and requirements of the Contract in a timely manner to assist them in responding to a solicitation.
- d. Negotiating in good faith with any interested DBE. It is the Respondent's responsibility to make a portion of the work available to DBE subcontractors and suppliers and to select

those portions of the work or material needs consistent with the available DBE subcontractors and suppliers, to facilitate DBE participation.

- e. Not rejecting any DBE as being unqualified without sound reasons based on a thorough investigation of their capabilities.
- f. Making efforts to assist any interested DBE in obtaining bonding, lines of credit, or insurance as required by the recipient or contractor.
- g. Making efforts to assist any interested DBE in obtaining necessary equipment, supplies, materials, or related assistance or services.
- h. Effectively using the services of available minority/women community organizations; minority/women contractors' groups; local, state, and Federal minority/women business assistance offices; and other organizations as allowed on a case-by-case basis to aid in the recruitment and placement of any DBE.

For each DBE listed as a regular dealer or distributor the Authority will make a preliminary counting determination to assess the DBE's eligibility for 60 or 40 percent credit, respectively, of the cost of materials and supplies based on its demonstrated capacity and intent to perform as a regular dealer or distributor, as defined in § 26.55(e)(2)(iv)(A), (B), and (C) and (e)(3) under the contract at issue. The Authority's preliminary determination shall be made based on the DBE's written responses to relevant questions and its affirmation that its subsequent performance of a commercially useful function will be consistent with the preliminary counting of such participation. Where the DBE supplier does not affirm that its participation will meet the specific requirements of either a regular dealer or distributor, the Authority is required to make appropriate adjustments in counting such participation toward the bidder's good faith efforts to meet the contract goal. The bidder is responsible for verifying that the information provided by the DBE supplier is consistent with the counting of such participation toward the contract goal.

If a Respondent has not met the DBE goal and submits Respondent DBE Goals Accomplishment Statement and documentation, the Respondent should summarize in detail all good faith efforts taken by the Respondent, including, but not limited to, the activities listed above in A through I, and supporting documentation. While the Respondent should submit documentation to support its good faith efforts at the time of the Response submission, the Authority may ask questions of Respondent or request additional documentation after review of Respondent's DBE Goals Accomplishment Statement and any documentation. In submitting the information required under this section, Respondent understands and agrees that the determination of whether Respondent has met the DBE goal or established good faith efforts to meet the goal is a judgment call that the Authority will make.

## 6.9 Administrative Reconsideration

Within five (5) business days of being informed by the Authority that it is not responsive because it has not documented sufficient good faith efforts, a Respondent may request administrative reconsideration. Respondent should make this request in writing to the following reconsideration official: Terry Blue, President and CEO, Memphis Shelby County Airport Authority, 2491 Winchester Road, Suite 113, Memphis, Tennessee 38116, (901) 922-8000, tblue@flymemphis.com. The reconsideration official will not have played any role in the original determination that the Respondent did not document sufficient good faith efforts.

As part of this reconsideration, the Respondent will have the opportunity to provide written documentation or argument concerning the issue of whether it met the goal or made adequate good faith efforts to do so. The bidder/offeror will have the opportunity to meet in person with our reconsideration official to discuss the issue of whether it met the goal or made adequate good faith efforts to do. The Authority will send the Respondent a written decision on reconsideration, explaining the basis for finding that the Respondent did or did not meet the goal or make adequate good faith efforts to do so. The result of the reconsideration process is not administratively appealable to the Department of Transportation.

## 6.10 Counting DBE Participation

DBE participation shall be counted toward meeting the DBE goal as outlined in 49 CFR Part 26, specifically 26.55. When the Respondent completes an Assurance Statement, the Respondent must include not only the total value of the work to be performed and/or the materials to be supplied by the DBE but also the total amount of DBE participation that should be counted toward meeting the goal. If you have any questions about counting, we strongly urge you to consult 49 CFR Part 26. The following may be helpful to you in counting DBE participation and in determining which sections of Part 26.55 you need to review in more detail:

- a. When a DBE participates in a contract, you count only the value of the work actually performed by the DBE toward DBE goals.
  - 1) Count the entire amount of that portion of a construction contract (or other contract not covered by paragraph (a)(2) of this section) that is performed by the DBE's own forces. Include the cost of supplies and materials obtained by the DBE for the work of the contract, including supplies purchased or equipment leased by the DBE (except supplies and equipment the DBE subcontractor purchases or leases from the prime contractor or its affiliate).
  - 2) Count the entire amount of fees or commissions charged by a DBE firm for providing a bona fide service, such as professional, technical, consultant, or managerial services, or for providing bonds or insurance specifically required for the performance of a DOT-assisted contract, toward DBE goals, provided you determine the fee to be reasonable and not excessive as compared with fees customarily allowed for similar services.
  - 3) When a DBE subcontracts part of the work of its contract to another firm, the value of the subcontracted work may be counted toward DBE goals only if the DBE's subcontractor is itself a DBE. Work that a DBE subcontracts to a non-DBE firm does not count toward DBE goals. a. When a DBE participates in a contract, you count only the value of the work actually performed by the DBE toward DBE goals.
  - 4) Count the entire amount of that portion of a construction contract (or other contract not covered by paragraph (a)(2) of this section) that is performed by the DBE's own forces. Include the cost of supplies and materials obtained by the DBE for the work of the contract, including supplies purchased or equipment leased by the DBE (except supplies and equipment the DBE subcontractor purchases or leases from the prime contractor or its affiliate).

- 5) Count the entire amount of fees or commissions charged by a DBE firm for providing a bona fide service, such as professional, technical, consultant, or managerial services, or for providing bonds or insurance specifically required for the performance of a DOT-assisted contract, toward DBE goals, provided you determine the fee to be reasonable and not excessive as compared with fees customarily allowed for similar services.
- 6) When a DBE subcontracts part of the work of its contract to another firm, the value of the subcontracted work may be counted toward DBE goals only if the DBE's subcontractor is itself a DBE. Work that a DBE subcontracts to a non-DBE firm does not count toward DBE goals.
- b. When a DBE performs as a participant in a joint venture, count a portion of the total dollar value of the contract equal to the distinct, clearly defined portion of the work of the contract that the DBE performs with its own forces toward DBE goals.
- c. Count expenditures to a DBE contractor toward DBE goals only if the DBE is performing a commercially useful function on that contract. For the definition and explanation of a commercially useful function see 49 CFR Part 26.55(c).
- d. To determine whether a DBE trucking company is performing a commercially useful function see 49 CFR Part 26.55(d).
- e. Count expenditures with DBEs for materials or supplies toward DBE goals as provided in 49 CFR Part 26.55(e). Please note that materials or supplies obtained from a DBE manufacturer are counted differently toward DBE goals than a DBE regular dealer. It is imperative that the bidder consult federal regulations for counting differences.
- f. If a firm is not currently certified as a DBE in accordance with the standards of 49 CFR Part 26 Subpart D at the time of the execution of the contract, do not count the firm's participation toward any DBE goals, except as provided for in § 26.87(i)).
- g. Do not count the dollar value of work performed under a contract with a firm after it has ceased to be certified toward your overall goal.
- h. Do not count the participation of a DBE subcontractor toward a contractor's final compliance with its DBE obligations on a contract until the amount being counted has actually been paid to the DBE.

#### 6.11 Sanctions for Non-Compliance

In case of the Respondent's non-compliance with DBE requirements as applicable, including, but not limited to, documentation, cooperation, and truthfulness, the Authority shall impose such Contract sanctions as it may determine to be appropriate. This may include but is not limited to:

- Withholding of payments to the Respondent under the Contract until the Respondent complies;
   and/or
- b. Cancellation, termination, or suspension of the Contract, in whole or in part; and/or
- c. Assessing sanctions; and/or

d. Payment by the Respondent to the Authority of an amount equal to the difference in the DBE dollar value contracted for and the dollar value achieved in documented DBE participation, which dollar value shall be considered liquidated damages if the Authority determines that Respondent failed to make good faith efforts in meeting the Contract's DBE goal.

### 6.12 Contract Assurance (49 CFR Part 26.13)

The successful Respondent, any successful subrecipient or successful subcontractor shall not discriminate based on race, color, national origin, or sex in the performance of this prime contract. The successful Respondent shall carry out applicable requirements of 49 CFR part 26 in the award and administration of DOT-assisted contracts. Failure by the successful Respondent to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to:

- a. Withholding monthly progress payments;
- b. Assessing sanctions;
- c. Liquidated damages; and/or
- d. Disqualifying the Contractor from future bidding as non-responsible.

# 6.13 Prompt Payment / Retainage

The successful Respondent agrees to pay each subcontractor under this prime contract for satisfactory performance of its contract no later than fifteen (15) days from the receipt of each payment the successful Respondent receives from MSCAA. A subcontractor's work is satisfactorily completed when all the tasks called for in the subcontract have been accomplished and documented as required by the MSCAA. When MSCAA has made an incremental acceptance of a portion of a prime contract, the work of a subcontractor covered by that acceptance is deemed to be satisfactorily completed. Any delay or postponement of payment from the above referenced timeframe may occur only for good cause following written approval of the MSCAA. This clause applies to both DBE and non-DBE subcontractors.

Retainage will not be withheld on this project. No retainage will be withheld by MSCAA from progress payments due to the successful Respondent. Retainage by the successful Respondent or subcontractors is prohibited, and no retainage will be held by the successful Respondent from progress payments due to subcontractors.

#### 6.14 Termination of DBE Subcontracts

The successful Respondent must not terminate a DBE subcontractor listed in response to this solicitation (or an approved substitute DBE firm) without prior written consent of Authority. This includes, but is not limited to, instances in which the successful Respondent seeks to perform work originally designated for a DBE subcontractor with its own forces or those of an affiliate, a non-DBE firm, or with another DBE firm.

The successful Respondent shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless the contractor obtains prior written consent as provided in 49 CFR  $\S26.53(f)$ . Unless prior written consent is provided pursuant to 49 CFR

 $\S26.53(f)$ , the successful Respondent shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE.

The Authority may provide such written consent only if the Authority agrees, for reasons stated in the concurrence document, that the successful Respondent has good cause to terminate the DBE firm. For purposes of this paragraph, good cause includes the circumstances listed in 49 CFR §26.53.

Before transmitting to the Authority its request to terminate and/or substitute a DBE subcontractor, the prime contractor must give notice in writing to the DBE subcontractor, with a copy to the Authority, of its intent to request to terminate and/or substitute, and the reason for the request.

The successful Respondent must give the DBE five days to respond to the successful Respondent's notice. In response, the DBE must advise the Authority and the successful Respondent of the reasons, if any, why it objects to the proposed termination of its subcontract and why the Owner should not approve the prime contractor's action. If required in a particular case as a matter of public necessity (e.g., safety), Owner may provide a response period shorter than five days.

In addition to post-award terminations, the provisions of this section apply to reward deletions of or substitutions for DBE firms put forward by offerors in negotiated procurements.

# 6.15 49 CFR Part 26

The Respondent shall carry out the applicable requirements of 49 CFR Part 26 in the award and administration of Authority contracts. Respondent agrees to provide all its subcontractors and suppliers and to require all its subcontractors and suppliers on this project to provide a complete copy of the Disadvantaged Business Enterprise (DBE) Requirements of the Contract to all those who provide supplies or work related to the Contract and to require all those providing supplies or work to be bound by these requirements as it relates to their work related to the Contract.

# 7 TITLE VI SOLICITATION NOTICE

The Authority, in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 USC §§ 2000d to 2000d-4) and the Regulations, hereby notifies all bidders or offerors that it will affirmatively ensure that for any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full and fair opportunities to submit bids in response to this invitation and no businesses will be discriminated against on the grounds of race, color, national origin (including limited English proficiency), creed, sex (including sexual orientation and gender identity), age, or disability in consideration for an award.

#### 8 INSURANCE REQUIREMENTS

The successful Respondent shall submit evidence of required insurance on an original ACORD certificate or comparable insurance certificate form(s) acceptable to the Authority, with required endorsements attached, the earlier of: fifteen (15) working days following award notification or prior to the scheduled

commencement of work. Failure to submit the required document(s) may result in rescinding the award. The Contract may thereafter be awarded to the next qualified Respondent. A certificate of insurance is not required at the time of the response; however, an approved insurance certificate and amendatory endorsements are required to be on file prior to the start of the work. In addition, a copy of the policy or policies shall be provided by the successful Respondent upon request.

The insurance requirements are established in Section 17 of the Sample Contract, which is set forth in Section 18 below.

# 9 BOND REQUIREMENTS

# 9.1 Surety

Any bond provided to the Authority in connection with the response to this RFP or any resulting agreement shall be executed by the Principal and Surety, and duly issued by an insurer or corporate surety which:

Notwithstanding the provisions of (d) above, an insurer or corporate surety that is not rated by <a href="Best's Key Rating Guide">Best's Key Rating Guide</a> may be accepted by the Authority following a review or investigation of the insurer's or corporate surety's financial and performance standing, including without limitation, its capital adequacy, assets, earnings, liquidity, and such other factors as the Authority may deem appropriate.

# 9.2 Proof of Surety

Any Proposal and/or Performance Bond submitted by Respondent must include an original, certified copy, or certified electronic copy of the Power of Attorney authorizing the Attorney-in-Fact to execute the Proposal and/or Performance Bond on behalf of the Surety.

#### 9.3 Proposal Bond

Each response must include an original, certified copy, or certified electronic **Proposal Bond** with a valid Power of Attorney, at no cost to the Authority, in the amount of **Five Thousand Dollars** (\$5,000.00), payable to the Memphis-Shelby County Airport Authority. Failure of the successful Respondent to execute the Contract within thirty (30) days after receiving the Contract document and furnish acceptable surety bonds and proof of required insurance prior to the Contract execution shall be just cause for cancellation of the award and forfeiture of the Proposal Bond, not as a penalty, but as liquidation of damages to the Authority.

Certified or cashier's checks will **NOT** be accepted in lieu of a proposal bond.

Proposal Bonds provided to the Authority in connection with the RFP shall be duly issued by an insurer or corporate surety on a bond form provided by the Authority in Section 16.2, or on a form substantially the same as the Authority's form, and which obligates the surety for at least one hundred twenty (120) days following the date on which responses to this RFP are publicly opened; and that is authorized to conduct insurance business in the State of Tennessee.

Failure to furnish a Proposal Bond with valid Power of Attorney, as specified, will result in rejection of Proposal for non-compliance.

#### 9.4 Performance Bond

The successful Respondent will be required to furnish an original, certified, or certified electronic **Performance Bond** at the time of Contract execution and prior to the start date of the Contract, in an amount **equal to contract price**, to guarantee the principal's performance of the Contract. The Performance Bond shall be made payable to the Memphis-Shelby County Airport Authority and shall remain in force for the duration of the Contract.

## 9.5 Contractor's Responsibility

The successful Respondent is solely responsible for providing surety bonds in connection with this RFP and its resulting contract. Subcontractors are not required to provide any type of surety bond to the Authority in connection with this RFP and or its resulting contract.

#### 10 FEDERAL FAIR LABOR STANDARDS ACT

All contracts and subcontracts that result from this solicitation incorporate by reference the provisions of 29 CFR part 201, the Federal Fair Labor Standards Act (FLSA), with the same force and effect as if given in full text. The FLSA sets minimum wage, overtime pay, recordkeeping, and child labor standards for full and part time workers.

The contractor has full responsibility to monitor compliance to the referenced statute or regulation. The contractor must address any claims or disputes that arise from this requirement directly with the U.S. Department of Labor – Wage and Hour Division.

# 11 SECURITY AND ACCESS

# 11.1 General Requirements

The successful Respondent shall comply with all Airport Security requirements concerning access to restricted areas of the buildings or airfield. Access to certain areas of the buildings may be restricted to off-peak working or operational hours or other reasons, and the Respondent will conduct their work accordingly. If the Authority determines that any employee(s) of the successful Respondent should not work on the Authority's property or on the Contract, the successful Respondent will immediately comply with the Authority's request to remove employee(s).

The successful Respondent and all employees performing duties under the Contract shall conform to all applicable aviation security procedures regarding the issue, wearing, replacement,

and return of personal identification badges, as defined in the Airport Security Program (available through the Airport Identification Office) approved by the Transportation Security Administration (TSA) and amended from time to time.

All employees working under the Contract will be required to display on their person, at all times while on duty, an identification badge issued by the Authority. Identification badges will be worn on the outermost garment above the waist.

The successful Respondent will provide the Authority with a badge application signed by the authorized signatory of the successful Respondent.

Prior to the issuance of the airport identification badge, an airport badge application must be prepared and submitted to the Airport Identification Office. The application form for airport identification will be provided by the Authority and properly completed by the successful Respondent.

All employees must be able to meet the requirements of the TSA in order to receive an airport identification badge. Individuals will be issued a badge by the Airport Identification Office only after they have met all necessary security and training requirements including the appropriate certifications of the fingerprint-based background check and the Security Threat Assessment. Authority shall be responsible for all fees associated with the successful Respondent's badge applications; Respondents should not include any costs for badge application fees in their proposals.

In order to ensure control and accountability of airport identification badges, the successful Respondent will notify the Authority of the termination of any employee immediately and submit written notification of badge status of terminated employees within twenty-four (24) hours to the Security Access Supervisor, Airport Identification Office. The Airport Identification Office shall be immediately notified if the badge is not recovered for any reason. Failure to recover the identification badge and return it to the Airport Identification Office will result in a one hundred dollar (\$100.00) fee assessed to the successful Respondent. The successful Respondent will also receive a Monthly Status Report and will verify the accuracy of that report on a monthly basis.

ID badges reported lost or stolen must be thoroughly investigated and closely scrutinized. Replacement ID badges may be issued only upon written request from the Respondent. Such a request must be on Company letterhead, stating the circumstances surrounding the loss, and be signed by an authorized Company representative on file with the Airport Identification Office. Replacement fees will be assessed to the successful Respondent; replacement fees for lost or stolen badges will be:

First replacement \$100.00
 Second replacement \$150.00
 Third replacement\* \$200.00

The successful Respondent shall so plan and conduct its operations to work in harmony with others engaged at the site and not to delay, endanger, or interfere with the operations of others, whether or not specifically mentioned above, and in the best interests of the Authority. All operations should be conducted in a manner that ensures the safety and well-being of others.

# 12 TERMS OF PERFORMANCE

### 12.1 Contract Negotiations and Contract Form

One Respondent will be selected for contract negotiations in accordance with Section 15.4. Realizing that the final basis for the agreement between the successful Respondent and the Authority must be a contract, Respondents shall indicate their willingness to negotiate a Contract acceptable to both Parties. This RFP and specified portions of the successful Respondent's response shall be incorporated into such Contract. The successful Respondent shall be required to execute a written contract with the Authority. The Authority will not execute the successful Respondent's standard contract.

# 12.2 Cancellation

Should the successful Respondent fail to meet the requirements of the Contract after it is executed, the Authority may cancel the Contract at once and award the remainder of the contract term to the next qualified Respondent. If the Contract is cancelled, all materials provided to Contractor shall be returned to the Authority.

# 12.3 Term of Contract

The term of this contract shall be for such time as is required to fulfill the obligations set forth herein, and as more particularly described in the Scope of Services in Section 13 below.

# 12.4 Convenience Termination of Contract

The Authority may, at any time upon thirty (30) days written notice to successful Respondent specifying the effective date of termination, terminate the Contract, in whole or in part, when the Authority deems it to be in the Authority's best interests.

#### 12.5.3 Taxes

The Authority is exempt from Local, State, and Federal taxes. Tax certificates will be issued to the successful Respondent.

#### 13 SCOPE OF SERVICES

#### 13.1 Overview

The Authority intends to provide a complimentary solution for its newly installed Parking and Access Control System and controlled self-parking assets. The project scope of work encompasses the design, development, programming, reliability testing, fabrication, unit testing, system testing, packaging, shipping, installation and start-up, documentation, user training, warranty, and maintenance of a PGS for the Economy and MSCAA parking garages. It shall also include the design, provision, and installation of dynamic digital signage to display parking space availability. The PGS will generally consist of the following components, features, and functions (quantities may change by future addendum).

#### 13.2 The Economy Garage provides parking in a 7- level, above-grade structure.

- The first two levels (Level 1 & 2) are currently dedicated as the Airport's Car Rental Center
- There are future plans to build a new CONRAC facility, once completed, these two levels will be allocated for additional transient parking for the Economy Garage visitors
- There is a single entry location for this garage parking with three (3) vehicle access lanes. Once access is granted via the PARCS system all vehicles ascend a ramp to the 3<sup>rd</sup> level
- Guest/visitor parking is provided on Levels 3 through 7 supported by a double helix
- Any over height vehicle unable to access the garage is directed to park in the West surface Lot

#### 13.3 The Long/Short-term Garage is a 3-level structure (with one level below grade.)

- Guest premium parking for our visitors with the closest proximity to the Airport Terminals
- This garage also contains dedicated areas for employee premium parking in the West corner
- Additional dedicated parking for employees' and contractors in the Southeast corner
- The Long-term/Short-term garage ground level has less covered spaces available for public
  use than the Lower Level (as per the drawings), due to an allocation of dedicated vehicle
  stalls in two (2) isolated areas known as (a) Vendor area and (b) Annex area. Single space
  detection is not required at this time for these particular vehicle stalls
- Over-height vehicles unable to access the garage(s) are directed to park in the West Lot

We have provided layout diagrams for each level of the two garages to assist in the preparation of your proposals. Google maps can provide aerial views of the West and East surface lots, plus the uncovered levels of Long-term/Short-term garage (level 3) and the Economy garage (Level 7). These drawings only contain limited information with respect to vehicle space quantities and relative position. There is a graphic scale reference on the Economy Garage drawings which may assist in determining vehicle stall width. Additional drawings are available for the Economy Garage; however, due to the age of these drawings the Airport cannot guarantee these measurements are accurate. We ask that all Vendors be responsible to take the appropriate measurements of stall sizes, floor to ceiling measurements, etc. during onsite visits.

Both the Long-term/Short-term and Economy parking garages have "uncovered" roof spaces which require a camera-based vehicle counting solution. An aerial (outdoor) camera system is an acceptable alternative with a provision in the Pricing Sheet template.

The Economy Garage vehicle ramp is a double helix construction and shall incorporate a separate camera-based level counting solution for vehicles entering and exiting the levels, along with LPN detection & storage.

The Economy Garage parking stalls on each level (12 rows) are angled parking. Please incorporate a wayfinding sign configuration to assist parkers by routing them accordingly to follow the shortest driving path to available parking spaces. There are 90-degree parking stalls, on each level, surrounding the angled parking rows and aisles around the garage perimeter.

The Long-term/Short-term garage haves 90-degree parking stalls throughout.

# 13.4 Single space vehicle detection sensors for defined visitor parking on levels with a ceiling above:

- Economy Garage 3,621 spaces
- Long-term/Short-term Garage 1,578 spaces
- Ramp entry and exit level count vehicle detection sensors are required for rooftop levels (no ceiling). Only camera-based technology is acceptable for entry/exit vehicle counts and/or aerial outdoor cameras for vehicle counting and surveillance in these areas
- The provision of an adequate number of Aisle and Row LED Signs is required, based on the
  recommended placement and quantity by the Vendor for optimum wayfinding. The sign
  specifications must include alpha-numeric digits with a minimum height of five inches (5"),
  must support an array of symbols such as ADA, EV charging, motorcycle, minimum 1080p
  resolution, support operating temperatures between -20 to +140 degrees F, and contained in
  dust and weatherproof NEMA 4 rated enclosures

- wempins, remesse
- Aisle/Row signs should be viewable at a 70 degree vertical angle and must be readable at a distance of 200 feet for drivers with 20/20 vision
- Cloud-based or on-premises servers are acceptable
- Complete Installation including power and communications to all camera sensors and wayfinding digital signs
- Onsite Acceptance Testing
- 2-Year warranty
- Post-warranty Maintenance (Years 3 through 10)
- Please itemize any annual licenses or recurring fees, which may or may not be included in the
  initial two years of warranty or post-warranty support documentation. The Vendor shall
  furnish sufficient personnel and equipment to complete the project in a continuous manner
  once work has begun. A special effort shall be made to minimize the interruption of parking
  operations and any loss of revenue due to the progress of work.

# 13.5 Items NOT required to be covered by the Vendor in the scope of the RFP:

- Owner to clean, re-paint, and re-stripe the parking garages (as needed)
- Owner to implement a new and independent level count system and digital signs for the Economy Garage level ramps (double helix), Economy Garage level 7 (uncovered) and Long/Short-term Garage level counts (Upper/Ground/Lower).
- Owner shall provide rack space in computer data centers to facilitate PGS servers or VM's
- Owner is responsible to provide adequate lighting (LUX) levels throughout garages
- Owner shall provide high-speed internet access for the PGS
- Owner to provide on-site parking management to manage PARCS and call center

# 13.6 Items required to be included by the Vendor in the scope of the RFP:

- Training for new wayfinding and single space detection system
- Installation in its entirety as per regulatory state and local laws
- Possible interface to a third-party digital wayfinding display (IP Displays)
- As built Drawings
- Permits and necessary licenses
- 120 VAC and low voltage power to all space sensors and Aisle/Row signs
- All wiring should be in conduit or cable trays. The vendor is responsible for all electrical and data requirements. All conduits have to be securely installed and must be RIGID, IMC or EMT material. Flex, PVC or liquid tight conduit will not be allowed.
- All communications cabling, including fiber terminations (where required)
- VLAN network switches
- Provide on-line regulating uninterruptible power supplies (UPS) for field equipment
- System commissioning
- Project Management

The following space counts apply to the surface lots and garages for your reference. Vendors are only required to provide single space sensors for the quantities shown in the last column. For each level incorporating single space sensors, vehicle wayfinding signs must be provided at strategic positions in the appropriate aisles/rows.

#### **WITNESSETH THAT:**

For and in consideration of the mutual promises, covenants, and stipulations of each Party to the other, the Company agrees to provide the Authority with services on the terms and conditions set forth herein as follows:

#### 1 PERFORMANCE

Company shall provide \_\_\_\_\_\_\_ to the Authority in accordance with the Scope of Services ("Scope of Services"), which is attached hereto as Exhibit A and incorporated herein by reference. The Authority and the Company agree that from time to time it may be necessary to add to, delete from, or amend the Scope of Services in order to better meet the needs of the Authority, as determined by the Authority in its sole discretion. In such event, the Parties shall, in writing, amend this Contract if the Parties reach an agreement on modifications of the Scope of Services and Compensation, which is defined in the "Compensation" section below.

#### 2 COMPENSATION

For satisfactory performance, the Authority agrees to pay the Company in accordance with the Schedule of Compensation ("Compensation") which is attached hereto as Exhibit B and incorporated herein by reference. #### 3 TERM AND RENEWAL

The terms of this contract shall be for such time as is required to fulfill the obligations set forth herein, and as more particularly described in the RFP, Scope of Services in Section 13 above.

#### 4 TERMINATION OF CONTRACT

The Authority may, at any time upon thirty (30) days written notice, terminate this Contract in whole or in part at any time, either for the Authority's convenience or because of failure by Company to fulfill the Contract obligations. Upon receipt of such notice, services shall be discontinued on the effective date of termination (unless the notice directs otherwise) and all materials as may have been accumulated in performing this Contract, whether completed or in progress, delivered to the Authority.

If the Authority terminates this Contract, the Authority shall be liable under the payment provisions of this Contract only for payment for services rendered and expenses incurred before the effective date of termination.

Company may terminate this Contract upon thirty (30) days written notice to Authority if Authority is in material breach of this Contract and fails to cure the breach before the end of the thirty (30) day notice period.

If, after notice of termination for failure to fulfill contract obligations, it is determined that the Company had not so failed, the termination shall be deemed to have been affected for the convenience of the Authority.

The rights and remedies of the Authority provided in this clause are in addition to any other rights and remedies provided by law or under this Contract.

#### 5 Upon Termination

If this Contract is terminated prior to Company's completion of the services to be performed hereunder, then all finished or unfinished documents or other materials prepared or obtained by Company pursuant to this Contract shall become the Authority's property to the extent allowable by law and accounting standards. If this Contract is terminated prior to Company's completion of the services to be performed hereunder, Company shall return to Authority any sums paid in advance by Authority for services that would otherwise have had to be rendered between the effective date of termination and the original ending date of the Contract. Company shall prepare an accounting of the services performed and money spent by Company up to the effective date of termination and shall return to Authority any remaining sums within thirty (30) days of such date.

#### 6 DEFAULTS AND REMEDIES

#### 6.1 DEFAULTS

Company shall be in default of this Contract upon the occurrence of any of the following events:

## **Memphis-Shelby County Airport Authority**

- a. If Company fails to comply with any of the provisions required of Company under this Contract, and such failure continues for a period of twenty-four (24) hours after written notice thereof is given to Company by the Authority; or

- c. Upon the levy of any attachment or execution of any process of a court of competent jurisdiction which does or will interfere with Company's performance under this Contract, and which attachment, execution, or other process of such court is not enjoined, vacated, dismissed, or set aside within a period of thirty (30) days; or
- d. Upon the suspension, revocation, or termination of any power, license, permit, or authority that has the effect of preventing Company from performing under this Contract.

Upon the occurrence of any one or more of the events as set forth above, or upon any other default or breach of this Contract by Company, the Authority may, at the Authority's sole option, exercise concurrently or successively, any one or more of the following rights and remedies without waiving such default or breach:

- a. Interplead funds to a court or pay any sum required to be paid by Company to parties other than the Authority, and which Company has incurred in connection with this Contract and failed to pay. Any amount so paid in good faith by the Authority, together with interest thereon at the maximum rate provided by law from the date of such payment, and all expenses connected therewith shall be repaid by Company to the Authority on demand; or
- b. Enjoin any breach or threatened breach by Company of any covenants, sections, terms, provisions, or conditions hereof; or

#### 7 RIGHTS AND REMEDIES CUMULATIVE AND NOT EXCLUSIVE

All rights and remedies granted to Authority herein and any other rights and remedies which Authority may have at law and in equity are hereby declared to be cumulative and not exclusive, and the fact that Authority may have exercised any remedy without terminating this Contract shall not impair Authority's rights thereafter to terminate or to exercise any other remedy herein granted or to which Authority may be otherwise entitled.

#### 8 RECOVERY OF FEES AND EXPENSES

In the event of any claim or other matter in question between the Authority and Company arising out of, or relating to, this Contract or the breach thereof and in addition to any other remedies or recoveries provided herein, the Company shall be liable for and shall promptly reimburse the Authority for any cost or expense incurred by the Authority, including fees and expenses of its attorneys, consultants, and experts, as a result of (i) Company's failure to perform in accordance with the terms of this Contract; (ii) breach of the warranties and guaranties set forth in this Contract; or (iii) any successful action taken by the Authority to enforce the terms of this Contract.

#### 9 WAIVER

Waiver by the Authority of any term, covenant, or condition hereof shall not operate as a waiver of any subsequent breach of the same or of any other term, covenant, or condition. No term, covenant, or condition of this Contract can be waived except by written consent of Authority, and forbearance or indulgence by Authority in any regard whatsoever shall not constitute a waiver of same to be performed by Company to which the same may apply and, until complete performance by Company of the term, covenant, or condition, Authority shall be entitled to invoke any remedy available to it under this Contract or by law despite any such forbearance or indulgence.

#### 10 FORCE MAJEURE

Neither Party shall be liable for any failure or delay in performance under this Contract (other than for delay in the payment of money due and payable hereunder) to the extent said failures or delays are proximately caused (i) by causes beyond that Party's reasonable control and (ii) occurring without its fault or negligence, including, without limitation, failure of suppliers, subcontractors, and carriers, or Party to substantially meet its performance obligations under this Contract, provided that, as a condition to the claim of non-liability, the Party experiencing the difficulty shall give the other prompt written notice, with full details following the occurrence of the cause relied upon. Dates by which performance obligations are scheduled to be met will be extended for a period of time equal to the time lost due to any delay so caused; however, such delays shall not be grounds for an adjustment in Compensation.

#### 11 ASSIGNMENT

The Company shall not assign the Contract or any part hereof or any monies due or to become due hereunder without the prior written approval of the Authority.

#### 12 SUCCESSORS AND ASSIGNS

The Authority and the Company each binds itself and its partners, successors, executors, administrators and assigns, to the other Party of this Contract and to the partners, successors, executors, administrators, and assigns of such other Party with respect to all covenants, terms, provisions, and conditions of this Contract. Neither the Authority nor the Company shall assign, sublet, or transfer its interest in this Contract without the prior written consent of the other; provided, however, that claims for money due, or to become due the Company from the Authority under this Contract may be assigned to a bank, trust company, or other financial institution, or to a Trustee in Bankruptcy, without such approval. # REQUIRED CONTRACT PROVISIONS FOR AIRPORT IMPROVEMENT PROGRAM AND FOR OBLIGATED SPONSORS

Federal Laws and regulations require that recipients of federal assistance include contract provisions in certain contracts without modification. The provisions in this section apply to this Agreement. The Company shall incorporate the applicable provisions, as indicated in this section, in all of the subcontracts that it enters into for work to be performed related to this Agreement.

Certain provisions must be included in all sponsor contracts, regardless of **whether or not** the contracts are federally-funded. This requirement was established when a sponsor accepted the Airport Improvement Program (AIP) grant assurances.

If the Contractor transfers its obligation to another, the transferee is obligated in the same manner as the Contractor. The above provision obligates the Contractor for the period during which the property is owned, used or possessed by the Contractor and the airport remains obliged to the Federal Aviation Administration.

#### 2 TITLE VI COMPLIANCE WITH NON-DISCRIMINATION REQUIREMENTS

Acts And Authorities on the grounds of race, color, or national origin.

#### 4. INFORMATION AND REPORTS

The Contractor will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Sponsor or the Federal Aviation Administration to be pertinent to ascertain compliance with such Nondiscrimination Acts And Authorities and instructions. Where any information required of a Contractor is in the exclusive possession of another who fails or refuses to furnish the information, the Contractor will so certify to the Sponsor or the Federal Aviation Administration, as appropriate, and will set forth what efforts it has made to obtain the information.

#### 5. SANCTIONS FOR NONCOMPLIANCE

In the event of a Contractor's noncompliance with the Non-discrimination provisions of this Contract, the Sponsor will impose such contract sanctions as it or the Federal Aviation Administration may determine to be appropriate, including, but not limited to:

- a. Withholding payments to the Contractor under the Contract until the Contractor complies; and/or
- b. Cancelling, terminating, or suspending a Contract, in whole or in part.

#### 6. INCORPORATION OF PROVISIONS

The Contractor will include the provisions of paragraphs 2.1 through 2.6 in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto.
